

## STREET DANCE A PRECEDENT HARD TO BEAT -- REEVE NEAL

With receipts of \$3,600.00, Richmond Hill Lions this year held the most successful street dance in their history, and congratulations are being extended to P. C. Hill, the president and his able lieutenants, N. Chatterley as chairman and R. Paris as secretary, in making so impressive a showing.

There were games for everybody, and a gay crowd of several thousand persons made up of dancers from near and far tripped the light fantastic until midnight.

"Everybody appeared to have a good time," said Reeve William Neal, "and certainly enthusiasm and good spirit abounded. The 1946 dance sets a precedent it will be difficult to surpass in future years.

Prize winners were—1st, ticket No. 4904, refrigerator, John A. Mahley, Richmond Hill; 2nd, 7973, washing machine, Mrs. W. Maxson, 98 Robina Ave., Toronto; 3rd, 8510, bicycle, Doris Kinex, 125 Greenlaw Ave., Toronto; 4th, 5016, mantle radio, C. S. Nesbitt, Aurora; 5th, 1288, electric toaster, Mrs. E. Mansbridge, Richmond Hill; 6th, 6960, electric iron, Sheila Allen, Richvale; 7th, 1123, blanket, R. E. Coles, 200 Fern Ave., Toronto; 8th, 8359, blanket, Leonard Murray, Woodbridge; 9th, 5158, mixing bowls, A. W. Pugsley, Sutton; 10th, 8270, pyrex set, Jean Armstrong, Richmond Hill.

## Melville Parisi Acquires Glass's Former Store Plans Shops, Apartments

One of Richmond Hill's Yonge St. landmarks, the shop in which the Glass family conducted a butcher business for many years until a short time ago when Lauder Glass transferred it to his new store, has been sold.

The vendor is the Pugsley estate and the purchaser is Melville Parisi, brother of Joseph Parisi, one of the outstanding merchants of the village. Mr. Parisi who has had considerable experience in building apartments and stores in Toronto, proposes to erect two modern stores and apartments on the site of his new purchase.

He hopes to have the new buildings ready by Christmas, but pointed out to The Liberal that the question of the completion of a building depends largely on the availability of materials.

## Fall Flower Show Sat., Sept. 7th

A well attended meeting of the Directors of the local Society was held Wednesday evening, August 7, on Mr. B. L. Anderson's lawn, when arrangements for the Fall show were discussed and the date, September 7th, was confirmed. Twenty-four prizes will be given out to exhibitors. Al Rice is the Director in charge.

Other matters of interest to the Society were considered, including plans for next year. The Society is now the largest in its history.

## Humane Society Organized For Richmond Hill District

The successful inaugural meeting of the local Humane Society was held in the Municipal Hall, Richmond Hill, on August 8th. Convened by Mrs. D. Askew, the group was addressed by Mr. F. H. Cook, president, and Rev. Chris. Loat, secretary, of the Ontario S.P.C.A. (Humane Society).

Mr. Loat outlined the steps to be taken in the foundation of such an important local Society. The first aim of the Society is education. It is by this means only that it can achieve its ultimate goal: "To run itself out of business". Many highly interesting bulletins and pamphlets are available for educational purposes, free of charge to anyone. To show how successful the educational program is, the speaker pointed out that of the thousands of complaints received, only 28 convictions were obtained by the Humane Society in all of Ontario, last year.

Richmond Hill and district has an exceptionally good record, only two complaints having reached Mr. Loat lately. This is one more reason, he said, to stress education, and keep the slate clean.

A temporary executive was elected as follows: Mrs. D. Askew, president; Mr. K. Ruffman, vice-president; Mr. F. Redelmeier, secretary-treasurer; Mrs. Unger, education, as well as representatives from the following communities: Mrs. E. Neelham, Edgeley; Mrs. L. Redman, Concord; Mrs. E. Abram, Markham.

The executive was charged to commence organizing the local Society, until such time, when the members know each other better, and a permanent executive can be elected. The territory covers Richmond Hill and district, including parts of Vaughan, Markham and King townships, and it is planned to have each district represented on the board.

After the election of officers, Mr. Loat showed two impressive colour-sound movies of animal life, and the activities of a humane society. These films, it is hoped, will later be shown in the public and high schools in the district.

Anyone interested "To Help Those Who Cannot Speak For Themselves" is invited to join the local Society, by communicating with any member of the executive.

## Urges 'Safety Campaign' Receive Generous Support

The Liberal gladly acquiesces in a request to publish the following letter by Harold Nash, president of the police association of Ontario.

A. H. Wilfred, Esquire,  
Toronto.

Dear Sir:

As President of the Police Association of Ontario, I fully endorse the "Safety Campaign" being sponsored by the Chief Constables' Association of Canada.

