

MORE BREAD FOR THE WORLD

because Massey-Harris Combines enable one man in one day, to harvest wheat for 55,000 loaves

Yes, more food is available for the world today when its need is desperate, because Canadian farmers with only a two-thirds increase in numbers over 1900, are growing 4 1/2 times as much grain, producing 2 1/2 times as much milk, feeding twice as many cattle and 2 1/2 times as many hogs, raising 5 times as many chickens; because they are providing food for 2 1/2 times as many people in Canada and exporting 30 times as much wheat and 10 times as much flour.

Farmers are doing it because individually they produce more today than in 1900, but it means hard work. And there is no harder working group of people in the world than the Canadian farmers. But hard work alone would not be enough to accomplish such results. They do it by a combination of hard work and modern machinery.

Typical of the great, efficiency-increasing machinery of the farm today is the Self-Propelled Combine, pictured above, which Massey-Harris first introduced in 1939. With this machine, one man can cut and thresh enough wheat in one day to make 55,000 loaves of bread.

Modern farm machinery has increased the productive capacity of Canadian agriculture to where it provides an abundant surplus for the needs of those in other lands, and makes an important contribution to Canada's great export trade.

Similarly Massey-Harris machines are helping to increase farm production in 72 countries of 6 continents.

The guests were received by Mrs. Armstrong, Mrs. Wilson and Miss Dorothy Armstrong.

The artistic interpretation of selected compositions point to the young artist's future as a concert pianist and a brilliant conclusion to the instrumental solos was a group of duets of Moszkowski's Spanish Dances played by Miss Armstrong and Miss Wilson, which delighted everyone.

During intermission a surprise gift, an ultra-modern Corde handbag, was presented to Donna from relatives and friends of the Wilson family who were present, and congratulations were offered to Miss Wilson and her teacher, Miss Armstrong, for able rendition of piano works.

Miss Anne Patton of King and Toronto was made a charter member of the Toronto Business Women's Club at a gathering held in Toronto last week, when Miss Patton gave an outstanding address on travel. She also spoke on the same subject in Detroit and has been highly complimented for her lucid description and clear presentation of the topic. As head of the Anne Patton Travel Service she has expert knowledge to reveal.

Mr. J. Albert Gillham, son of the late Mark Gillham, expert employee of Brantford Telephone Company, is making extensive improvements to farm buildings on his late father's property, 7th concession King township. Following the death of his father some time ago Albert took over the farm, where he is now residing, though still continuing with the telephone company. Much repair work is being done to the barns and house, by Mr. Gillham with the aid of his sons, Jim and Bill. The house, built many years ago, was found to be planked and the entire structure perfectly sound, with floors and plaster walls as good as the day it was built. Hydro has been installed by Mr. Gillham, and shingle asbestos finish to the exterior and interior decoration will in time complete a very commodious dwelling. Ambition to keep the old home in the family name and a love of the land, have led Mr. and Mrs. Gillham to repair and beautify the homestead where Albert was born. Last fall hundreds of bushels of apples were harvested on the place. Mrs. Gillham was a Clark of Lloyd-town before her marriage. Their eldest child, Della, 20, is secretary to the Brantford Telephone Company. Their son Jim works for the same company and Bill is at home. The district is very happy to have them settle here and to know the property retains the family name.

Mrs. T. L. Williams and Mrs. Fred Boys attended a shower in Toronto on Tuesday given by Mrs. Charles Barnes, for Miss Doreen Sinclair, daughter of Mr. and Mrs. Roy Sinclair, whose marriage to John Hutson Slatter will take place Friday evening, June 4th, in Bedford United Church, Toronto. Eversley Presbyterian W.M.S. will join in celebrations to commemorate their 60th anniversary. Sectional vice-presidents, Mrs. Williams of King and Mrs. Zeufelt, Richmond Hill, will preside. It is expected a large delegation will be present when outstanding officials will speak. A number of former members of both local societies will also be present.

Anniversary services at Laskay United Church on May 30th were more than ordinarily well attended. Dr. Archer Wallace of Maple was heard at both services and the visiting choir from Nobleton, of 22 voices directed by Mrs. R. Snider with Miss Margaret Watson of Kleinburg at the organ gave excellent music. Many visitors were present for the occasion.

The senior ladies were pleased to see what endeavour had been made by the girls, in all departments of junior activity. Badger, was stricken with a heart attack while attending morning service at All Saints Anglican Church last Sunday. Dr. J. L. Urquhart, Aurora, was called and Mrs. Gillham was removed to her home, where she rested comfortably before being taken to her daughter's home in Toronto later in the week. Fire Damage at Lloydtown
A grass fire did about \$25 damage to cedar trees and rail fence on the property of Mr. Sheardowne of Lloydtown on Sunday, which was extinguished by Schomberg Fire Brigade. The blaze was thought to have been caused by young boys who started a fire in a ground-hog hole with the idea of destroying the ground-hog. The animal and boys had disappeared by the time firemen arrived on the scene, police stated.

Maple Recreation Association will sponsor the annual street dance on Wednesday, June 23rd.
