

## Hill Team Continues To Win Before Record Crowd of Fans

### Scarboro vs Chapman's, Richmond Hill vs Markham In All Important Games Friday Night

Richmond Hill Juniors are still undefeated in their group race and last Friday night handed the strong Oshawa Jr. B's another set-back when they defeated them at the local arena by the score of 2-1 on very bad ice. The ice conditions made it impossible for either team to make any team play and the game developed into a real shinny battle. Referee Cy Kelly handled an excellent game and in the first two periods handed out several penalties and in the final stanza neither team drew a penalty which was something unusual for the conditions they were playing under.

Mack Clement opened the scoring for the local team in the first period on a beautiful solo effort and took a shot which had Corwatz beat at all times. Bill Mundell made it two early in the second period when he banged in Lorrie Smith's rebound. It was at this stage that Oshawa came to life and really made it interesting for the Hill. Dell scored for them on a pass from Wales and it looked as if they might easily tie it as the Hill boys seemed to be tiring.

The third period neither team did any scoring (which counted, both had goals disallowed). At this hour of the night the ice showed the wear and water appeared in several spots and the puck was beyond control. Oshawa, however, did have the better of the play and it was only the miraculous saves of Stunden in the Hill nets which saved the day for them.

The first game between Toronto Chapman's and Varsity ended in a 4-all tie and due to the soft ice it was agreed between the two teams that there would be no overtime.

This was the second time that the Chapman's had to come from behind to tie the score and play overtime and before many games have gone they will break into the win column. Varsity had control of the play at all time in the first period and scored twice before Chapman's came back with a counter.

Chapman's came to life in the second and really made it interesting for the boys in blue and they scored three times while Varsity bulged the twine for only one counter. Ending the score for the game at 4-all. Neither team scored in the last period.

Miss Marion MacKillop was the winner of the lucky number program.

Local fans are in store for two real tussles this Friday night when Scarboro takes on the Chapman's and Richmond Hill will be hosts to their old opposition, Markham. Both these games will be worth driving miles to see and by all indications Richmond Hill Arena will be filled to capacity. All that is necessary is for the old weather man to give us a few cold hours. Exactly 508 paid the admission fee to the arena last Friday night so if you want a good spot come early and don't miss these games. First game commences at 7:30 p.m. sharp.

Have you your guess in for the Bulova watch donated by Chapman Bros. Jewellers to the person who can guess the correct standing of the teams at the end of the schedule? Entry forms are enclosed in the Lucky Number Program offered for sale at all Junior games. Make sure you secure your program this Friday night and enter the contest. Contest closes on Saturday, January 19th.

## Government Policy Defined On Aiding Public Projects

By Jack Marsh, special correspondent of The Liberal  
Ottawa, Jan. 9.—Surprise was expressed in government circles today that there should be any confusion in Toronto over the Dominion's plan to help finance public projects for cities and provinces. It is pointed out that:—

(1) A Dominion-Ontario agreement with respect to such financing must be arrived at before the Dominion government could share the cost of Toronto's new rapid transit system.

(2) The rapid transit system would also have to be undertaken at a time of unemployment in Toronto to qualify for Dominion government assistance.

(3) "Time of unemployment" is not a term that will not be loosely interpreted when it comes to opening the public treasury to assist in public reconstruction projects. Idleness which results from industrial transition to a peace basis will not be regarded as sufficient to justify Dominion expenditure.

"The government can follow no other policy and at the same time avoid inflation," pointed out The Liberal's informant. "So far the government has steered clear of inflation, and it is not likely to plunge into it now or to increase the public debt by expenditures, in themselves desirable, but nevertheless calculated to check private enterprise by the maintenance of high business and

personal taxation. "The case of Toronto transportation is not an isolated one. If the government were inclined to be lenient or indulgent and relax its policy for Toronto, what would prevent every other municipality in the Dominion from expecting similar help for transportation, light plants, sewers and anything else for which the residents might have a fancy? And what would that do to taxes?"

## North York M. P. Guest Speaker At Willowdale Lions

J. E. Smith, M.P., was the guest speaker at the North York Lions Club which met at Willowdale Monday evening. The North York member was given a hearty reception by his fellow Lions and in his remarks gave some interesting highlights of the recent session of Parliament and discussed some current problems. Mr. Smith appealed especially to Lions and all public spirited citizens to take an active interest in the rehabilitation of our returning service personnel. "The government has provided extensive plans and made generous provisions for our returning service men," he said, "in a rehabilitation program which we are proud to say is the most generous of any country in the world. However there is always that extra mile which the interested individual can go beyond anything any government body or official agency can accomplish in really rehabilitating these boys who are returning after several years on the war fronts. Let's not forget them after the enthusiasm of the official welcome is over," said the speaker. "Rather let's keep in close touch with them, take them by the hand and work together with them in building the better world for which they fought and for which their comrades died."