In my opinion, there never was a time in the history of the motor vehicle when such a campaign was more necessary, taking into consideration the greater percentage of the motor vehicles being operated on our highways that can be classed as having outlived their usefulness as far as mechanical fitness is concerned.

It is of great necessity that the motor vehicles be given a very thorough inspection so as to safeguard our citizens from serious injury or, in many instances from resulting in a fatality.

Statistics find, through investigations of accidents, that many deficiencies are found to be caused by the neglect of the motorist in not having the essential parts of his vehicle checked periodically and repaired without delay.

The Guelph Police Department will co-operate fully in the forthcoming campaign and requests the motorist, to give their full co-operation and be assured if they so desire to present their motor vehicle for inspection at the Police Department such service will be granted readily.

In conclusion, I appeal to all members of the Police Association of Ontario to give their hearty support, not only by word of mouth, but by their carrying out the necessary functions requested by the Chief Constables' Association in such campaign.

Yours truly,  
HAROLD NASH, President,  
Police Association of Ontario.

## Is Speed Limit 80 M.P.H.? It's What The Sign Says

Enthusiastic speeders approaching Richmond Hill from the south have been learning from a sign board as they enter the village that the speed limit here is 80 miles per hour. Presumably when they have successfully negotiated the length of Yonge St. within the municipality at that speed they will have to slow down to speeds legalized for the rest of the province.

"We all appreciate the fact that the changing of the 3 to an 8 was the work of some mischievous person or persons," commented a Yonge St. merchant, "but how long will the council permit the outrageous figure to stand. Those who see it smile, and the smile is at the expense of the town. A few minutes work would

restore the figure 3. Why isn't it undertaken?"

"I would favor letting the '80' stand," said another resident. "It shows we are offering the travelling public something more than any other community offers, the privilege of going as fast as their car will travel."

"But," said a third party, "if a motorist should take the sign literally, as some of them appear to be doing, and break the 30 mile limit could he be punished after he points to the directive on the sign? It doesn't so much matter who put it there. The fact is that it is staying there, and the village knows it. A mighty interesting legal question would be involved if someone were killed."

## Cattle Breeders To Hold Picnic Wed., Sept 4th

The directors of the Maple Cattle Breeders' Association at their last board meeting were encouraged to learn from secretary J. M. McDonald that there are now 175 members and the farmers are delighted with the calves which they are getting from artificial insemination. Buyers are picking up as many of these calves as possible at attractive prices.

President G. W. Keffer of Maple reported on the meeting of Simcoe County farmers at Barrie which he and some of the directors attended along with W. M. Cockburn of Newmarket.

The meeting was called by a group of farmers of that district anxious to have the work extended into that county and was presided over by S. L. Page of Barrie and F. A. Lashley of Alliston, Agricultural Representatives for North and South Simcoe respectively. Interest was keen and following an outline of the work by Mr. Keffer and Mr. Cockburn about twenty canvassers were appointed to contact the owners of Holstein cattle.

On Wednesday, September 4, commencing at 2 p.m. the Association is holding a monster field day for everyone interested at the farm of Geo. C. Jackson, Downsview where all the bulls of the Association were bred and raised. Special speaker will be Byron Jenvey of Ingersoll, former field man for the Canadian Holstein Association. W. P. Watson, Assistant Director of the Ontario Live Stock Branch will make some observations on artificial insemination in Great Britain, Denmark and Sweden as seen on his recent visit to Europe.

The bull barn at Maple will be open for the public to inspect the bulls up to 1.45 and again following the meeting. Promptly at 2 p.m. a draw will be made at Mr. Jackson's for one free service to a club bull open to members and non members there at that time.

Photographing a group of persons dancing can never be satisfactory for one reason because only a few of the group have their faces turned towards the camera, and the backs of people's heads are not always interesting studies. Photographing a street dance is even more difficult because of the greater spaces involved and because evening light is poor for photographic purposes. The Liberal, therefore, does not offer the above 'snap' as a representation of the great street dance the Lions held a few days ago, but merely as a glimpse of a few of the dancers.

## Marlboro Jr. B's Ask For Local Arena

Marlboro Jr. B who will be entered in the O.H.A. this year are making a bid for the use of the local arena for one night a week during the coming winter season. Several enquiries have been made throughout the entire section for ice surface and an official request is expected to be made at the next local council meeting.

This Marlboro team will be composed of players who are not quite good enough for the A team and is expected to be a strong group of players.

An invitation has been extended to three local boys to try out with the A team and if failing to make this they are assured of a place with the B's. They are Herb Rose, Mack Clement and Norm Stunden, all stars of Richmond Hill last year juniors.

