**SNOWFLAKE WHITE**

the whitest white enamel you've ever seen!  
...and it stays that way!

This improved Flo-glaze Four Hour Enamel, aptly called "Snowflake White", is an intense, brilliant white—the whitest white enamel you've ever seen! What's more, in exacting tests extending over many months, it stayed just as white as ever.

While Snowflake White Enamel is suitable for any interior work, we especially recommend it for cupboards and shelving, refrigerators, medicine cabinets, children's furniture—any articles in your home that you want to stay a smooth, gleaming white.

**TEMPERANCEVILLE**

The monthly meeting of the W.M.S. and W.A. was held at the home of Mrs. R. Jennings on Thursday evening, June 17. Mrs. Moddle and Mrs. C. Beynon presided at the respective meetings. The W.M.S. has forwarded their annual bale which included their allocation of two quilts and pyjamas, also many other articles. The July meeting will be held at the home of Mrs. Wilks.

The Sunday School has received many interesting letters from Buxter Sunday School in Sussex, England, thanking us for the gifts sent last winter. These letters are being answered and we hope that many pen friendships will be formed between the members of the two Sunday Schools.

W. I. members please note the error in the date of the July meeting on the programs. The meeting will be held on the second Wednesday, which is July 14.

**CONCORD**

Miss Margaret Hallawell, daughter of Mr. and Mrs. J. Hallawell of "Drumkeen" Concord, whose marriage to Mr. John D. Martin, son of Mrs. W. R. Martin and the late Mr. Martin of Lucknow, Ont., took place on Tuesday, June 29th, has been much entertained prior to the wedding in the United Church, Maple. Mrs. W. O. Hallawell, Mrs. J. H. Galbraith, Mrs. Donald Bain and Miss Margaret Fockler were hostesses at showers. Mrs. M. Martin gave an evening party and presentation. Mrs. George Keys of Galt entertained at a handkerchief shower and luncheon. Presentations were made by the C.G.I.T. and Scout Troop, Maple United Sunday School, as well as many of the schools in Vaughan Township where the bride is district Public Health Nurse.

**NEED BREEDS SHEEP SUITED TO CANADA**

What is the origin of the various types and breeds of sheep, now in Canada?

This question is answered in an article in the latest issue of the Agricultural Institute Review, entitled "Types and Breeds of Sheep in Canada", by H. J. Hargrave and S. A. Hilton. The former is Assistant Dominion Experimental Station, at Fredrickton, N. B.

They say that the British Isles and Continental Europe originally developed the types and breeds of sheep found on Canadian farms. In

**Notice to Creditors AND OTHERS**

IN THE ESTATE OF ROBERT WALKER HALL

ALL persons having claims against the Estate of Robert Walker Hall, late of the Town of Richmond Hill, deceased, retired bank manager, who died on or about the 4th day of March, 1948, are hereby notified to send in to the undersigned Executor on or before the 3rd day of August 1948, full particulars of their claims.

Immediately after the said 3rd day of August, 1948, the assets of the deceased will be distributed amongst the parties entitled thereto, having regard only to claims of which the Executor shall then have notice.

DATED at Toronto this 29th day of June, 1948.

THE ROYAL TRUST COMPANY,  
66 King Street West,  
Toronto, Ontario.  
Executor.

By Messrs. Lang, Michener, Day and Cranston,  
Their Solicitors herein.

**Canada's Livestock Is Well Guarded**

It is no mere happy chance that Canadian livestock are free from serious animal diseases such as foot and mouth disease, contagious pleuropneumonia, rinder-pest, and other destructive animal plagues. This freedom from serious animal plagues is due in a large measure to the careful watch kept by veterinarians of the Health of Animals Division, Dominion Department of Agriculture, on imports of livestock, livestock products and materials likely to carry infection from foreign countries where such animal plagues do exist, so Dr. T. Childs, Veterinary Director General told the Manitoba Veterinary Association at its annual convention held recently in Winnipeg. The service had its beginning in 1868 and the efficiency of the inspection is shown in the results—no serious animal plagues have ever gained a foothold in Canada.

