

30,000 More Hogs in 1943 Aim of York County Farmers

Ontario Farmers Have Undertaken To Increase Pork Production By Twenty-Five Per Cent

With the largest grain crop in the history of Canadian agriculture the farmers of the Dominion have accepted the challenge of Britain to provide even greater quantities of food stuffs in 1943 particularly in pork products, milk products and eggs. British farmers have been asked to break up another million acres of grass land to help combat

the submarine menace of the Atlantic. The farmers of Canada in their production campaign are actually in the Battle of the Atlantic.

Ontario farmers as their part of this are undertaking to increase their pork production 25% over last year's all time high and to that end the County of York has set as its objective the breeding of at least 4,000 additional sows in January or early February. This with proper care and management should place an extra 30,000 hogs on the market toward the 1943 bacon contract.

A glance at the advertisement appearing elsewhere in this paper outlines the various precautions recommended by the Department of Agriculture which hog raisers should follow to get the best results. Agricultural Representative W. M. Cockburn has just been conducting a survey of the mortality in young pigs in the County of York and he states that in one of the larger townships the loss is as high as 50%. In other words Britain gets half the litter and Hitler gets the other half. The average loss over the county runs between 35% and 40%.

It was found that anaemia causes the greatest percentage of the losses due mostly to the fact that most hog men do not feed the reduced iron or iron sulphate until the pigs show symptoms. Even though the condition is corrected the pig's growth is retarded. Every baby pig should get its iron regularly. Free pamphlets dealing with labour saving devices such as self feeders, etc., hog pastures, rations and saving little pigs can be obtained by writing to Agricultural Representative W. M. Cockburn at Newmarket.

According to our Agricultural Representative who is reporting to the War Services Board on all farm applications for postponement of military training, the Board is definitely not stopping the farms of essential help so that our farmers can with reasonable assurance expand their hog programmes to meet the needs of our increased domestic demand as well as the heavy contract with Britain.