Two of last year Jr. O.H.A. team have signed to make the journey to Scotland and will this year play all their hockey in the old country. They are Earl McCrone who hailed from Scarborough for the past two years performed at centre for the Hill boys and George Fox who was an outstanding left wing player for last year's local team. Best of luck boys in your adventure.

## Fraser Gee Wins Field Crop Award

The Department of Agriculture has issued the results of the Field Crop Competition, conducted by the Richmond Hill Agricultural Society, and requests the announcement of the awards which are as follows:—1st, Fraser Gee; 2nd, H. D. McCague; 3rd, Dalton Rummy; 4th, Alfred Bagg; 5th, W. T. Cook; 6th, R. McCleary; 7th, Campbell Snider; 8th, Don Head Farms.

The judge of this contest, Mr. H. L. Griffin, speaks very highly of the work of the entrants in producing crops of very high quality, and states that the decisions arrived at were made difficult owing to the fact that the different crops were so close in quality. It is to be hoped that a larger number of farmers will become interested and make entries in the Field Crop Competitions in future years.

## Richmond Hill Lions' Street Dance

Photographing a group of persons dancing can never be satisfactory for one reason because only a few of the group have their faces turned towards the camera, and the backs of people's heads are not always interesting studies. Photographing a street dance is even more difficult because of the greater spaces involved and because evening light is poor for photographic purposes. The Liberal, therefore, does not offer the above 'snap' as a representation of the great street dance the Lions held a few days ago, but merely as a glimpse of a few of the dancers.

## Thornhill Fall Flower Show Wed. Aug. 28

Thornhill Horticultural Society plans to hold its Fall show at Lawrence Memorial Hall on Wednesday evening, August 28th, between the hours of seven and ten, with a sale of vegetables to take place at the close of the Show. This is the final largest Show of the season, and there are classes for vegetables as well as flowers, with one special class for juveniles and one for professionals. If you have attended these Shows in the past, you will naturally be present at this one, but if you have not and are a lover of flowers, plan to keep this date open. Although Thornhill Society boasts a membership of over two hundred at this time, the welcoming hand of friendship is always extended to new members. Mr. P. Bone is president and Mrs. H. McKean secretary.

## Distinguished Prelate Flying Bishop of Arctic Visitor In Richmond Hill

A distinguished ecclesiastic, the most Rev. Gabriel Breynt, O.M.I., known as "the flying bishop of the Arctic" was a visitor in the Richmond Hill district the greater part of last week, and daily he offered the Sacrifice of the Mass in the little church of St. Mary Immaculate of which Rev. Frederick McGinn is pastor.

His Excellency, who while here was the guest of Mr. and Mrs. Gilbert LaBine of Carville, was formerly Vicar Apostolic of Mackenzie with his See at Fort Smith, N.W.T. His pastorate reached the 60th parallel to the North Pole, some 700,000 square miles, not including the islands of the Arctic Ocean. His spiritual directorship extended also over Athabasca which gave him a total territory of over one million square miles.

The initials O.M.I. after his name show that it is a member of the Oblates of Mary Immaculate, who carry on extensive mission work in the north west. As an Oblate he has been 51 years with the Eskimo and Indian, 45 years as bishop. He will be 79 years of age next October.

Bishop Breynt came from the south of France in 1892 and retired only three years ago because ill health would not permit him to continue his work. He was responsible in his vast diocese for the opening of four boarding schools, six hospitals containing 200 beds and 27 missions. In his jurisdiction were 50 priests, 50 lay brothers and 85 Grey Nuns from Montreal.

His Excellency predicts great possibilities for the northwest not only in mining which is practically untouched, but also in agriculture and general settlement. He himself actually raised potatoes 300 miles north of the Arctic circle, but only after seven years of cultivation. In the progress of the vast north country, "the flying bishop" believes air travel will play an important part. One trip he was obliged to make in the early days, for example, was to a mission that necessitated 27 days of dog-sleigh travel. By plane he was able to cut the trip to three hours.

It is interesting to note that Bishop Breynt met his Richmond Hill host, Mr. LaBine, about the time the latter made his famous discovery of uranium at Great Bear Lake.

## Upper School Results For R.H.H.S. Announced

The Department of Education announces the results of the Upper School examinations held this mid-summer at Richmond Hill. The following alphabetical list of candidates shows the subjects passed by each with official rating in honours, if any. Certificates are being mailed to individual students who are urged to use them without delay in making application for entrance to Colleges or Normal School.

