Township School Area Discussed

Members of King Township Teachers' Association and trustee boards heard a talk on the township school area given by Mr. H. A. Halbert, public school inspector for Scarborough at a meeting held at the Schomberg public school for the annual gathering of the association with township school boards, Wednesday, December 8th. "Children are our greatest assets and require proper environment and treatment to develop them," declared Mr. Halbert. "It has been shown where the school area is in force pupils make better progress and are happier in their surroundings," he added. "Never have I heard anyone actively engaged in the working of a larger school area speak one word against it" declared the speaker who holds present day school boards do not meet regularly to plan and organize school programs, for only through organization, he feels, can equal advantages and equal accommodation be given to all pupils in the area. Describing the advantages of the system, Mr. Halbert mentioned its provision for extramural activities in home economics, music and manual training; better co-operation between school boards and uniformity of supplies, with simplification in purchase of such for schools within the area.

Introducing Mr. Halbert, Public School Inspector Mr. Charles Howitt, spoke of him as one fully acquainted with the township school area system, its purpose and achievement. Mr. R. C. Flynn, Schomberg principal, president of the association was chairman, for the meeting attended by more than fifty.