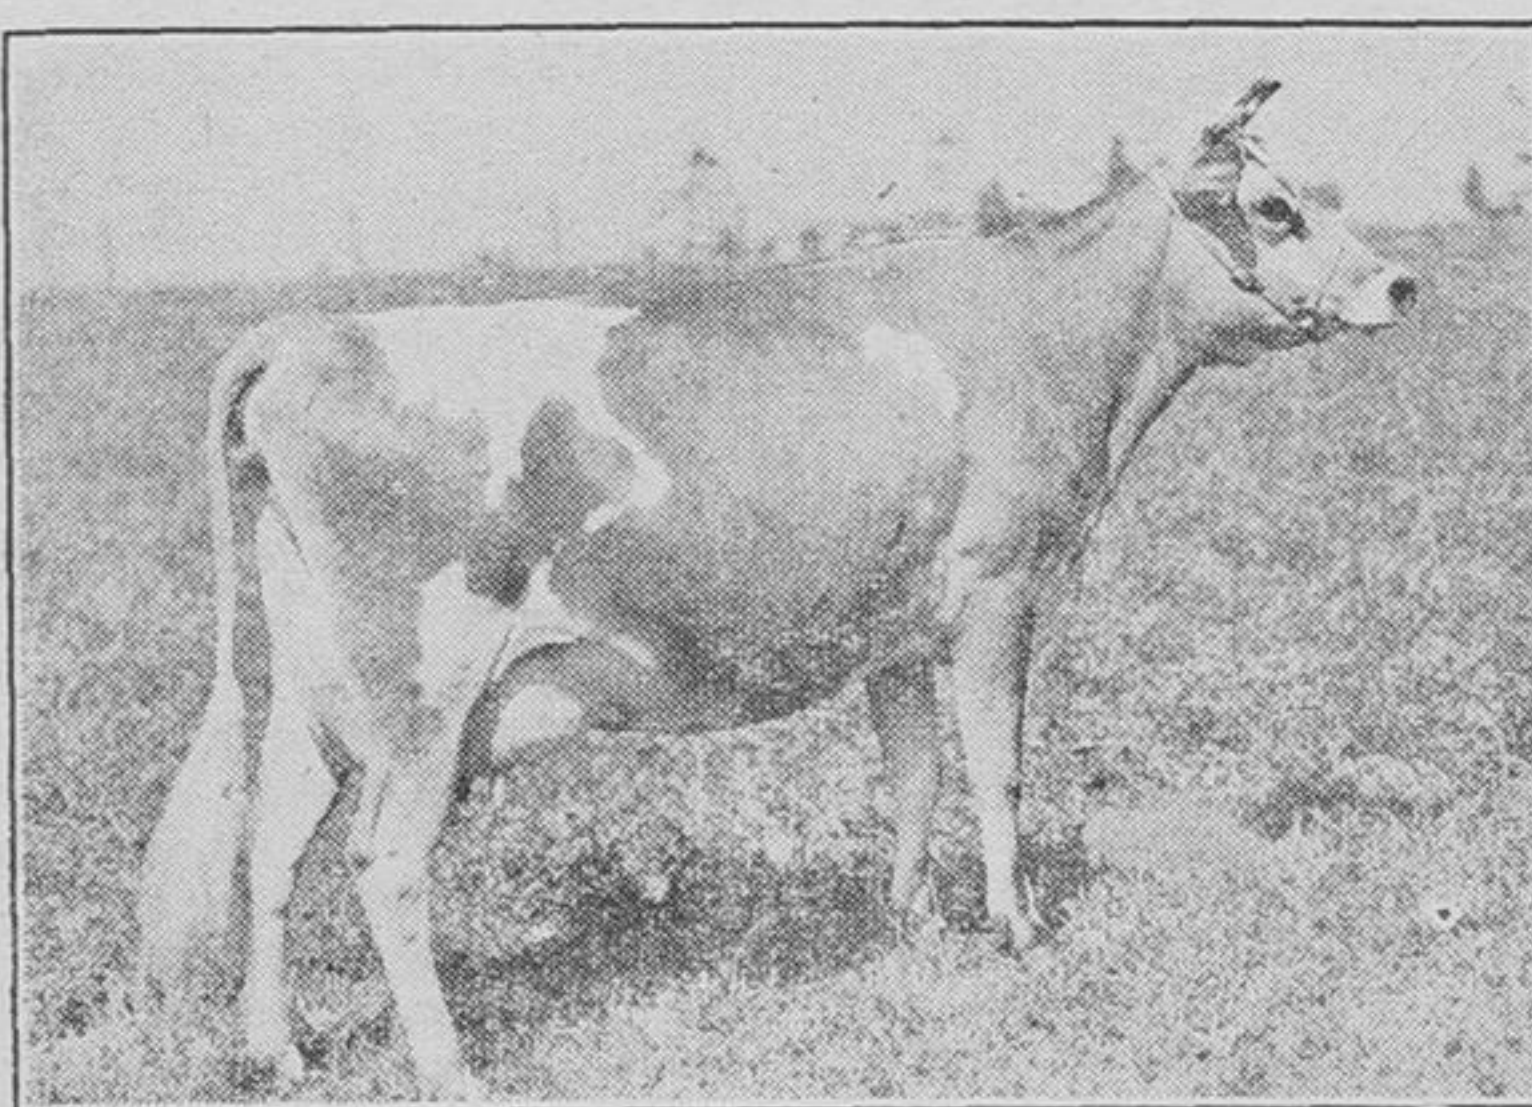

NOTICE OF APPLICATION FOR DIVORCE

Notice is hereby given that NORMA MADY ALBERT, residing in the Town of Garson Mine, in the Province of Ontario, will apply to the Parliament of Canada, at the next Session thereof, for a bill of divorce from her husband ELIAS GEORGE CHAMANDY, salesman, domiciled and presently residing at the city of Montreal, in the Province of Quebec, on the grounds of adultery and desertion.

DATED at Montreal, Province of Quebec, this 16th day of November, 1942.

JOSEPH HELAL,
Attorney for applicant,
Room 820, 159 Craig St. West,
Montreal, Province of Quebec.

THE NEW JERSEY CHAMPION

Shamrock Walnut Beauty, 13850, owned and tested by Don Head Farmers Limited, Richmond Hill, Ontario; bred by J. S. Baird, Markham, Ontario.

Beauty has broken the Jersey milk and butterfat records for two year olds on twice-a-day milking, producing 13,725 lbs. of milk and 715 lbs. of fat, with a test of 5.21% in 365 days.

