The choirs of Lansing and Newtonbrook United Churches led in the worship of praise and sang two anthems. The offering which amounted to over \$30.00 was given to the Hospital for Sick Children in Toronto.

Large congregations attended both services in the United Church last Sunday. The choir, under the leadership of the organist, Miss Bertha Smith, gave special Easter anthems which were very fitting and much appreciated. Rev. A. H. King hockey team covered itself with glory at Ravina Rink on March 31 in a 6-2 final game over sturdy Plattsville, capturing the Ontario Rural Hockey Association Intermediate A championship. They earned photo space and snappy headlines in Toronto newspapers. They won the full admiration from a host of township followers. Outplaying their opponents all the way, the King aggregation had little trouble winning the total-goal series 9-4. By the time this column is read the second series with Milton will have been played at Ravina April 7th. The spirit of co-ordination in the team is emphasized when we say they only practice when they play games, having no rink of their own except the far distant Bolton rink. Red Horner had plenty of compliments to tell them when he learned this fact. Years ago the King City soccer team won distinction on similar procedure. King athletes always do an all-out effort wherever they compete.

MODERN EQUIPMENT WINS THE DAY

THAT the prodigious task of providing the foodstuffs for an Empire at war can be undertaken by Canadian agriculture with less man-power than ever before is due to the high degree of mechanization of the farm which had been reached before the outbreak of war.

Massey-Harris leadership in the developing and building of such labor-saving equipment for the farm is recognized throughout the world, and has resulted in an enviable reputation for this great Canadian Company wherever grain is grown.

It is but natural, therefore, that a Company with such great resources in plant, skill and experience should be chosen for the production of various munitions of war. Several types of shell, aircraft wings and parts, and equipment for military transports are being turned out with the skill and efficiency which have made the name Massey-Harris famed throughout the years for products of highest quality.

Massey-Harris is proud of its part in providing the implements so essential in modern farming under war conditions and in furnishing munitions and equipment so vital to the success of our fighting forces.
