VOTE TO RE-ELECT COUNCILLOR KEN TOMLIN

For 1950

To the electors of Richmond Hill: —

We are approaching another civic election and the manner in which your council has conducted the business of the municipality is up for review.

During the past two years your present council has endeavoured to conduct the affairs of the village on sound business principles. This is evidenced by the many improvements and additions to village services during that time.

Among these are full time police protection, new and more efficient traffic signals, amendments to the existing building by-laws, the additional water supply, and most recently the establishment of a health unit which will provide full-time Medical Officer of Health service, nursing service, sanitary inspection and many other advantages.

I am seeking re-election as Councillor for 1950 and you may expect that if re-elected I will apply the same effort and attention to the job that I have in the past.

Your vote and influence are respectfully solicited on my behalf.

COUNCILLOR KEN TOMLIN

To the Electors of Richmond Hill

It has been my privilege to serve as Councillor for the past two years, and I wish to extend thanks for the co-operation given me in the carrying out of the duties of this office.

I am again offering my services and if honored by a renewal of your confidence I will endeavour as in the past to serve the best interests of Richmond Hill.

To the Electors of Richmond Hill

A short time ago I announced that I should not be able to run for Council this year. At the time it was made this was a sincere and honest statement, based on business reasons.

Since then, however, arrangements have been made which permit me to carry on and therefore I am offering myself as a candidate in the forthcoming elections.

I have served three years on Council and shall appreciate your votes again on December 5.

CECIL C. MABLEY

To the Electors of Richmond Hill

After three years as a Public School Trustee I am again offering my services in a similar capacity.

I shall appreciate the support and vote of those who feel that the important matters with which the Board has to deal will be benefitted by my re-election. I can assure them that, as in the past, the important matter of the education of our children will receive my closest attention.

To the Electors of Richmond Hill

As a candidate for election to the Public School Board I fully realize the responsibilities, and the need for careful judgment.

I have been a business man for many years and feel that my experience would be helpful to parents and citizens of our village. For this reason I am willing to give time and thought to the business of our school and if given the opportunity will try and be worthy of your confidence.

To the Electors of the Municipality of Richmond Hill

At the approaching municipal election to be held on Monday, December 5 you, the electors will be called upon to choose your Reeve for the coming year.

After having served in a municipal capacity for eleven years I am convinced that in order to have the most efficient and progressive municipal government there must be at fairly frequent intervals, a forward movement of council personnel into the Reeve's chair. At the present time none of the members of the 1949 council; all of whom have done an excellent job in their several departments, feel ready to assume the responsibility of Reeveship. In view of this, and having been again honored with a nomination for that office, I have decided to stand for re-election, believing that our record of achievement during the past two years will merit your support.

During my tenure of office I have been a consistent advocate of a sewerage system, since I believe it to be the only safe and sane way to protect the health and sanitation of our village. True this project will cost money (details of same have already been given in a former issue) and the expense must be borne by our own municipality. While neither Federal or Provincial Government shares this expense government loans at a reduced rate of interest might be possible.

Your council of 1949 has spent much time and thought striving to formulate the fairest and easiest possible scheme of payment for this very necessary utility, confident that it will benefit every property owner, whether large or small. With sewage installation the whole area of Richmond Hill will become more valuable, both for residential and commercial purposes. I urge each and every owner to give this question his earnest consideration and give Richmond Hill a real boost by voting "yes" on the sewerage plebiscite on December 5.

Thanking you for the confidence accorded me in past elections and trusting that you will favor me with the same in the coming one,

Sincerely yours,

PERCY C. HILL

To The Electors of Richmond Hill

In response to the representations of a large number of ratepayers I am a candidate for Reeve of Richmond Hill for 1950.

I have consented to be a candidate for only one reason, and that is in the hope that my years of municipal experience may be of some help in facing the many important problems now before us.

I am in favor of the installation of sewers in Richmond Hill, but I do not think we can afford them under the plan now presented by the council. If elected it will be my aim to secure financial aid from the Federal and Provincial governments, in the same manner as a similar offer of assistance was made by these governments when I was a member of council back in the thirties.

As one who took an active part in the purchase of North Yonge Radials I will as always work for an improved transportation service. I congratulate the council on the new deal for the bus service, but I would remind the ratepayers that had it not been for the determined stand of a few of us in years gone by our transportation would not be in the favorable state it is in today.

I have ample time at my disposal and am willing to devote it to the up-building of Richmond Hill if I am honored by your confidence. I ask your vote and influence on election day and promise you an aggressive administration with a careful eye on the danger of a mounting tax rate.

J. A. GREENE

Candidate for Reeve for 1950
