

King City District News

A deputation headed by Mr. R. Burt, rector of Warden of All Saints Anglican church with the rector, Rev. D.C.H. Michell and Mr. A. E. Jarvis presented the following petition to King Township Council, signed by 100 members of the congregation and a large number of ratepayers associating themselves.

"We the undersigned members of All Saints Anglican church in the Village of King in this township having been informed that plans have been made to set up a Town Planning Board for this village with a view amongst other things to the acquiring of property for the opening of roads and in particular the opening of a ninety-nine foot wide road from west to east through the property of our church to the north thereof."

"Desire to make it known that whilst we do not object in principle to the creation of a town planning board, we are definitely opposed to the acquisition of our Church property. We submit, that our Church of All Saints and grounds adjacent are, in themselves, a great asset to the community and an addition to amenities, and in view of the increasing exodus from city to country and country town and the necessity that will inevitably face us in the measurable future of extending our Church accommodation and buildings, we are convinced that it would be the greatest for us to support any such measure.

"We would call to your attention also that our Church is an old landmark in the district and revered by a very great number of people in all parts of the country, for whom it has most sacred associations.

"Consequently, we have thought it wise to draw up this petition, which we now present, with our respectful and most urgent request that the measures referred to, in so far as at least as it affects the property of All Saints Church, be withdrawn and abandoned."

C. C. Crossley, chairman of the Summit Valley Syndicate, a local group tentatively acting in the capacity of a planning board for the village requested council to consider a proposal to have the village of King City declared a subsidiary planning area. He also sought consideration of council toward expropriation of certain village land for use as a street entrance to property to be subdivided for building lots for residential purposes. Reasons for expropriation he explained are to enable the planning of a detour to avoid two crossings of the railroad north to west and west to north traffic through the village. Mr. Crossley said the road would provide access to recreation area for winter sports.

Council agreed to discuss these important issues at a forthcoming meeting of village commissioners, taxpayers and the township council. It suggested representatives of the Anglican church confer with Mr. Crossley toward clearer understanding of the situation.

Appealing for assistance from the township council to grade and gravel a roadway built and financed by a

group of private residents in the subdivision, William Kettlewell, representing the community of that area was told by council that the 66-foot mile and a quarter roadway would have to be inspected by a provincial government engineer. Under the Municipal Act council is not permitted one cent of government subsidy toward a project of this type carried out by private individuals. The roadway leading from the highway through the subdivision serves about a dozen families all of whom have contributed financial support to five men who financed the scheme, about three or four miles north of King village. Mr. Kettlewell spoke of the tremendous task in bulldozing 10 foot hills and bushland to prepare the roadbed. He pleaded for support by council and spoke in high terms of the undertaking involved and the spirit of co-operation extended by the annex community to carry out the project.

D. Earl Wellesley, Morrisburg, of the Ontario Provincial Police Force, spent a few days with his mother, Mrs. Arthur Wellesley, who returned with him for two or three weeks' visit at Kingston, Montreal and Morrisburg. While at Montreal she will stay with her daughter, Mrs. Gilbert Follitt, and with her son, Earl, at Morrisburg.

Mrs. Arthur Green was the lucky winner of a diamond ring in a number guessing contest sponsored by Jack Walker, jeweller, at King. Bill Brown and Mrs. Green tied for first place nearest the lucky number of 2408. Both guessed 2500. A draw gave Mrs. Green the ring. The choice of numbers lay between 1500 and 7500.

\$10,000 Fire Loss

The barn, fertilizing machinery, 50 tons of fertilizer, numbers of crates and a quantity of oil were pray to flames which destroyed property of Superior Gardens, near Schomberg, in the Holland Marsh district on Sunday afternoon. A large tractor and 2500 baskets were saved. Aurora and Schomberg fire departments combined hose equipment to extend 2500 feet to the canal to supply water. The building was blazing beyond control when the brigades arrived. They fought for more than four hours to save surrounding buildings of the Dutch Community co-operatively owning the plant and 150 acre garden tract of land. Persistent fires broke out in the surface soil of the parched garden area causing hundreds of small blazes. O. Delzotte, manager, said the building and contents were destroyed in a matter of minutes.