In discussing the current increase in crime which is causing considerable alarm throughout our land the speaker said it was unfortunate that while we spend millions of dollars and expend measureless energy trying to make good citizens of our youth, we sit calmly by and tolerate the existence of other influences which tend to nullify our efforts. He mentioned a certain type of movie and some publications which had a demoralizing influence and were productive of poor citizenship. We must seek to provide new means of guidance and recreation for youth and we must at the same time seek to

## Snow Plowing Gives Markham Headache

Markham Township Council in its first regular meeting on Monday afternoon decided to call for tenders for the plowing of snow for township roads as the new snow plow and road maintainer ordered some time ago will not be available until the middle of April. Several members of council felt that for the time being snow could be taken care of by the present road maintainer and what it could not take care of would just have to be let go. Councillor Les Couperthwaite, a new member of council, stated "there was no reason why the back farmers should not be taken care of as well as the farmers on the paved highways and they should be able to get to the city and have their goods on the market as well as the next fellow."

The truck which did the plowing last year will not be available as it is at present on other road work. The tenders will be opened at a special meeting of the council Saturday afternoon at the council chambers.

A committee will be formed from representatives of the Red Cross, Veterans, Junior Farmers, Women's Institute, churches, Lions Club and the members of the council to find out what can be done, and what the most need of the boys returning home from the war is. The council is very anxious to see that the boys are taken care of and it is hoped that this committee will bring something worth while before them. Tenders for a new truck for the township are also being called for. The necessary by-laws appointing the township officials were passed.

eliminate those influences which now tend to lawlessness and poor citizenship.

The speaker was introduced by Lion Tom Wiltshire and was tendered a hearty vote of thanks by the members. Three new Lions were received at the meeting, one of the new members being Rev. L. C. Secrett, formerly of Richmond Hill, now Rector of St. George's and recently returned to his parish after serving as a padre with the armed forces.

## RICHMOND HILL MUNICIPAL COUNCIL INAUGURAL MEETING HELD MONDAY

### Dr. Frank S. Hogg Appointed To High School Board—Standing Committees Same As In 1945—Council Planning For Improved Street Lighting—Radial Revenue Soars

Reeve William Neal and all members of Richmond Hill council attended the inaugural session held in the Municipal Hall Monday morning. Rev. Father Duffy of St. Mary's Catholic Church offered up prayers and delivered an inspiring message to the members of council embarking on a new municipal year. Reeve Neal was elected by acclamation for 1946 for his third term and Councillors Ralph W. Paris, Wesley Middleton, Allan Bales and P. C. Hill were elected in the election held the first Monday in December. J. E. Smith, M.P., was present for the inaugural ceremonies and extended congratulations to the members of council.

Ceremonial and routine business occupied the time of the morning session and the council adjourned until eight o'clock. Reeve Neal congratulated the members on their reelection and appealed for their cooperation in handling the municipal business in the coming year. He drew attention to the fact that many lines of material are still in short supply which for some time to come would stand in the way of some projects planned for the future. All members spoke briefly and spoke optimistically of the future of Richmond Hill.

Dr. Frank S. Hogg was unanimously appointed as a member of the High School Board succeeding James Skeele who expressed a desire to retire after many years service on the Board. Reeve Neal and members of the Board paid tribute to the retiring member for valuable and devoted service rendered during past years. James Stewart, High School Principal, was re-appointed as a member of the Public Library Board and Walker Hall was appointed again as member of the Board of Health. Allan W. Walker was named again as auditor for 1946 and other appointments included, Councillor Wes Middleton as Building Inspector, T. Allison as Sheep Valuer and Fred Clark and T. Allison as Fence Viewers.

In moving the re-appointment of W. S. Pocknell as assessor Councillor Middleton pointed out that this was a very important post and was worth more money than in the past. He moved that the salary be increased to \$350 per annum. All members of council agreed that Mr. Pocknell was giving excellent service and unanimously supported the increase.

After some discussion the standing committees were named the same as last year. Councillor Paris suggested that there might be a reallocation of portfolios but the majority opinion was in favor of carrying on the same as last year. Committee heads will be: Finance, Reeve William Neal, Hydro and Fire Department, Councillor P. C. Hill; Parks and Buildings, Councillor Ralph W. Paris; Waterworks, Councillor Allan Bales.

