a word about Personal Purchases in the U.S.

● If you are contemplating a trip to the United States, here are two important facts to remember:

● You may not bring back with you any merchandise which is prohibited under the Emergency Exchange Conservation Act. Find out in advance from Canadian Customs officials whether you may bring in any contemplated purchase.

● To conserve all available U.S. dollars for essential purchases, a travel ration of \$150 U.S. per person for the 12 months between Nov. 15, 1947 and Nov. 15, 1948 has been established. Be sure to get the necessary forms and details at your bank, well in advance of your trip.

This caution is given to help avoid possible embarrassment at border points.

FEAR OF INFECTION

Many of the serious diseases that ravage Canadian homes could be brought under a considerably greater measure of control if early diagnosis and treatment could be brought to bear. In many cases people who suspect they have tuberculosis or cancer, put off having a medical examination for fear they will be found to be infected and be forced to leave their jobs and enter hospital. These people do not fully realize that by delaying the examination they are merely prolonging the treatment and possibly endangering their chances of survival.

Building contractors have their troubles nowadays, not the least of which is the poor quality of lumber frequently offered them. A despairing contractor recently dispatched this telegram to the mill that had just sent him a carload of lumber: "Knot holes received, sent the knots."