Her blood lines show a combination of such great sires as Brampton Offrande's Taxpayer, 83997, her sire; Brampton Prince Merry, 103726, the sire of her dam; Taxpayer, Nobly Born, You'll Do's Volunteer; Design's Fern Oxford, Standard of Oaklands and Silver Prince of Shedden.

Don Head Farmers have a full sister of the new champion and both have classified "Very Good" as two year olds, the highest they can go at that age.

Term Report Of R.H. High School

The following students, in alphabetical order in their respective forms, have passed satisfactory term examinations by averaging fifty per cent or better in the subjects of their courses. Individual reports have been mailed to parents showing standing by subjects and rank in class. Parents are asked to consider these reports carefully, sign them (with any suggestions or comments) and return them by the students on the first day of school, Monday, January 4th, 1943. Any students absent from more than half the tests in the subjects of their courses have not been ranked in their classes and do not appear in the following list.

GRADE IX A

Nancy Austin, Betty Barber, Peter Bawden, Grace Bowyer, Robert Brethen, Betty Brown, Ray Charles, Douglas Charlesworth, Frank Chipperfield, Mack Clement, Joseph Dunleavy, Norma Empringham, Roberta Farquharson, Mary Green, Harry Hill, Robert Hirtle, Kenneth Hirtz, Allan Horwood, Bert Hunt, Robert Jordan, Shirley Joyce, Harry Legge, Donald Little, Marien Little, Heather McAllister, Ian McAllister, Reta Mallory, Douglas Mansbridge, Constance Runney, Eleanor Young.

GRADE IX B

Lorna Baker, Shirley Heeley, Elmor Patten, Mary Paxton, Coral Perkins, Muriel Rawson, Marjorie Reid, Helen Powlanson, Kathleen Rowlandson, Alfred Shenfield, Philip Stewart, Ellen Thomson, Helen Topper, Percy Witty.

GRADE X

Annie Baker, Beth Barton, Garth Bowes, Jim Boynton, John Buchanan, Shirley Burt, Barry Collard, Eric Cruickshank, Christine del Brocco, Lois Heise, Alma Marinoff, Peggie McKenzie, Bill Moore, Lorne Musson, Shirley Paris, Margaret Ransom, Hazel Reesor, Alverna Smith, Douglas Scotchmer.

X COMMERCIAL

Doreen Andrews, Bill Bowen, Bertie Forster, Betty Hall, Christine Hall, Ruth Hudson, Jewel Hyett, Betty Hoiles, Gladys Masters, Philip Mhorcan, Basil Paxton, Joan Paxton, Olive Ross, Gertrude Rose, Maire Siiskonen, Lorna Webb.

GRADE XI

Marjorie Bailey, Norma Barkey, Murray Bowes, Margaret Brown, Mary Burnett, Margaret Carpenter, Margaret Eby, Donald Farquharson, Sheila Hamilton, Dorothy Hirtle, Murray Hirtle, Betty Jackson, Tom Lamb, Tom MacLeod, Foss Mallory, Rose Masters, Wendy Meadows, Verna Musson, Billy Neal, Norah Orr, Jean Scott, Eric Upton.

XI COMMERCIAL

Ruth Bell, Irene Dibb, Isobel Kennedy, Isabelle McCulloch.

GRADE XII

John Curzon, Robert Endean, Harold Keffer, Larry Lake, Peter Lamb, Margaret Moore, Joy Mortson, Helen Ransom, Peggy Simser, Betty Smith, Doreen Stephenson, Greta Thomson, Anne Walwin, Joyce Webb.

GRADE XIII

Bernice Cook, Elaine Hirtle, Marian Lumb, Sheila Manley, Isabelle Orr, Philip Runney, Betty Topper, Ruth Wellman, Helen Whitten.

The average person is cutting down on meat consumption, but we still have plenty of the old baloney.

Factors In Canada's Food Requirements

Some interesting sidelights on how food requirements are estimated were given at the recent Dominion-Provincial Conference by Dr. G. E. Britnell, Economic Adviser to the Foods Administration, Wartime Prices and Trade Board. While the production of food products reached new heights in 1942, it was not too much to meet the demands of the gigantic appetite for it, he explained.

