Modern Innovations Feature Development Of Summit View

A little over a year ago passers-by looked at the digging and building which was going on on a bare and unattractive slope on the edge of Number 11 highway at Jefferson and wondered what it all added up to.

But events have proved that the judgment of the man who started the new venture — Lawrence Folliott — was sound. Today the bare slope is in process of being made into a business location which will have few equals on the highway.

The solitary building which started the venture has expanded into an attractive business centre and, when sunshine and rain have played their part, the surroundings will become an impressive addition to the district.

Patronage Good

Patronage has been exceedingly good since he opened for business on March 1st, 1948. Mr. Folliott informed The Liberal, and with the improvements which are now coming into being he looks for a bumper season.

North York Baseball Schedule Arranged
