## CORNER CUTTERS

Lovely Window Frame

Use four curtain rods — one at the top, one at each side, and one at the bottom of your window wood work. Slip four-inch-wide ruffling on them, and you have a candy-box frill framing your view. Straight, tailored glass curtains (hung on a fifth rod) of a neutral color, may be added for a finishing touch, if desired. This is an idea that's especially practical when you're short on fabric for draperies.
