Weekly News Budget From The Richvale Community

Over last week end the volunteer workers of the East Vaughan Ratepayers' Association added more blocks to the walls of the Richvale Community Hall.

It is rather disappointing to the building committee in the way the volunteers have dwindled during the summer to a mere handful of men, consisting of little more than the building committee. As a matter of fact it is rather embarrassing for your correspondent to write of this matter for he must plead guilty to being one of the delinquents. Now that summer is a thing of the past, what say we reach for some old clothes and dig in with the faithful few — time is getting short in so far as good weather goes and much is to be done to protect the work of the ones who have shown so much interest in the future welfare of the community.

Mr. John Hertz, on commenting on the progress of the campaign to raise funds for the hall appears pleased with the response he is getting in the initial stages of the drive. Richvale residents will all be canvassed. However, if you wish to speed the campaign telephone Mr. Hertz through the Maple exchange and he will arrange a visit. This is Richvale's Hall so dig deep you people that it will serve.

Richvale Winner

Young Canada stepped into the limelight in Richvale last week when Howard Bruce Martin, the fifteen-month-old son of Mr. and Mrs. Frank Martin of Oak Avenue, took honors placed second in the twelve to eighteen month group of the baby show. Congratulations to the Martins on their wonderful offspring.

Ratepayers' Entertainment

The entertainment committee announce the prize winners in their recent raffle which was held to favor the community hall finances. First prize, Mrs. Gregory; second prize, Mrs. Elsey, with Mrs. Franks drawing third prize.

This Friday evening, September 17th, the entertainment committee have a dance planned which will be held on the floor of the Community Hall. Fred Rose and his orchestra will supply the music and there will be both modern and old tyme rhythms. Everyone is invited so grab your best gal and let's go — Friday night that is — September 17th at Richvale Hall.

HIGH SCHOOL ATTENDANCE NUMBERS 221

Principal Elson of the Richmond Hill High School reports an enrollment this term of 221, with 84 newcomers in the junior grades. Agricultural Science is now being taught to grade IX students.

LOCAL PUBLIC SCHOOL TO HAVE ADDITIONAL TEACHER

Enrolment at Richmond Hill Public School for the fall term totals 324, and the public school trustees have advertised for an additional teacher. The staff at present numbers eight, in addition to a part time music teacher and a part time domestic science teacher. Only one room of the new addition is ready for use but it is expected other rooms will be completed by Sept. 30th. Miss Ferguson, B. A., of Brampton is the new kindergarten teacher and her class numbers 64. There were more than 50 new beginners in grade I. The board also has advertised for an assistant caretaker.

DISTRICT ANNUAL MEETING

The annual meeting of District No. 5 (Counties of York, Ontario and Peel) of the Ontario Horticultural Association, will be held in the Scarborough Collegiate Institute, on Wednesday, September 29th, at 8.15 p.m., sharp. The Collegiate is located one mile east of the stop light on Kingston Road, at Scarborough Bluffs.

The programme will include the following:

1. Election of District Director for 1949.
2. Greetings from Mr. Percy Bone, President of the O.H.A.
3. Discussion of Society problems.
4. Demonstration of projector and colour slides, with equipment provided by the Association and available to the Societies — John F. Clark, Dept. of Agriculture.
5. Musical numbers.
6. Light refreshments provided by the Scarborough Horticultural Society.

YOUR HYDRO CHAIRMAN REPORTS on the Power Shortage

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

620 UNIVERSITY AVENUE
TORONTO 2

ROBERT H. SAUNDERS, C.B.E., K.C.
CHAIRMAN

September 11, 1948.

Dear Fellow Citizens:

The demand for electricity from all classes of the community — homes, farms and industries — all over Ontario, is still mounting. Homes are being built, the demand for increased production from farms is steadily increasing and industry is pressing forward with plans for expansion, plans that mean greater production and more jobs to keep Ontario prosperous.

It is anticipated that the increase in demand over the available supply will amount to in excess of four million kilowatt hours per day, and conservation measures have been put into effect as of Tuesday, September 14th. These will include reductions in the supply for show windows, office lighting and certain industries, banning outdoor electrical signs and in other ways. Even with all these reductions we will still be short 1,200,000 kilowatt hours per day but to insist on more would have a hampering effect on industry and seriously reduce employment.

Where then can we get the vitally needed power? From you and every individual Hydro user in Ontario. How much should you save? Take a 60-watt electric lamp as an example. For every 24 hours it burns, it requires almost one and a half kilowatt hours of current. If every one of the 900,000 Hydro users in Ontario will save the equivalent of that much electricity every day there will be no need for cut offs.

Everyone must do his or her part. It should be a 24 hour effort. Turn off every light, switch off every motor or appliance the moment it is not needed. Particularly, watch the switches on your electric range.

The situation is critical. Full employment must be maintained and the support of every householder, every commercial user and every industrial consumer is essential in avoiding the waste of electricity.

Robert H. Saunders

Chairman,

The Hydro-Electric Power Commission of Ontario.

2,000 MILE PURE PENNSYLVANIA

MOTO-MASTER will give your engine more "driving power", because it is a tough film, pure Pennsylvania oil, especially refined to resist sludge and other deposits. Protects against hottest engine temperatures—MOTO-MASTER is best resisting, free flowing and long lasting. It's better for your car.

QUART .37 GALLON 1.39 5-GAL. DRUM 7.45
