INSURANCE OF ALL KINDS
With the increase of fire hazards,
property owners should review their
insurance policies, and due to the
increased cost of materials would be
well advised to increase the amounts
of insurance. Also car owners who
think it will never happen to them
are caught some time or other with-
out protection. The cost is a minor
amount to what it will cost if an
accident happens.

HANDS AT WORK... for ONTARIO
LEARNING MACHINE ASSEMBLY

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security... and we and our children can have more of the better things in life. But to produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by industry. They receive ON THE JOB training under expert instructors in our Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts the veteran on the road to skilled craftsmanship. In assembling business machines, for example, veterans must have a thorough knowledge of electricity and must learn to perform intricate work on precision machines having thousands of separate parts. These Canadian-made business machines are sold in all parts of the world, creating new wealth for Canada and Ontario. Therefore every effort of these newly skilled veterans helps to make Ontario a finer place in which to live and contributes to the welfare and happiness of all her citizens.

MACHINE ASSEMBLY

John N. West, 25, of Toronto, a Royal Canadian Navy veteran, is shown here making an adjustment to one of the 10,000 parts in a business machine designed for a New Zealand firm.

Various types of business machines are produced in Ontario factories. Because of their intricate mechanisms it is essential that these machines be checked by expert craftsmen at every stage of their production.

THE BREWING INDUSTRY (ONTARIO)
