Word was received on Sunday that Pilot Officer James A. McCague was reported missing after air operations over enemy territory on Saturday. The sympathy of the community is extended to the family.

EARLY SPRING

Wild plum trees and cherry trees are in full blossom, tulips are in flower, a great many farmers have completed seeding, vegetables are well through the ground in many gardens, trees are in almost full leaf, in one of the earliest spring seasons on record. George Fuller this morning handed us a blade of some kind of grass in almost full head. It looks like Timothy but we are not expert enough to say that it is or isn't.

Liberal classified "ads" pay good dividends.

Queen's York Rangers are conducting an active recruiting campaign for Canada's Home Defence Army and a large number of men throughout the district are signing up. It is a possibility that a Company of the Regiment may train at Thornhill and the Lawrence Memorial Hall may be used for this purpose.

The small daughter sat watching her mother making up her face, no doubt wondering what it was all about. When it came to the time for the application of the lipstick the small girl could contain herself no longer.

"What do you put all that on your face for, Mummie?" she asked.
 "Mummie puts it on to make her look pretty," came the reply.
 "Then why doesn't it?" asked the small girl innocently.

"THE HOARDER"

PUBLIC ENEMY NO. 1

People who buy more of anything than they currently need, and merchants who encourage them to do so, are sabotaging the war effort and are therefore public enemies.

Loyal citizens do not hoard. They buy only for their immediate needs. They cheerfully adjust their standard of living, realizing that their country's needs must come first. They do not try to gain unfair advantages over their neighbours.

Are you a hoarder or a loyal citizen? Are you hampering Canada's war effort by unnecessary buying? Or are you

co-operating to the best of your ability to save Canada from such horrors as Hong Kong?

If Canadians do their duty, there will be no more hoarding. Everyone will get a fair share of the goods available. More food can be sent to Great Britain. More raw materials — more manpower — will be available for making guns, tanks, planes and other armaments to back up our armed forces.

In cases where it is advisable for you to buy in advance of your immediate requirements—such as your next season's coal supply—you will be encouraged to do so by direct statement from responsible officials.
