**Thornlea News**

Correspondent:  
Mrs. J. Gribble  
Telephone Thornhill 36r31

Mrs. Effner of Johnson Ave., is getting around again after a battle with pneumonia.

Congratulations to Mr. Kenneth Fox on his marriage Saturday to Miss Ida Jean Beeston of Thornhill.

Miss Dorothy Gribble and Mrs. Gribble visited Mr. and Mrs. Bruce Broadfoot of Woodbridge on Sunday.

Correction  
It was Mrs. Mary Lou Hood who attended the shower held at the home of Mrs. Fox, and not Mary Lou Head. Sorry.

Mrs. J. Curtis gave a birthday party for her son Howard when he celebrated his ninth birthday pals attended. Howard was sorry that some he had invited were unable to go because of sickness.

Deepest sympathy of the district is extended to Mrs. W. J. J. Robinson and Mr. Joseph Robinson in their sad bereavement of husband and father. The late Mr. Robinson was one of Thornlea's oldest residents until his retirement nine years ago, when he took up residence in Thornhill village. As a lad he was raised in Thornlea, and attended the school, and later on in years, became one of its trustees, which office he held for many years. He also was one of Thornlea's successful farmers, having farmed on the land which his son Joseph now farms. Always interested in church work, Mr. Robinson's memory will be revered in Trinity Church, Thornhill.

**Proposed Township Activities In Doncaster District Detailed By Cr. James-Assessor Speaks**

Confirmation of decisions made by Markham Township Council regarding activities in the Doncaster area, and reported in last week's Liberal was given by Councillor Alf. James when he addressed the recent meeting of Doncaster Ratepayers Association. He was accompanied by Township Assessor Archie Fleming.

He stated that a gravel walk would be constructed along the east side of Yonge Street from Steele's Avenue to the south limits of Thornhill, with Markham and Vaughan Townships paying 25 per cent of the cost and the Department of Highways putting up the balance.

Council, said Mr. James, would act on recommendations of area residents in connection with the change of street names. Garbage collection, he stated, is being dealt with also. Negotiations between Markham and Vaughan Townships, Richmond Hill and other municipalities were under way with regard to unified action on the problem of dogs running at large, he stated.

Starting with the early days when domestic animals and carriages were taxed, Assessor Fleming gave a history of the growth of local taxation and methods employed. He answered many questions put by members of the association.

**Prohibit Parking Near Maple Corners Vaughan Township Councillors Decide**

Parking of vehicles within 35 feet of the four corners of Maple's main street is to be prohibited, Vaughan Township Council decided at a recent meeting after the property owners and Village Trustees had been consulted.

The existing agreement between the village of Maple and the township covering Maple fire truck was considered satisfactory and Township Clerk J. M. McDonald was instructed to prepare a new agreement. Purchase of an additional 400 feet of hose was approved.

Location of a sidewalk from Maple village to Maple school was considered. Reeve John Howlauer said that he would discuss this further with the Toronto and York Roads Commission.

Meeting later in Richvale councillors discussed the widening of Westwood Lane and approached various parties from whom land must be acquired for this purpose. Establishment of a water area and of a ward system for election of councillors together with the projection of Pearson Avenue north through Richvale, were discussed with Mr. C. G. Baker.

Earlier in its meeting councillors discussed the desirability of retaining the Township Planning Board to assist and advise in matters relating to the development of the township. It was agreed to discuss the matter further with remaining members of the Planning Board.

It was agreed that road machinery should be kept in operation for longer hours, particularly during that part of the year when road maintenance is required.

**Dial Phones Pose Problem Fire Chief Tells Councillors**

Introduction of a dial telephone system would create a problem in calling firemen in case of need, Fire Chief Bert Cook told members of Village Council at their meeting on Monday.

Although dials are not expected to be in operation until early 1952 it was, he said, his duty to advise council of the situation which would be created in order that action could be taken. He said that he felt that Vaughan and Markham Townships, large parts of which are served by the Richmond Hill brigade, should be interested also.

