WORLD FRUIT CRISIS MAY LAST FOR YEARS

The critical world food situation may last for four or five years. Ample evidence exists to show that, even with the average or better than average yields for the remainder of 1946 and 1947, the world food situation will remain critical, at least until the harvests of 1947. Sir John Boyd Orr, Director General of Food and Agricultural Organization, has stated that the world food situation is likely to remain critical in one way or another for the next four or five years, and has urged some agreement on a plan for international agricultural action over that period of time.
The grain supply outlook for the approaching season is anything but reassuring, states the Monthly Review of the Wheat Situation. A preliminary estimate of world food needs and supplies for 1946-47, prepared by the FAO, reveals that in the case of wheat the import needs of the deficit countries may be as large as 20 million metric tons in order to maintain a minimum subsistence. On the other hand, assuming average weather conditions, the amount available from the "Big Four" exporters is not likely to exceed 20 million tons.

"What's become of the Hikers' Club?"
"Oh, it disbanded. It was getting too hard to persuade passing motorists to pick us up and give us a lift."

BUTTONVILLE

Guest speaker at Brown's Corners United Church on Sunday morning was the Rev. Eral Currey of Central Butte, Saskatchewan, sister of the newly appointed minister, Rev. E. A. Currey. She based her discourse on the three sentences "I stand where He stood," "Jesus Wept" and "Rejoice with those that do rejoice and weep with those that weep." From these she showed the attitude of Jesus toward His fellowman and exhorted us as Christians to act like Him and really love our neighbours as ourselves.

NEWTONBROOK

A playground has been opened on the school grounds on Drewry Ave. for the use of all children up to 16 years of age. A full time supervisor is paid by the North York Lions Club and the equipment has been purchased by the G. R. Goulding Home and School Association. Equipment on the grounds consists of swings, slide, tuteurs, tether tennis, volley ball and baseball equipment. Two hours each morning the children who wish can attend handicraft classes held in the basement by a qualified lady instructor. There are also many small games to be played either inside or out. This is the first supervised playground in this area and so far has been very successful.
Our local boys played a good game of baseball on Friday night against Willewdale winning 8 to 3. A good crowd was in attendance.
High honours came to our community recently when a local girl, Miss Marion Saver took the title of "Miss Canada" in a beauty contest. Miss Saver also held the title of "Miss Toronto" in 1943.

Price Control And Rationing Information

Typical questions consumers have asked the Wartime Prices and Trade Board this week are answered by the Central Ontario Consumer Branch Committee.
Q. Are laundries allowed to increase their prices? The laundry I have dealt with for years has raised the rate on our laundry from six cents per pound flat work to eight cents.
A. As you gave us the name of the laundry we have checked their prices and find they were given permission by the Services Administration of the Board to increase the price for this particular type of work from six to eight cents a pound. Their prices were below those charged by other laundries for similar work and it was impossible for them to continue this service except at a considerable loss.
Q. Would you please let me know when restrictions will be lifted so I can move into our own home by giving one month's notice to our tenants?
A. There is no indication that the "freezing order" will be lifted in the near future. When the regulations are changed to permit persons to give tenants one month's notice to vacate you may be sure that there will be ample notice given both in the press and over the radio.
Q. My grocer has pork and beans and tomato ketchup for sale in his store but you cannot buy either one unless you buy a can of tomato soup and a can of vegetable soup at the same time. Is he allowed to do this?
A. No. This is a conditional sale and such sales are illegal. The display of merchandise in a store in Ontario does not make it necessary for the storekeeper to sell. In other words he can refuse to sell these articles which are in limited supply, but he cannot ask a customer to buy something else in order to obtain any other product.
Q. I have lived in this house for six years on a monthly basis. Today I have been advised the owner has sold the house to another man. Would you please advise how long I have to find another home or can they put me out? If a returned man happened to be wanting this house, would that make any difference in time allowed me to find another place?
A. From your letter we cannot see that you can be given any notice to vacate from the old or the new owner. Under WPTB rentals regulations, tenants of self-contained accommodation are frozen as far as notice is concerned. If the new owner is a veteran and providing he bought the house or occupied it at the time of his enlistment, then he could give you three months notice to vacate. Otherwise a veteran-owner is on the same footing as a civilian owner. If you have any further questions about your position as a tenant, please call in at the nearest Rentals office. They will be glad to give you any information you wish.

AT YOUR SERVICE

In 1886 — 60 years ago — the Dominion Experimental Farms were founded. Starting with five farms the System has since been extended to 34 farms and stations and 210 illustration stations. This System, the largest and most comprehensive of its kind in any country, is maintained, with the other Services of the Dominion Department of Agriculture, for the promotion of agriculture and the national economy of Canada.

As a result of the work carried out in the past by all the Services of the Department in co-operation with the provinces and agricultural colleges, a much greater measure of stability has been given to farming in the Dominion.

Now that the war has ended all the Services of the Dominion Department of Agriculture — Experimental Farms, Science, Production and Marketing — visualize a broader and fuller program of usefulness to the people of Canada. The facilities of these Services are varied and extensive. Everybody in Canada is invited to take advantage of them freely. The Department is always ready to assist in any way in the advancement of the basic industry of Canada — Agriculture.
