

**To The Electors of Richmond Hill**

LADIES AND GENTLEMEN:—

At the request of a large number of ratepayers who desire a more aggressive type of municipal leadership, I am offering myself as a candidate in the coming municipal elections.

I believe at this time our Village needs an administration keenly alive to the needs of all the people, and if entrusted with your confidence I will spare no effort to provide that kind of municipal government which will give our people the maximum service.

If a village is to progress it must have an aggressive administration, ready to make use of every opportunity to attain progress. That is the kind of administration I promise if elected as your Reeve.

My record of municipal service is well known to most of the ratepayers of the village, and improvements, tax reductions and economy consistent with progress always have been my motto.

I appeal to you for your support on my record of service and my pledge to give leadership in every possible endeavour which will help win the war, and contribute to our war effort.

Thanking you in anticipation of your support and with best wishes to every citizen, I am

Yours sincerely,  
**J. A. GREENE.**

**To The Electors of Richmond Hill**

LADIES AND GENTLEMEN:—

I am a candidate for Reeve of the Village of Richmond Hill for the year 1943, and in seeking your support and vote on election day, next Monday, January 4th, I would like to draw your attention to a few facts.

During my years in council I have been a factor in many new developments in our village. Two, I might mention are the construction of needed storm sewers, and the development of our new water supply.

An adequate water supply has been badly needed in this village for many years, yet no previous council undertook what looked like an almost impossible task. Yet the council of which I was a member undertook to face the problem, and I am pleased to have been one of the councillors promoting this project. In the past with the supply of water available we were almost afraid to have anyone install a new water service on account of the shortage of the supply.

A few years ago if your memory doesn't fail you, it will be recalled that we were let in for a terrible lawsuit with an expenditure altogether which cost this village, our village, over half what it cost to put in a proper storm sewer to correct the situation. Yet, we have in this municipal election, the gentleman who was then the Reeve, later defeated, trying to again gain this important post.

Fellow-electors, are you going to place faith in this gentleman again? I hope not.

Our village affairs are in good condition and we have a healthy bank balance. Don't take a chance and let anyone wreck it.

Trusting to have your support, I am

Yours truly,  
**WILLIAM NEAL.**

**To The Electors of Richmond Hill**

MY FELLOW-RATEPAYERS:—

It has been my pleasure and privilege to serve as your Reeve for the past three years, and looking back over that period it is a matter of satisfaction to me, as I know it must be to you, to note the marked improvement in municipal conditions.

Three years ago this village was involved in litigation over drainage matters in the Centre Street East district and long drawn out court cases and the mounting law costs were getting the municipality nowhere. This particular drainage problem has been satisfactorily solved to the great benefit of all concerned including the ratepayers of Richmond Hill.

Three years ago, and for some time before that, this village faced the problem of an inadequate water supply. Every dry spell created a crisis which threatened among other things the successful operation of important industries. The development of a new and adequate water supply is now almost completed, and almost paid for, and had it not been that equipment is held up by war priorities it would now be in use.

Your council has solved these major problems and finished this year with the largest cash balance in the history of our village. We now have reached the position where we safely can anticipate tax reductions, and barring unforeseen circumstances a reduction of from three to five mills should be possible in 1943.

These are trying days in the history of our country, days when there is a challenge to everyone of us to lend whatever help we can in the hour of the Nation's need. If my long experience in municipal affairs can be of any service to my fellow citizens of this my native village, I will esteem it a great honour and privilege to serve as your Reeve in 1943.

Thanking you, one and all, and in extending best wishes to everyone for the New Year I do so in the hope that through the unstinted and united efforts of all Victory and Peace may come soon to a troubled world.