"The insurance companies should be interested too," said Councillor Middleton in the course of a discussion which led to a decision to have the Village Clerk take the matter up with the Bell Telephone Company.

**Evening Guild To Hear Story Of Overseas Trip**

When Mr. and Mrs. S. C. Snively of Oak Ridges set off on their trip to Europe, Mrs. Snively had no idea that Richmond Hill would be waiting to hear her account of that trip.

The Evening Guild has asked Mrs. Snively to speak at St. Mary's Anglican Parish Hall on Tuesday March 20. "It was really Spring all the way" she said of her trip, as they sailed from New York in February on the S. S. Exeter and flew home to Canada three months later.

The Sniveleys landed to Spring loveliness in France, then journeyed south to the heat of Egypt and from there to the British Isles. Mrs. Snively is calling her talk on Tuesday, "From Ancient Egypt to Modern England."

**No Escape From Law For Traffic Offenders As 16,000 Motorists Find Out In 1951**

Many an unthinking motorist is finding himself denied the seasonal privilege of replacing his old vehicle number plates with shiny new 1951 markers.

If his permit has been suspended, for any one of a number of reasons connected with making highway traffic safer, he won't have any old 1950 plates to take off, and is liable to fine and imprisonment if he applies for new ones.

**More Off Roads**

Convicted careless and drunken drivers head the list of people removed from the roads for varying periods under Ontario's expanding program of license and permit suspension. 16,000 drivers who broke the traffic laws lost their right to drive last year, compared with 13,000 for Ontario in 1949.

Several of the more serious offences bring loss of driving privileges under any circumstances. But whenever the offence involves injury to persons or property damage it results in at least temporary suspension.

**Boost Penalties**

The list of violations that can put a driver off the roads was greatly lengthened by amendments to the Highway Traffic Act introduced three years ago by Highway Minister Hon. Geo. H. Doucett. They include offences such as speeding, improper turning, failure to signal, or failure to stop at through streets, or observe the rules of right of way, if involved in accidents. Further amendments passed last year doubled the statutory periods of suspension on conviction of drunk driving for any case where injury or damage resulted.

There is no escape from these

Daddy may want to do some tall explaining to the family about this visit from the Ontario Provincial Police who have come to get the number plates off his car. A suspension order from the Registrar of Motor Vehicles has been ignored: driver's license, owner's permit and plates have not been surrendered on request by mail. Now the law arrives in person to see that justice is carried out and the public protected. And the boys looking on can take a lesson from what happens—no drives in the family car for quite a while. Perhaps when they start driving themselves they'll know how serious is the responsibility that goes with the privilege of using Ontario roads.

