How does a Hillman go in Snow?

READ WHAT A SKI EXPERT HAS TO SAY ABOUT ONE OF HIS MANY LONG TRIPS

"On a Friday early last March," writes Mr. Mann, "we set out in our Hillman from London, Ont., for one of our regular weekend trips. We stayed in Ottawa overnight, and reached St. Jovite in the Laurentians next morning, after a lovely scenic drive over snowy mountain roads. We thoroughly enjoyed a strenuous skiing weekend, then left for London at 8 p.m. on Sunday, arriving at 10.30 next morning. Much of the credit for this wonderful winter trip goes to our Hillman! Even in deep snow, we cruised serenely along with ample power and traction. We covered a total of 1150 miles, at an average speed of 48 mph. Average gas consumption was a very welcome 39 miles per gallon!"

The Hillman Minx performs magnificently in the most exacting winter driving conditions, as thousands of Hillman owners know. A permanent network of dealers provides Hillman parts and service from coast to coast in Canada and the U.S.A. Ask your local dealer for a Hillman demonstration ride.

*We only claim "up to 35 miles per gallon."