James Boynton, Trig. and Statics C; Mary Burnett, Literature C; Algebra C, Chemistry C; Mary Butt, Literature R, Modern History C, Geometry C, Trig. and Statics R, Composition C; W. Ray P. Charles, G. Composition R; Mack Clement, G. Composition R; Barry D. Collard, Algebra C; Marian L. Heise, E. Composition C, Geometry R, Trig. and Statics C, F. Authors C, Modern History R, F. Authors C; John Wiggins, E. Composition C, E. Literature C, Modern History 3.

Composition C, Modern History C, Geometry R, Trig. and Statics C, F. Authors R; Donald L. Little, Chemistry 1, G. Composition R; Marion E. Little, G. Authors 2, G. Composition 1; Alma Marloff, E. Composition R, E. Literature C, Modern History R, F. Authors R.

Philip E. Mihorean, E. Composition 2, E. Literature C, Algebra 3, Geometry 2, Trig. and Statics 1, Physics 2, Chemistry 2, G. Authors 3, G. Composition 2; William S. Moore, E. Composition R, Algebra C, Geometry C, Trig. and Statics C, Physics C, Chemistry C.

William J. Neal, E. Composition C, Geometry C, Physics R; Shirley R. E. Paris, E. Composition R; Douglas A. Scotcher, E. Composition C, Modern History C, R. Alverna Smith, E. Composition C, Modern History R, F. Composition C; John Wiggins, E. Composition C, E. Literature C, Modern History 3.

## Good Time For Everybody Aim Of Catholic Bazaar

An enthusiastic meeting of the parishioners of the church of St. Mary Immaculate was held this week in the residence of Rev. Fred McGinn, the pastor, when plans for the annual bazaar to be held October 9 were discussed.

The bazaar has become not only one of the features of the year at St. Mary's, but for the past four years it has been an attraction for Catholics as far north as Newmarket and for many also in Toronto city parishes where Father McGinn was formerly stationed.

One of the reasons ascribed for the success of the event is the effort that is made not only to give value but something more than value in the merchandise offered for sale. This year a problem is confronted because of the shortage of various materials, but the decision of the committee in charge is to overcome this difficulty as much as possible, and at the same time to continue the policy which has been so successful of making every purchaser a well

satisfied and well pleased patron.

"Everyone who comes to the bazaar will be certain to have a good time," said a member of the committee, "and also certain of going home with a parcel or parcels that will make him or her glad that they came."

Fancy booth, country store, bingo, fish pond and other carnival attractions will again be featured, and there will be the famous turkey dinner at a popular price, with highly efficient dining room service thrown in.

ST. MARY'S ANGLICAN CHURCH  
SUNDAY SCHOOL PICNIC

The annual picnic in connection with the Sunday School of St. Mary's Church, Richmond Hill, will be held at Fundale Park, Woodbridge, Wednesday, August 28th. Members of the Sunday School are asked to meet at the church at 2 p.m. where cars will be provided to take them to the picnic. Bring baskets.

GORDON ORR WINS  
JERSEY HEIFER AT  
MAPLE JAMBOREE

Gordon Orr, York County's popular agriculturist, was the winner of the Jersey heifer donated by Maplecrest Farms to the Young Men's Club of Maple.

The dance had to be called early in the evening but the draw was made and the complete list of winners will be published next week.

The bingo which was proving very popular with the large crowd will be held Saturday evening, August 24th in the Hall.

## Expect Seedless Tomatoes Soon To Have Big Market

Tomato growers in the Richmond Hill district will be interested in a report from Woodbridge that tomatoes with or without seeds can be grown on the same vine, according to Frank O. Reeve, who points to six long rows of heavily laden tomato plants in his garden as proof of what he says.

"It's a plant hormone treatment that does it," he explained today. "If you apply the treatment when the blossoms are just right to receive it, the fruit will almost certainly be seedless, but the treatment must be administered carefully. We have found that the productivity and the quality of the fruit is improved by the treatment, and earlier ripening also is made possible."

Mr. and Mrs. Reeve have found that green house plants may be adapted to the treatment more read-

ily than those in outside gardens.

"Plants other than tomatoes may also be successfully treated in this way," said Mrs. Reeve, who is as keenly alive to the possibilities of the innovation as her husband. "By controlling conditions we find that a greenhouse fruit is of better flavor, larger and smoother."

Mrs. Reeve said that plants of the seedless variety are not producing rapidly enough to meet the demand of district housewives.

"This is our first year with the experiment, and we realize we could not meet a wholesale demand," she said. "Therefore, we have been selling the surplus crop to the stores of the district, but the demand is far greater than the supply."

Mr. and Mrs. Reeve moved to their farm 23 years ago and established a name for themselves as producers of flowers and vegetables.