This record is the more impressive when it is remembered that there are only two countries in the world, the United States and Newfoundland, from which it is generally considered safe to permit unrestricted entry of livestock and livestock products. Inspection regulations are, however, applied against livestock from these countries if special circumstances arise which make it necessary. Entry of livestock, livestock products and other material from all other countries are subject to import permits, quarantine, inspection, testing, treatment, fumigation, and any other necessary procedure regardless of health certificates which may accompany the shipments. Imports are not permitted to proceed beyond the quarantine station at the port of entry until the divisional veterinarian in charge is fully satisfied that the animals are healthy, or the products and material free from disease. There are about 3 ports of entry around the coasts and borders of Canada and these are under the supervision of divisional veterinarians.

On the reverse, or export side of the picture, regulations with regard to livestock produced in Canada are just as strict. All animals slaughtered for domestic use are subject to inspection by the Health of Animals Division, and more than half of all the livestock in Canada are under the supervision of veterinarians for the control and eradication of disease. There are 114 packing plants in Canada operating under inspection of the Health of Animals Division and the products of these are eligible for export to any country in the world. Export of livestock, livestock products, including meats and meat products from Canada, is not permitted unless such livestock or products are certified as fit for export by a divisional veterinarian. The main, these breeds were introduced and maintained (as pure breeds) largely for show purposes rather than for the commercial production of meat and wool.

The task of adapting and improving the imported breeds to fit Canadian conditions has been under way since sheep were first imported. While considerable progress has been made, much still remains to be done. From the commercial standpoint, the job is to develop types and breeds that are suited to the many variations of Canadian climate keeping in mind the available market requirements for both meat and wool.

The authors of the article are apparently not favourable to too much consideration for the show ring. They hold that show ring standards have contributed to the failure of some breeds to retain the position they once held in the Economic production of sheep in some areas in Canada. There are more than 20 common breeds of sheep in Canada and just as many breed enthusiasts. This is one reason why Canada's sheep industry has been somewhat tardy in developing to the point it merits.

**MENNONITES LEAVE FOR PARAGUAY**

On the first leg of their journey to new homes in Paraguay, 414 Mennonites from Manitoba left Winnipeg June 22, aboard a special Canadian National Railways train for Wolfe's Cove, Que.

The belong to the strict sects who insist on freedom from military service and the right to live alone in their own spartan fashion. They will sail June 25, where undeveloped land awaits them.

Hostess (gushingly): 'You know, I've heard a great deal about you.'  
Prominent Politician (absently): 'Possibly, but you can't prove it.'

**Junior Farmers Have Field Day**

York County was well represented at the annual sports day of the Ontario Junior Farmers' Association held last Friday at the O.A.C. and attended by a record crowd of juniors from the western sections of the province.

A full morning of baseball including eighteen boys' teams and twelve girls' teams got the programme away to a good start while at noon the sports took place and later on in the afternoon the track and field events. The boys' team made headway, by winning over Haldimand 5-4 in a very closely contested game. Their next was played against Grey County where the local group was defeated by a score of 10-3. The girls had an easy win over Oxford by a score of 18-8 but in the semi-finals they bowed to Perth 6-1. In the finals Lincoln County took the boys' game while Ontario County girls came first in their series.

Lineups were as follows: Boys—George and Jack Rumney, Victoria Square; Cal Preston, Vandorf; Don Bagg, Vellore; Gerry Hunter, Unionville; Ted Anderson, Sutton; Gordon McNern and Clark Weddel, Sharon; Doug Brown, Doug Marchant and Don Marchant, Schomberg.