Correspondence read included letters from supply houses which advised that pipe for sewer construction still is in short supply and would not be readily available for some

months. D. M. Chamney, local Hydro Superintendent, was present on the invitation of Councillor P. C. Hill, Hydro committee chairman, to discuss with council members plans for improved street lighting. Many phases of the question were discussed, and while improved lighting for the village is definitely on the council program, all members in conjunction with Mr. Chamney will investigate carefully all the newest developments and will inspect new lighting installations in other centres before making a decision.

Fire Chief Bert Cook and James Pollard appeared before the council and discussed the proposal to purchase a new fire truck for the village. As Richmond Hill supplies fire protection to a considerable area in Markham and Vaughan Townships a meeting will be called shortly with representatives of these municipalities to discuss the whole fire protection problem.

The usual grant of \$10 was voted to the Salvation Army on motion of Councillors Bales and Paris.

The T.T.C. statement on the operation of the North Yonge Radials for November showed an operating profit of \$6,510.58 compared with an operating profit for the corresponding month in the previous year of \$5,015.45. Passenger revenue on the radials for the first 11 months of 1945 showed an increase of \$11,841.15 or 6.79 per cent over the corresponding period in 1944. The statement for the complete year 1945 is expected to be issued soon.

Nowadays loose change doesn't remain loose for any length of time.

A silent celery has been developed, and now we need a muffer for the man who gobbles his soup.

MAJOR IAN EISENHARDT  
National Director of Physical Fitness, Ottawa, who is to address a general meeting in Thornhill United Church Sunday School room on Thursday, January 17th at 8 p.m.

## New Minister Of Health, Hon. R. T. Kelly To Address Richmond Hill Men

Since the Hon. Russell T. Kelly, M.P.P. of Hamilton was invited to address a gathering of Laymen in St. Mary's Parish Hall on Monday, January 21st next, he has been appointed Minister of Health for Ontario. The Hon. Mr. Kelly comes to Richmond Hill not as a politician but as a churchman to talk about church matters to men of all denominations. Mr. Kelly has a wide range of public services. He was in charge of the Red Cross Blood Donor's organization. He is president of the Russell T. Kelly Ltd. advertising agency in Hamilton. He has been twice president of the Hamilton Chamber of Commerce, past president of the Ontario Associated Boards of Trade and Chambers of Commerce. Among a host of widely varied interests he includes the Y.M.C.A., Red Cross and the Navy League. The Hon. Russell T. Kelly, busy though he is in many activities, finds time to devote to the cause of Christ and the church. A leader in the Anglican Church he is vitally interested in the Canadian Council of Churches and the place of laymen in the church of the future. Supporting the Hon. Russell T. Kelly and introducing him will be Mr. E. B. Warriner of "Brookside Farms" in Markham Township. Like Mr. Kelly, Mr. Warriner has a wide range of public services. He is a member of the Executive of the General Council of the United Church of Canada, Chairman of the Board of Governors of Albert College,

HON. RUSSELL T. KELLY

Treasurer of the Canadian Council of Churches. He has been prominent in connection with the Ontario Religious Education Council and other important services. All men interested in the welfare of the church are invited to be present at 8 p.m. sharp and are promised an evening of inspiration and fellowship.

## Wait And Keep Eye On City Says Weldrick On Radials

The question of improved public transportation from Toronto came before Vaughan township council this week at its first 1946 meeting.

"Radial patrons are demanding a faster service," declared Councillor Bert Phelps. "The complaints over the present service have become even more vigorous since Toronto approved its new rapid transit plan. If we are to benefit by the general improvement about to take place, it is high time we put in our oar and commenced to row. I propose a meeting with Markham, North York and Richmond Hill councils to try to plan some action."

Reeve Weldrick: "What percentage of people are complaining. Very few have come to this council to complain about the service, and we must not forget that the radials are a paying proposition. I think that as long as the cars are running and paying us a profit we should leave things alone. Let us wait and see what Toronto does."

Pine Grove school trustees asked for the appointment of a school nurse. "Several school districts have asked for a nurse and we should

certainly give them one," said the reeve.

Council learned that the provincial government pays no bounty on foxes during the winter months, and it was pointed out that with no returns coming from the government and with the price of pelts down, farmers see no advantage in using gasoline in chasing foxes.

James McDonald, the clerk, reported that 92½ per cent of the 1945 taxes have been paid, leaving arrears of \$2,212 as compared with \$2,597 in 1944, \$3,701 in 1943 and \$6,845 in 1942. In 1935, tax arrears amounted to \$33,980.

Fence viewers, pound keepers, stock valuers and weed inspectors were appointed, and council announced its decision of attending the good roads convention.

The question of lights on Yonge St. was also briefly considered. "They are very necessary," said Councillor Phelps. "The question is one for all municipalities and not for Vaughan alone," replied Reeve Weldrick. "A price was obtained some time ago and it proved to be very high."