Two months ago, the Foods Administration began to estimate Canadian food requirements for 1943, said Dr. Britnell. Factors to be taken into consideration were civilian requirements, purchases for the armed forces, exports to Britain, Newfoundland, St. Pierre and Miquelon, the West Indies, and other places, and the increasing demand for foodstuffs to be sent by the Red Cross Society in parcels to prisoners of war. In the past 12 months, the Red Cross Society had sent about 6,000,000 parcels to war prisoners.

There was also the growing demand for food for ships' stores which was being met in Canada, and surplus cutting aircraft and other defence stations; also to armed forces of the United States stationed in Canada. The basis for minimum nutritional standards had to be considered. This basis is placed at 70 per cent of the National Research standards as adopted by the Canadian Council of Nutrition. The reason for using 70 per cent was because, in the Canadian dietary surveys 70 per cent was chosen as the line below which persons would be considered to be undernourished. The 70 per cent figure applies only to vitamin and mineral requirements for men and women — not to calories or protein or to iron allowances for women. For children, the maximum food standards were retained.

Dr. Britnell said it was fully realized that the present rates of production might not be sufficient to meet all these suggested requirements but the calculated requirements should form a working basis for objectives for production. When the production picture was complete, it would be necessary to match production with minimum nutritional requirements and to suggest the best uses of available supplies in the light of existing conditions. Civilian requirements are based on "as purchased" figures and make no allowance for waste, in storage distribution or use in the home.

The nutritional value of the overall civilian food supply in prospect for 1943 appears to be about as good as the average for 1935-36.

Dr. Britnell said: "We cannot afford to use production resources for programs which will not contribute to overall needs of essential foods for civilian, military, and export commitments. It is reassuring to know that current agricultural plans are taking into account nutritional needs as well as other factors."

NEW YEAR'S NIGHT DANCE AT MAPLE

Carl Black's orchestra will provide the music at the annual New Year's dance at Maple Concert Hall, Friday evening, January 1st.

Being a paratrooper is one of the few jobs where a fellow can start at the top.

DURING JANUARY
100,000 MORE SOWS
WILL BE BRED ON ONTARIO FARMS
TO PRODUCE OUR INCREASED SHARE
OF BACON FOR BRITAIN
York County's Objective Is
4000 EXTRA Sows

The Ontario Department of Agriculture co-operating with the farmers in this undertaking, urges reduction of the present 40% mortality in young pigs by the following precautions:

1. Proper feed, exercise and sanitation for brood sow.
2. Hover and creep for winter litters.
3. Always feed some form of iron regularly.
4. PREVENT Anaemia by feeding iron.
5. Balance all rations with a protein concentrate.
6. Write your Agricultural Representative for new booklets dealing with Saving Little Pigs, Rations, Labour Savers (self feeders etc.), Hog Pastures.

EVERY PIG SAVED WILL PROVIDE BACON FOR 9 BRITONS OR 9 OF OUR BOYS

P. M. DEWAN,
Minister of Agriculture,
Parliament Buildings, Toronto.

W. M. COCKBURN,
Agricultural Representative,
Newmarket, Ontario.

Raise All The Beef And Hogs Possible

"There is only one direction in which a mistake can be made in connection with the Canadian agricultural program for 1943 and that is in producing too little," said Hon. James G. Gardiner, Dominion Minister of Agriculture, at the Dominion-Provincial Agricultural Conference held recently in Ottawa. He made this statement during the discussion on estimated requirements for meat production for 1943, and urged encouraging farmers to add weight to their beef cattle before marketing.

Referring to hog production, Mr. Gardiner said that if the objective of about 8,000,000 hogs was to be reached in 1943, each section of Canada must produce the outside figure that was set for such a section. The wheat farmer of Western Canada could raise more of the quota of hogs requested than could farmers elsewhere in Canada. He could now safely breed all the sows available. Farmers in the Dominion should raise all the beef and all the hogs possible throughout the next two years, said Mr. Gardiner.

Sometimes we don't appreciate home as much as we should until we get away from it— 'Tis one of life's great tragedies, I thoughtfully declare, That we can't see home's attractions While we're there!

An old-timer is the one who can recall when a person would take a sea voyage for pleasure.

A buck private has to remain calm. There is no one under him to bawl out.

Coffee by any other name is just as hard to get.
