Markham Taxpayers Will Pay In Two Instalments In 1949

INAUGURAL MEETING MARKHAM TWP. COUNCIL HELD MONDAY AT UNIONVILLE

Markham township ratepayers will pay their 1949 taxes in two instalments instead of one, it was decided at the inaugural meeting of the township council held Monday at Unionville. The new system was proposed by Reeve Vern Griffin who pointed out that the two payment system would reduce township borrowings and should mean substantial savings to the ratepayers. Due dates were not definitely decided but likely will be fixed in June and November. Other members concurred in the suggestion and treasurer Hoover pointed out it would simplify division of taxes in the case of change of ownership of property.

Reeve Griffin presided at the inaugural meeting which was attended by all members. Deputy-reeve Win Timbers who stepped up from councillor occupied the deputy's chair for the first time, councillors Barber and Wicks were returned as councillors from last year and councillor Robert Rae took his seat for the first time. At the opening ceremonies Rev. W. S. Butt of Unionville United Church spoke briefly and led in prayers. The usual appointments by-law was passed naming W. F. Kincaid a member of the Board of Health to serve with Reeve Griffin, Dr. C. R. MacKay M.O.H. and Charles Hoover, clerk. Clarence Wideman was named sanitary inspector at an annual salary of \$50, and the remuneration for members of Board of Health was fixed at \$5.00 per meeting plus travelling expenses. The salary of the Medical Officer of Health was set at \$600 per annum. R. J. Allan was re-appointed school attendance officer at a salary of \$75 per year and will be required to make three reports during the year to the council.

Archie Flemming will carry on as assessment commissioner but the by-law appointing assessors was rescinded. It is likely applications will be invited for an assistant to Mr. Flemming. No action was taken on the appointment of a building inspector but it was intimated this was an appointment to be made at some future meeting. The Reeve intimated that the council was considering calling a meeting of school trustees and school board secretaries for a general discussion of educational matters with the view to encouraging all possible savings in school section budgets. In a discussion of assessment matters which has been a rather live issue in township affairs deputy-reeve Timbers said he would like to know to-day whether or not the council

planned to go ahead with the card system of assessment. Last year a motion was adopted that the township adopt the card system of assessment and that steps be taken to put the policy into operation. Councillor Robert Rae took some exception to some features of the card system as he understood it. The Reeve pointed out very clearly that the motion adopted did not commit the council to adopt any particular card system. In fact the council has not and never had any intention of adopting a complicated card system listing light plugs, water taps and bathrooms as had been intimated by some during the election campaign. The council simply is making an effort to get the assessment on some definite system, not the old hit-and-miss guess system which resulted in many inequalities. "We're not seeking to raise the assessment," said councillor Harry Barber, "we only are striving to equalize it."

"The card system simply means" said the Reeve "that all properties will be measured and classified under certain broad classifications, and all information kept on file in the township office. Changes and additions are kept account of as building permits are issued. Some work will be done on it this year. It certainly won't be finished this year, but we would hope to have it completed by the end of 1950. The assessment this year will be carried out in the same manner as last year, and when the new system is adopted it will be adopted for the whole township at the same time." The next regular meeting of the township council will be held at Unionville Monday, January 17th, at 1:30 p.m.

VALUE FIELD CROPS
 1948 EXCEED 1947
 First estimate of the value of the principal crops on Canadian farms in 1948 is placed at \$1,595 million. This figure has only been exceeded once previously, in 1919 — while values in excess of \$1,400 million were recorded in only two years, 1920 and 1947. High prices were largely responsible for the enhanced values of production in each of these years. The values of current field crop production in Canada are in strong contrast with those recorded in the 1930's when values (based on depression prices) ranged from \$432 million in 1931 to \$686 million in 1939. The 1948 figure is about 11 per cent above the revised gross for 1947 and some 269 per cent above the low point reached in 1941. While prices of some of the chief crops have been lower during the current crop year than in 1947-48, generally sharp increases in the 1948 production of most crops more than offset reduced prices, resulting in the substantial increase over 1947 in total production. Increases in gross value of production over 1947 levels have occurred in all provinces except New Brunswick and Prince Edward Island where the drop in potato prices seriously affect the total value of production, particularly in the former province. The greatest percentage increases in value of production took place in Ontario, Manitoba and Quebec in that order, excellent 1948 grain crops being the chief factor responsible for the improved position in these provinces. In Alberta and Saskatchewan, higher wheat crop values were nearly offset by lower prices for other major crops with the net result that gross value of production in each province increased only one per cent over the previous year. In Nova Scotia and British Columbia value increases of four and five per cent respectively were recorded as between the two years.

A traveller who had once spent some time in Alaska was being questioned by a curious friend. "Tell me," he inquired, "is it as cold up there as they say?" "Well," said the traveller, "they do have very short summers. If I recall correctly, the year I was there it was on a Wednesday."