Girls—Shirley McLeod, Valerie Hunter, Audrey Ellison and Pauline Walker, all of Schomberg; Eileen Giles, Mary Jean Sinclair, Marg Pegg and Helen Munroe of Sutton and Orphie Orr of Vellore. Del Gibney of Newmarket coached the girls while Ross Chapman managed the boys.

On all round points Perth County was well in the lead with 39 points. In the evening a monster street dance concluded this grand gathering of juniors and their friends.

**GORMLEY**

Mrs. George Hurtt from South Pasadena, California, is spending a month with her sister, Mrs. Sproule, in the Moorbey home.

Congratulations and best wishes to Mr. and Mrs. Louis Heise on their recent marriage.

Mr. and Mrs. Edgar Heise and son, Lawrence and Mrs. Hershey of Upland, California, had tea Saturday night in the Henderson home.

Miss Judith Langstaff and Miss Vera Brillinger spent last week end in the Brillinger home.

We wish a speedy recovery to Mr. Ivan Winger who had a tonsil operation last Friday.

We extend sympathy to Mrs. Helen Henry on the recent death of her mother, Mrs. Calvert.

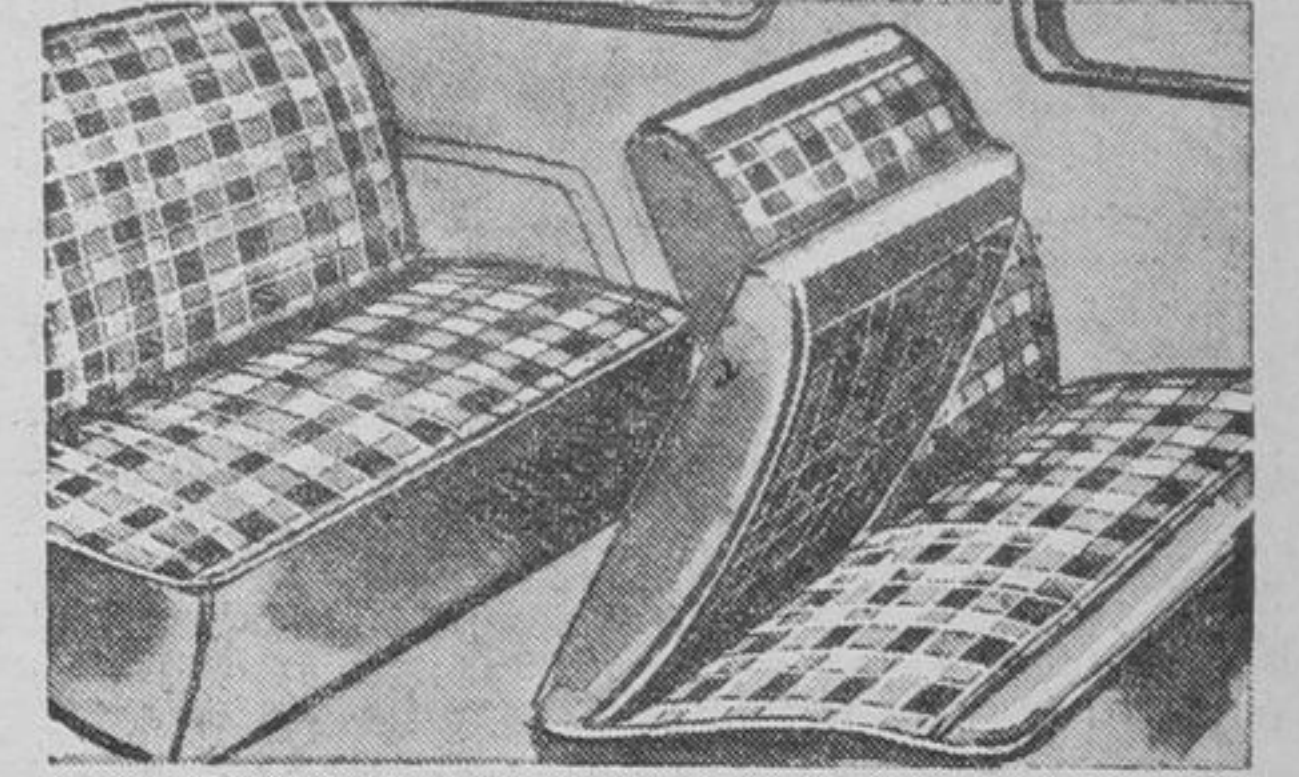

Misses Nancy and Eleanor Paris of Toronto spent last week end with Mr. and Mrs. E. Hunt and Ruth.

We extend baby congratulations to Rev. and Mrs. Barby on the birth of a daughter last Thursday, Flavia Joy; to Mr. and Mrs. Geo. Barrett, a daughter last Saturday; and to Mr. and Mrs. Allan Heise, a son, last Wednesday.

Mr. and Mrs. Wm. Judd, Mr. and Mrs. Wm. Hollinger and Mrs. Chas. Petty of Cherrywood were old school-mates who were entertained in the Henderson home Monday evening.

Mr. and Mrs. Melvin Baker and family and Mr. Wm. Baker had Sunday evening supper with Mr. and Mrs. E. Harvey and Bruce.

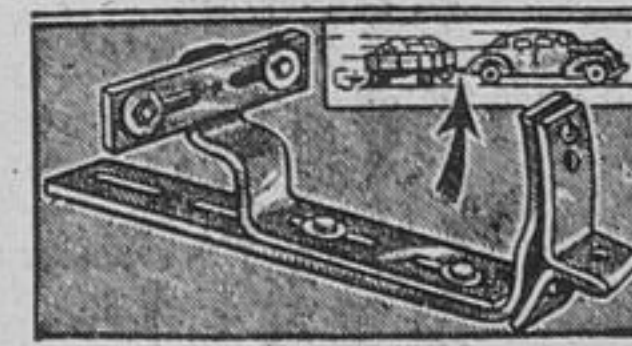

Miss Edna Eade, Miss Darline Gray and Mr. Grant Wideman attended the wedding of Miss Jean Reaman to Mr. Leroy Miner held in

