

SOCIAL AND PERSONAL

Miss Madeline Clark, Richmond Street, entertained a group of girls from Toronto at her home Saturday afternoon.

Miss Bernice Heeley, R.N., of Kirkland Lake, spent the week-end with her parents Mr. and Mrs. E. Heeley, Elgin Mills.

Mrs. W. T. Savage and family of Brockville are visiting for a few weeks with Mrs. A. G. Savage at Lake Couchiching.

Mrs. Harvey and Mrs. Roberts of Orillia, and Mrs. (Dr.) Lovering of Toronto visited a few days this week with their cousin Mrs. Clark, Richmond Street.

Mr. Edward Heeley of Elgin Mills is in St. Michael's Hospital, suffering from blood poisoning. His many friends wish for him a speedy recovery.

At the close of the choir practise on Friday evening last, the members of St. Mary's Anglican Church choir spent a very pleasant social evening at the home of the organist. Games were played and refreshments served.

We received a welcome letter this week from Sgt. H. R. Lunau who is at the west coast with the RCAF. His wife and son Jimmie who have been with him for the past six months have returned to their home at 46 Arlington Ave., Toronto.

Mrs. J. Leonard Hodgins, the former Mary Brillinger and baby daughter Mary Lou have been visiting at the home of her parents Mr. and Mrs. Percy Brillinger and sister Mrs. James Cowling for the past two weeks. Her husband is stationed with the R.C.A.F. at Brandon, Man.

The W.A. Deanery Conference held at St. Paul's Church, Newmarket on Thursday of last week was well attended. Twelve delegates represented St. Mary's, Richmond Hill branch. The Rector, Rev. W. F. Wrixon was present and met in conference with the Clergy of the Deanery of West York.

IN MEMORIAM

McLAUGHLIN—In loving memory of my dear "Dad", Joseph McLaughlin, who passed away June 16, 1938. When the toll of the day is over

And my thoughts are settled down There is one thought that never leaves me,

Of my dear dad who is gone. Tho' his smile has gone forever. And his hand I cannot touch I shall never lose sweet memories Of the dad I loved so much. —Still sadly missed by daughter Ella.

PREPARING FOR A LIGHTNING THRUST ON GERMANY'S COASTAL SHIPPING

Picture shows: Loading torpedoes on board a motor torpedo boat, one of the British Navy's little ships with a high speed and great powers of destruction. The official name for these small craft is M.T.B. 34. They vary from eighteen to thirty-two tons, are about 72 feet in length, and touch speeds up to 50 knots. Some of them carry two 21-inch torpedoes, two machine guns and depth charges. It can be a tough life on board, and they have special padding in various parts of the ship to prevent injuries. These small craft are constantly jarring the nerve of the enemy. They are constantly delivering the unexpected blow.

ORDER REPAIR PARTS

Farmers may run into new difficulties in harvesting this year's crops unless they order repair parts for their farm machinery without delay, the Dominion Department of Agriculture states. Reiterating the warning of last December, the Department explained that farmers who wait until haying time before ordering repair parts for mower, rake, and loader cannot expect prompt deliveries from farm implement manufacturers. Ordering machinery repair parts now may mean the difference between a lost crop and a good harvest.

Beware Potato Growers

That everyone is potato conscious this year is shown by the number of enquiries being received by the Agricultural Representative about treating seed for blight and what not. Most of these would-be growers are starting at the wrong end. Seed cannot be treated to prevent Late Blight but plant only healthy seed.

This year promises to be an unusually bad year for the Flea Beetle. This is a small black beetle about the size of a pin-head which hops off the plant when you come near it. It damages the plants (also tomatoes and the other garden crops) by making small "perforation" holes in the leaves, seriously reducing yields. They are there now in thousands and potatoes should be dusted or sprayed when not over 6 inches high.

Mr. Cockburn points out that "Bordeaux Mixture", a bluestone and lime preparation is the proper preventative spray or use a copper dust. When the old fashioned potato bugs are present, include a poison such as Lead Arsenate or Calcium Arsenate. The dust or spray with or without the poison absolutely must be continued every week or 10 days right up to digging time, and it is important to get the material on the under surface of the leaves as well as the top.

Fortunately the same copper spray or dust acts as a repellent or protection against both Flea Beetles and Leaf Hoppers as well as late blight. All experimental results were confirmed by the demonstration plots in the Mt. Albert, Sharon, Queensville, King City and Maple areas during the past three years, when each spray or dust produced from 10 to 12 bushels increase in yield per acre at a cost of about \$3.00 per spray.
