Outstanding Team Match To Feature Next Bouts

At last local wrestling fans will see the team match they have been asking for all this season. Ernie Hughson and Red Garner are going to team up against the Red Devil and the people's No. 1 enemy Ed Mangotich. Considerable interest has been aroused in this particular bout because Garner has beaten Mangotich and the Devil has thrown Ernie and both teams will be out for blood and if ever there was a grudge match this one is it. The "Red Devil," undefeated in over twenty-two bouts boastfully asserts, and we quote "Team matches or straight bouts are all the same to me. I always win, and along with Mangotich we can whip any two 160 pounders in Canada." However with such an out-

standing twosome as Garner and Hughson as their opponents the Devil and his pal are in for a very rough evening and are quite liable to have their first defeat as a team hung on them.

The Semi-Final will have Al Orlando, rugged Italian boy in there with Glenn Yoe, the classy little grappler who made such a hit on the last card by his clear cut win over Bob Jordan. This bout will be two out of three bout Bob Jordan will face an opponent yet to be named. Fans may be interested to know that efforts are being made to bring Billy James, Canadian Middleweight Champion, to the Hill for a bout with either the Red Devil or Red Garner.

New Ransom Front Adds To Yonge St. Modern Appearance

With the "unveiling of the new front on Stan Ransom's barber shop the east side of the business section of Yonge Street has gone a step further in the modernization process which has been taking place for some months.

The new Ransom front is a distinct addition to the business appearance of the area. Incidentally, it will be twenty years in September since Stan Ransom and his father started in their present location. Business on that day consisted of one hair-cut and total income of 35c.

While it will be some considerable time yet before work is completed, rapid progress is being made in the modernization of the F. Y. W. Brathwaite hardware store and the old Dominion Hotel, which is being transformed into a modern auto and electrical goods showroom by Wm. Neal. Steel has already been erected and the front of the building is being torn out in readiness for the big windows which will be installed.

PUBLIC SCHOOL INTERIOR NOW BEING REDECORATED

When Richmond Hill's public school pupils return to school after the rapidly concluding holidays they will see something which may take away part of the sting of having to get down to work again. The interior of the building is being painted, reports Secretary Jas. Grainger.

Drive On Speeding Having Some Effect Sunday Traffic Shows

If last Sunday night's traffic on Yonge Street is any indication current drives against speeding are having some effect.

There was a noticeable slackening of pace in practically all south-bound traffic with, of course, the occasional middle of the road driver hitting well over sixty. Generally speaking traffic moved well under the fifty mile limit.

August 7th traffic was, for a mid-season Sunday, particularly light. Vehicles moved south all evening, according to several traffic counts, at a density of 20 to 25 cars per minute in place of the usual 35 average.

Possibly the total amount of vehicles was as great, as traffic moved southward in a steady stream all day and evening. Upgoing traffic on Friday and Saturday was particularly heavy.

At the regular tournament last Monday the winning rink was composed of Miss Stella Mackie, lead; Ernie Hall, second; Mrs. Boyle, vice; Russell Lynett, skip.

The world's Most Popular Combine

Master Machine for Modern Farmers

A recent survey showed the owners of self-propelled combines in Western Canada to be divided like this:

61.9% were owners of Massey-Harris
38.1% were owners of other makes

This is a very significant fact. Farmers don't choose their machines by whim or fancy. Such a high preference for Massey-Harris is proof beyond doubt that Massey-Harris combines give them the best all-round performance... in fast harvesting, clean threshing, freedom from field delays, low cost of operation.

If you were to visit the Massey-Harris combine factory and watch the long train-

loads of combines pulling out of the railway siding, you would see something else that is noteworthy. Many of these train-loads are destined for United States points, because Massey-Harris combines are as popular in Kansas, Texas and the Dakotas as they are in the Canadian West.

And if you observed further, you would find many carloads destined for far-away countries like Argentina, India, Turkey, Tanganyika. All over the world, the Massey-Harris self-propelled combine is known and recognized as the master machine for modern farmers. Wherever you find modern agriculture, you find Massey-Harris combines in use and in demand.