**Tailored-to-Fit SEAT COVERS**

Individually Tailored from Master Patterns to fit every car. Most sizes in stock—others to order, at the same low price.

<b>ROYAL INSULTEX</b> Fine quality fibre-weave, art leather trim, red piping protects seams. Smartly styled and hard wearing.	<b>PLASTI-PLAID</b> Handsome "tartan plaid" patterns in plasticized fibre, with extra-wide bands of grained art leather to protect at points of wear.	<b>OXFORD GABARDINE</b> Rich maroon fine quality gabardine, with silver grey piping. Add style and beauty to your car.

the Brethren in Christ Church at Bervie on June 12, at 2:30.

The bride and groom left for Markham following the reception at the bride's home. Mr. and Mrs. Miner will reside at Ridgeway.

Card playing can be expensive, but so can any game where you hold hands.

A TIMELY COMMENT  
A Communist is one who has given up all hope of becoming a capitalist.

"Your room-mate was shocked at the way I kissed you last night."  
"How did she see us?"  
"She didn't, I showed her."

**Warble Grubs Cost Farmers Millions**

Countless millions of warble fly grubs have begun their annual campaign against beef and dairy cattle in Canada. Unless controlled by the application of rotenone wash or spray they will do many millions of dollars damage to hides, and substantially lower milk and meat production. Now is the time for farmers to arrange to apply the wash during the next three months. The nearest Dominion Experimental Farm or the County Agricultural Representative will advise on how to apply the insecticide. Power spraying machinery for applying the wash is presently in short supply. Orders for such machinery to be used in 1948 should be placed with the manufacturers without delay. Here is shown a power sprayer being used to kill warble grubs and inset a warble grub which has emerged from the back of a cow.
