## Temperanceville Newsy Notes

Temperanceville Women's Institute met last week at the home of Mrs. W. McGready and Miss Milly Umehara was the convener. The roll call was answered with "Ways to improve our school". Some very good suggestions were heard in the way of a library, home and school association to be formed, the driveway to be levelled and improved, venetian blinds, storm windows, screens, the floor to be sanded and prevent the splinters, and flower beds to be arranged and planted by the children. A few of the members answered with "present" and they being good sports paid the fine of 5c. The next question arose, what shall we do with the fine money collected? It was suggested and unanimously agreed that this money should purchase books for the school library.

The motto, "Strive to learn from all things" was very well presented by Mrs. R. Jennings. It very capably took in the different paths of our everyday life and no matter how much each one may think they know, they can always learn more, from even the smallest things in life.

Sincere appreciation was extended to Mrs. Gordon Baldwin by the branch for her excellent work and the time she spent on the systematic canvassing program for the T.B. X-ray for this district. The topic, "Education", was presented by the convener, Miss Milly Umehara. She opened her message with the picture thought that education was like that of a wheel, the hub representing the education and the spokes, the different paths that education may lead one, an educated person has many interests. The word education immediately makes one think of schools, teachers etc. It really is a means of preparation for life, but one must know for what to prepare—circumstances of the family and the major factors, but one needs guidance when preparing for life. For example, when we have a toothache we go to a dentist and the same when we have boot trouble and the fitting of shoes, we go to one who specializes in that work. Why, then, should we not go to one for vocation guidance. Parents can assist but should not influence in this matter. Miss Umehara referred to a very interesting article published in the May issue of the Ladies Home Journal headed "Educating our Children for failure in U.S." It pointed out how the rural or urban schools should provide good preparation, also regarding children going to movies, thought as to what movies they are attending should be considered. Think what influence and reaction they will have on the children. It has been reported that their sleep is affected, scenes of excitement cause eye fatigue by 85%, also nervousness, and in many cases they are up past their bed time. Not all realistic movies are bad but by an adult survey there are 29% poor movies to 30% good ones, which averages practically one good picture for every bad one. Another interesting item was how the parents must set the listening habits of the radio programs for the family. Many of the programs are educating and well worthwhile, and these should be encouraged by the parents as they too can benefit by the adult education which is a never ending job and proves the old adage, never too old to learn something new.

We were very fortunate to have Miss May Harman visiting her family at this time as she was able to be with us and give us a very interesting story of her work with the Y.W.C.A. of Winnipeg. For the benefit of those who did not know how the Y.W.C.A. operates and what they provide, Miss Harman explained that they cater to girls from the ages of 18 to 35 years. It is self-governed and has a private board elected in the community, and provides health education, counselling, vacation guidance, residence for girls, transients and an information bureau. The program department provides recreational group work, a teen age group which is very active and they have a membership of 1800 young people. This in itself shows how this would help considerably in the delinquency problem. They have a girls' club for girls from 8 to 12 years of age and they are assisted and encouraged in self-expression arts, also in group work, which helps a girl in how to get along with others. The Blue Triangle Club provides the tools for crafts, dancing, dramatics etc. They also have a "Stay at Home Camp" during the summer months besides playing of camp games and crafts, they take trips to points of interest in the city and surrounding areas.

In summing up the work, Miss Harman stressed two important things for one to remember when working with children. First, it is important to like and understand children, and secondly, one's responsibility, how important it is to make the children make their own rewards. Give them the material to work with and their reward comes in the pleasure and activity they get in making something themselves.

Sincere appreciation was expressed by the branch to all speakers for the splendid contribution and helpful thoughts brought to the meeting. As we all know, it takes considerable time to prepare these addresses. The meeting was brought to a close with a delicious lunch being served by Mrs. LaHive, Mrs. A. Young and Mrs. R. Jennings. A very interesting game which was contributed by Mrs. LaHive sharpened our wits and provided many good laughs when the answers were read.

For the benefit of those who were not at the last meeting our Institute will be visiting the Aurora branch on Thursday, September 25th at the home of Mrs. Augh, Wellington St. Everyone is asked to meet at 2:30 p.m. at the corner opposite Mrs. Fred Hare's.

The superintendent of the United Church S.S. wishes to draw to the attention of the pupils that there will not be any Sunday School this coming Sunday, Sept. 21, owing to the two anniversary services being held.

Special anniversary services will be held this Sunday to celebrate the 50th anniversary. At the morning service Rev. C. E. Fockler, B.A., of Maple will be the special speaker and the Temperanceville choir will provide the music. At the evening service Rev. E. A. Currey, B.A., B.D. of Victoria Square will be the guest speaker and Brown's Corners choir will provide the music.

On Monday, Sept. 22, an anniversary supper will be held at the church which will be served between 6 and 8 p.m. and invitations are being sent to all previous members and a real old fashioned get-together is expected. Further announcements will be made at the Sunday services regarding the program and details following the supper.

Ladies: The only safe way to hold a man is down.—Brandon Sun.

## VICTORIA SQUARE

Mr. and Mrs. Bruce McCausland and son David have moved to Bee-ton where Mr. McCausland has secured a position as principal of the high school there. The good wishes of the community go with them to their new home.

Glad to report Miss Loretta Currey is recovering after her recent illness.

Mr. and Mrs. H. F. Collard have returned from their holiday to points in the United States.

Mr. and Mrs. Harry McIntosh of Toronto spent Sunday with Mr. and Mrs. R. Klinck.

Mr. and Mrs. H. Wellman, Murray and Brian spent the week-end with Mr. and Mrs. E. Avison, Ruby and Viola.

Mr. and Mrs. J. Russell and son Wallace and Miss Shirley Pickering of Port Credit had Sunday dinner with Mr. and Mrs. D. Pickering and family.

Mr. and Mrs. E. Klinck and Mr. and Mrs. F. Bennett visited with relatives in Tonawanda and Buffalo over the week-end.

A number from here attended the Lindsay fair last Saturday.

Mr. and Mrs. E. A. Buchanan and Ann Lynn journeyed to Vineland on Tuesday.

Most women don't like the new long skirts but they'll wear them anyway to keep from "looking funny." A survey of women's opinions showed that only one woman in four approved the longer skirts, but nearly two of every three planned to wear them. Many of the women were convinced that the new fashion was dreamed up by clothing manufacturers attempting to create an artificial demand for their product.

## FLOUR AND BREAD PRICES TO BE INCREASED

### Government Withdraws Subsidy to Consumer

CANADIAN housewives will soon be asked to pay higher prices for flour. The Milling Industry of Canada would like to tell why.

Nearly six years ago the price of flour was fixed at the low prices then ruling, based on wheat costing 77 3/8c per bushel when milled for use in Canada.

Since then, the price of wheat has advanced step by step, but the Government has paid the difference in the form of a consumer subsidy in order that you might buy flour and bread at no increase.

Wheat has actually risen to \$1.58 1/2 a bushel so that for some time past the Government has been paying more than half the full cost.

Now the Government has dropped the subsidy and the price Millers will pay for wheat through the Government Wheat Board will be more than double what it was originally. That is why the cost of flour will be increased.

Furthermore, the cost of bags, other supplies, labour and transportation has increased substantially during the control period.

Canadian Millers, however, knowing the importance of flour in the family diet pledge themselves to keep the price as low as they possibly can.

The prices of practically all ingredients in bread have also risen sharply and your Baker must take this into consideration when calculating his new prices.

## The Flour Milling Industry of Canada
