FIRST-AID FACTS

Small cuts and bruises, if unattended, may become infected and cause serious illness. Minor wounds are only unimportant when they are disinfected and properly bandaged immediately. A first-aid kit to deal with such injuries should be in every home and in every office and factory.

DEPARTMENT OF HEALTH TOWNSHIP OF NORTH YORK

Know The Truth

Know the truth and it shall make you free! Free of illness. Free to live a longer, happier life.

Knowledge is power in the constant fight against disease. You personally need to know the basic facts about keeping well. What foods are necessary for an adequate diet at different ages? What health habits should you cultivate to insure strong mental and physical health? What health habits lead to chronic illness? How can you avoid exposure to disease? Why should you seek early diagnosis at the hands of a competent physician if you suspect anything is wrong?

Your community, also, needs to know the truth about health and disease. What is a real menace to health in the community, and what is only a nuisance? What local health measures should be enforced to protect individual health in the community?

UNITED CHURCH MEN'S CLUB

An outstanding meeting is scheduled to be held on Monday, January 17th, 1949, at 6:30 p.m. sharp in the auditorium of the United Church. The club has been fortunate in securing the Rev. Ray McCleary as guest speaker. This man, renowned for the zeal and energy he displayed in campaigning on behalf of the Woodgreen Community Centre situated in the heart of an underprivileged section of Toronto, is well worth hearing. It bears repeating that this energetic man was responsible for being the staying force behind the raising of money and building of this centre, reputed to be the best in America. Anyone interested in welfare work should attend.

Further good news is that a full course roast beef supper with all the extras the good ladies of the church can provide will be served. Don't forget we accommodate late comers who cannot arrive sharp at 6:30.
