High School Plans

King township council has been advised of plans for erection of a new high school building at Aurora. The plans as approved by the Department of Education include a site of about 13 acres of land on south Yonge street, costing \$10,500. Estimated cost of the building is placed at \$401,000; architect's fees at \$24,000 and furniture and equipment at \$70,000 according to Dr. G. W. Williams, chairman of the high school area board. The plans have been presented to Aurora council and Whitechurch township for approval. These municipalities form the high school area.

Consistency Counts

A program to enlarge the building fund for a Memorial Hall at King will get underway with the coming of the winter months. Lake Marie and King Athletic Association, sponsors of the scheme, will continue holding regular dances in McDonald and Wells' Hall. This association, with George Agar as president, and George Brown, first vice president, works consistently year by year to achieve success. In the past it has laboured faithfully to maintain the community project and the steady grind is bringing results. On Friday, October 28, a seasonal dance will be held in McDonald and Wells' hall.

Chest X-Ray Survey Begun

The free chest X-Ray survey conducted by the National Sanitarium Association throughout King Township commences on Thursday, October 13, at Nobleton, continues at King on October 17, at Kettleby on October 19, and at Schomberg, October 21. Because two years have passed since the last survey in 1947, it is deemed advisable persons should have additional X-rays taken. Co-operation and assistance toward the success of the survey is being asked for by the N.S.A. and the health board of King Township, headed by reeve L. B. Goodfellow. The hours in each centre are 1 p.m. to 9 p.m.

Wrestlers Visit Broadview

Eight boys of King City Wrestling Club started by Bob McLeod, former secretary for Central Y Amateur Wrestling Club, were

spectators at the recent Central Ontario branch wrestling trials held at Broadview Y, Toronto. They were welcomed over the public address system by officials, and afterward were personally interviewed and given timely and sound advice on the benefits of the training and personal deportment. The boys were greatly impressed by the performance, carried out as strictly clean wrestling technique free of showmanship and exhibition work. While the local club is not officially organized as yet, it will be when winter quarters can be secured. Coach Bob McLeod and his boys, numbering about 13 to date, hope to achieve the goal for winter quarters in the very near future. The present facilities are not sufficiently adequate, he states.

Those attending the British Empire Trials were Jim Patton, Gordon Thomas, Bill Brown, Bruce Parker, Douglas Beness, Russell Robb, Bill Patton, Bert Archibald, and Coach McLeod.

Turkey Suppers

Turkey suppers connected with various churches would appear to mount in popularity. Coming up is a hot turkey supper at Maple, October 19, following special anniversary services on Sunday, October 16, for the Presbyterian church celebrating the 120th anniversary of organization.

At Laskay United Church the W.M.S. will again stage the annual hot turkey supper on Friday, October 21, followed by a concert in the Women's Institute Hall by the Deer Park United Church Choir. And on November 1, the Tenth Line Presbyterian Church will hold the annual turkey supper in Nobleton Community Hall.

Eversley Presbyterian W.A. is well on the way for preparations for a bazaar on November 4 to be held at King.

Excellent weather prevailing over the week end helped to swell congregations in district churches for Thanksgiving Sunday. And giving thanks for all the blessings of this fair Canada and the bounteous harvest of the land, was uppermost in the minds of countless people, who remember to give thanks to the Source from whence all blessings come.

Missing Maple Boys Found Lost For Night In Woods

After an extensive all-night search by anxious parents and friends, Clayton Johnston, 13, and his neighbor-chum, James Hope, aged 12 were discovered on Monday morning in a cabin about two miles southwest of their homes north of Maple in an extensive woods. Frightened, tired and hungry the lads had spent the night in the cabin belonging to Mrs. N. L. Mathanson. Overcome by darkness and heavy fog the boys were unable to find their way out of the woods. Leaving their homes for a hike early Sunday afternoon, they filled their pockets with apples, their only food for about 15 hours. Mr. Jack Johnston and Mr. Leslie Hope said the boys were none the worse for the experience, except for fright. Mr. Johnston combed the farmlands and a nearby bush with no results. The Hopes got no sleep either. "We were afraid the boys had got into bog holes in the dense forest east of the Maple-King highway," said Betty Hope, 18, a sister. Five carloads of people combed this section of forest for hours, carrying lanterns and shouting and calling the boys' names.

County Constable Edgar Kidd, Richmond Hill, who joined the search party early in the morning was of the opinion at that time the boys might have taken an early start for Woodbridge Fair, held on Monday. The boys had been last seen headed southwest across a field about 4 o'clock on Sunday. Clayton is fond of animals and wants to see what their habits and customs are, Betty Holt stated. The boys are too timid to hitch hike on the highway, said Mrs. Johnston. They keep mostly to the farmlands for their boyish explorations.

Legion Auxiliary At King Stages Bridge & Euchre

The first seasonal bridge and euchre given by the Legion Ladies' Auxiliary in McDonald and Wells' Hall, Friday, October 7, met with success. The tables and cards were convened by Mrs. Elias Bice who presented the prizes to the winners. A central table decorated with flowers held the brightly parcelled gifts arranged by the president, Mrs. Arthur Green, who welcomed everyone.

For the bridge, the ladies' first was awarded to Mrs. Harry McBride; men's first, Walter Aitchison; consolation, Mrs. T. L. Williams, George Billings; euchre prizes, first to Mrs. Frank Wilkins, and Mr. E. Bice; consolation, Mrs. J. Norris and Peter Findlay. The novelty draw made by Pickering McQuarrie went to Frank Wilkins. In the near future plans will be made by the auxiliary for a coming euchre and bridge night. Proceeds are used toward auxiliary projects.

King City Social and Personal

On Wednesday, October 5, at York County Hospital, Newmarket, a daughter, Donna Marie, was born to Mr. and Mrs. Ivel Wood of King. Both are doing well and Sandra Jean has a new sister.

Mr. and Mrs. Arthur Green spent Thanksgiving week end at Niagara Falls for the christening of their grandson, Robert Arthur Kemp, three months' old son of Mr. and Mrs. Robert Kemp. It was held in St. Andrew's United Church, the Rev. Dr. William Fingland officiating. The child's godparents are Miss Pat Connor and Mr. Angus Grant.

Mrs. Eagle and her sister, Miss Moore, Toronto, were week end guests of the former's daughter, Mss. Eric Abraham of King.

SERVING CANADIANS THROUGH CHEMISTRY

"Chemistry?"

..SURE, I STARTED IT THIS YEAR!"

Yes, son, you're now meeting up with formulae and test tubes, but chemistry has been with you all your life. In one form or another it has guarded your health, helped to feed and clothe you and provided many of the things that have made your young career so zestful.

Now you are learning how this great service works. Your first simple experiments are the roots from which sprang such basic products as chlorine to purify water, fertilizers to stimulate food growth, insecticides to kill pests and guard crops, and paint to protect and beautify. You know about nylon hosiery, for example. The same plastic is made as a monofilament, so strong that it is used for fishing line-leaders and tennis racket strings.

Chemistry never stands still. It is constantly searching for and finding new and better products. For this is a chemical world and the C-I-L Oval is the symbol of an organization devoted to serving Canadians through chemistry.

For instance:
PLASTIC WOOD

Here is another product of Chemistry for home, and industrial use, to heal holes and cracks in wood. It handles like putty, hardens into wood, with which it makes perfect union. Canadian Industries Limited, Head Office, P.O. Box 10, Montreal.
