Maple Guernseys Sire Champs

At the request of the Guernsey breeders of the district, the management has added a battery of Guernsey bulls to the Maple Cattle Breeders Artificial Insemination Unit and their services are now available. The selection committee's aim was to secure proven bulls of good type and from high milk production cow families. These were located in some of the outstanding herds of Ontario. It is interesting to note that in the recent Royal Winter Fair where the Guernsey Show surpassed any previous showing of the breed, twenty-two prize winning exhibits were sired by the Guernsey bulls purchased by the Maple Cattle Breeders. Three of the six first prize winners later won the rosettes for the Junior Champion Bull, Junior Champ-

Village Clerk Defines Those Who Can Vote

Those who are entitled to vote on next Monday, December 5, fall into two distinct classifications, says Village Clerk Russell Lynett, returning officer. On the sewerage plebiscite, property owners ONLY are entitled to a ballot. These may, of course, be joint owners, as in the case of man and wife who have property registered in both their names and who have seen that BOTH names are recorded on the voters' list. In this case they each have a vote. If they have not done so then only the individual who is listed on the voters' list can vote.

On the election of Reeve and Councillors all those who have their names on parts one and two of the voters' list, whether property owners or not, are entitled to a ballot.

Voting hours are from 9 a.m. to 7 p.m. and the place of voting for Richmond Hill is at the Masonic Hall.

**GOOD
MUNICIPAL GOVERNMENT
KEPT
MARKHAM TOWNSHIP COSTS
DOWN IN 1949**

How can that be, says the taxpayer who compares his 1948 tax bill with his 1949 one and finds the figures away up.

The answer is simple.

Examine the financial statement issued by the Township Treasurer.

You will find that the total of the 1949 expenditures is \$202,558.

The 1948 figure was \$166,196.

Therefore the difference is \$36,362.

But if you study the figures a bit more you will find that the actual cost of the operation of the township in 1949 was \$57,205. In 1948 it was \$55,231.

Therefore operation costs were only increased \$1,974. or 3 1/2%.

When taxpayers recall the growth of the township, the additional services required, the greater road mileage, the general increase in the cost of all supplies, I think that they will agree that their 1949 reeve and council didn't do too badly in handling their affairs.

Where did the rest of the money go?

County rate, which is set by County Council, is up due to cost of secondary education. The High School rate is up because of the fact that the township is now included in a high school area and the rate is paid in the year in which the area is set up. Both 1948 and 1949 secondary school costs were paid in 1949, and as there will be only one year to pay for in 1950 this amount should be well down.

Public school taxes account for more of the increase, due to the heavy influx of population. The plain answer is — more children to educate.

If you, the taxpayers of Markham Township, want this sort of efficient and economical government which in 1949 kept the expenditures which are controllable by your council down to an increase of 3 1/2% in spite of increased population, increased costs and increased services then I shall appreciate your vote and influence on and before election day.