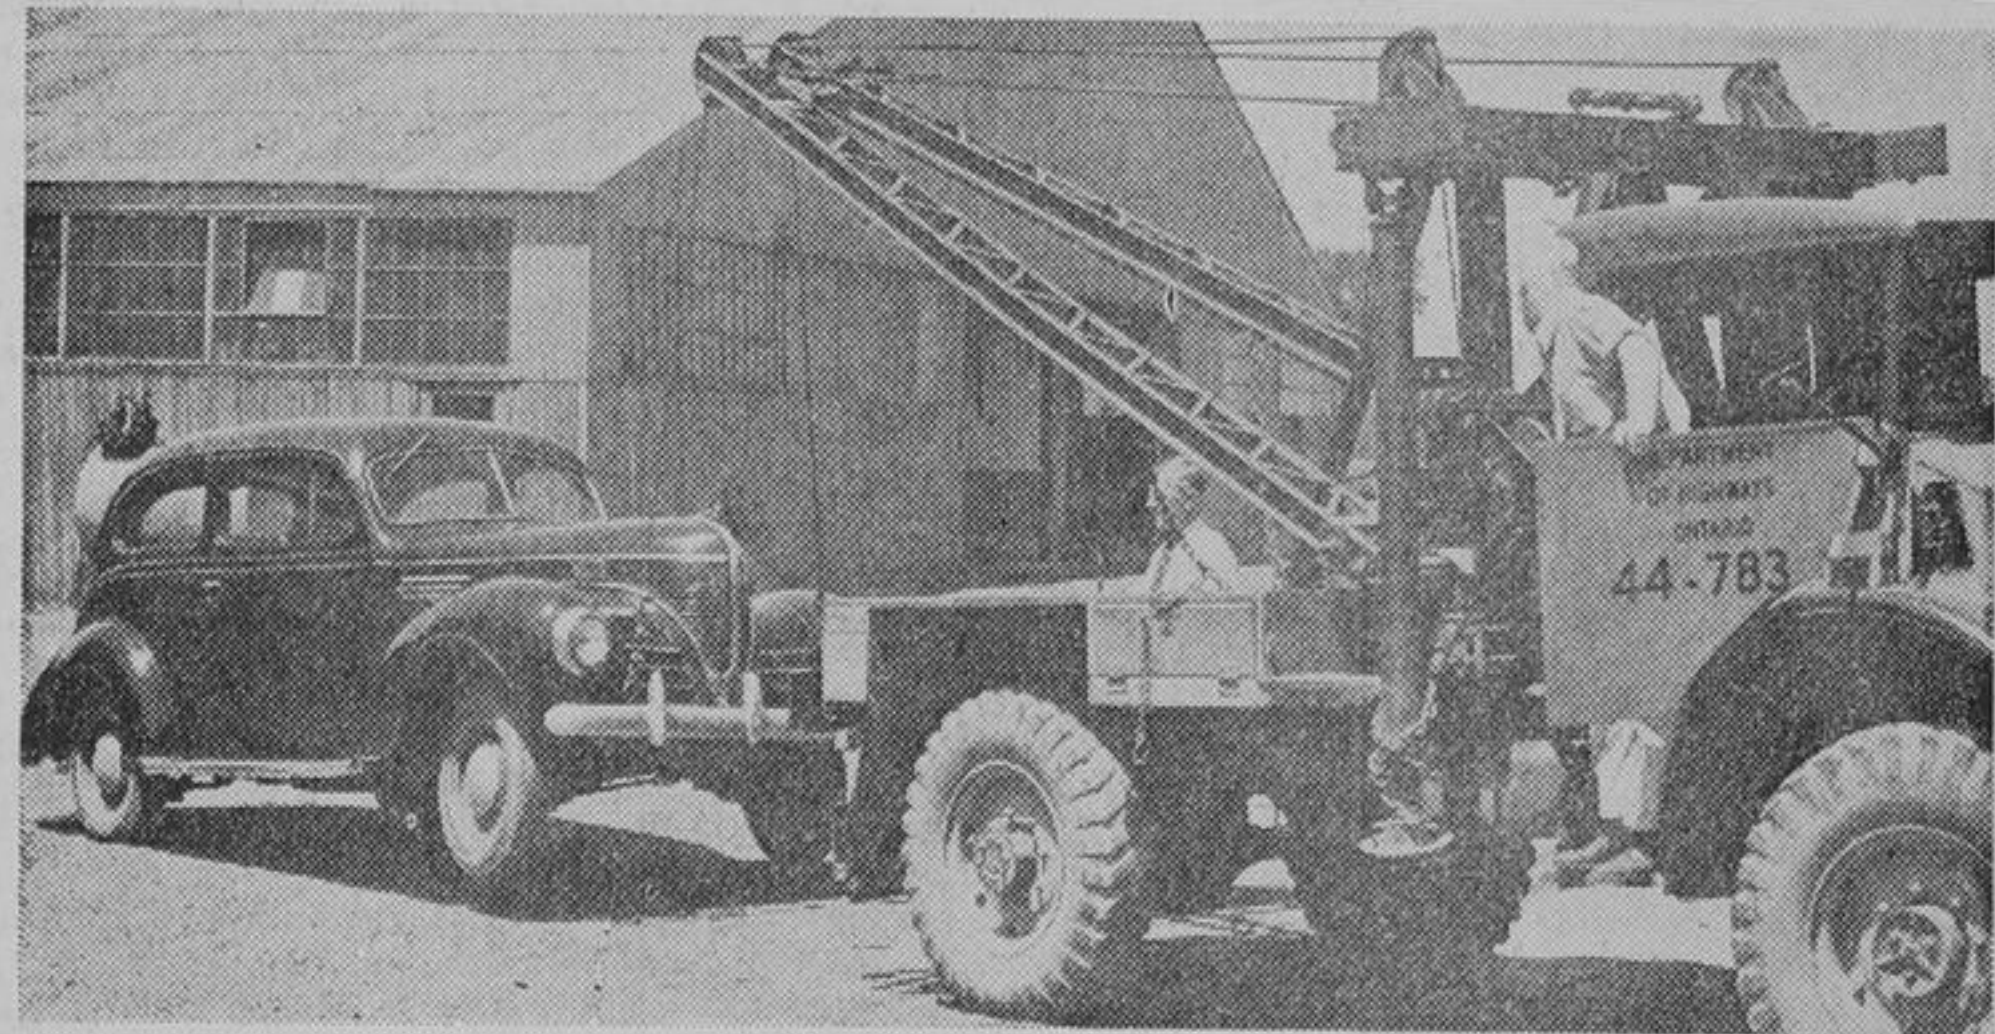

laws intended to keep dangerous, thoughtless or irresponsible drivers off the roads and to deter others. The length of time they are kept off the roads varies depending on the offence, but in no case is a new permit ever granted until the offender has filed proof of financial responsibility.

**Enforcement Certain**

If, after notice, the offender's driver's license, owner's permit and number plates are not received at Queen's Park within a reasonable time, the police are sent to get

them. If a permit is under suspension and someone operates the vehicle, the vehicle itself must be forfeited to the Crown.

These penalties are intended to protect law abiding motorists from harm at the hands of others. Laws of this type are being adopted by more and more states and provinces. Ontario has reciprocal arrangements with all Canadian provinces and 28 American States to enforce each other's laws when residents are driving in other areas than their own.

The owner of this vehicle being towed into a Highways Department garage now knows that there are severe penalties for those who ignore suspension orders of their drivers' licenses or permits. His privilege to drive had been revoked because of improper conduct and he was subsequently apprehended while driving his car. The permit for the car was under suspension and the car was therefore "forfeited to the Crown." Later, it will be sold.

**Bank of Commerce Advertising Awarded Top 1950 Honours-First Canadian Win**

The Canadian Bank of Commerce has been awarded top honors by Banking, the magazine of the American Bankers Association, for "outstanding use of advertising methods" in 1950.

This is the first time this distinction has been won by a Canadian chartered bank. Selected advertisements from The Commerce 1950 program were reprinted in the March issue of Banking along with those of nine United States banks.

Banking reported that "Hundreds of campaigns were represented by the entire. National, state savings banks and trust companies sent us samples of the stories they told

their publics during the past year. General and special purpose campaigns — here and there a single idea — came in from all parts of the country, and from Canada, too."

Considerable comment resulted last fall from a Commerce series in which short stories by Canadian artists were printed in double-page magazine spreads. The advertisements said only: "Published by The Canadian Bank of Commerce because we like it." The prize-winning campaign featured, in addition, special advertisements for farmers, women, small-town daily and weekly newspapers and United States and Canadian business publications.

**School Hockey Playoffs Staged**

The Inter-school Hockey Playoffs were held at Unionville Arena, on Wednesday, March 7, 1951. The Thornhill District Lions Club sponsored the annual event and the Area School Board hired buses to transport the 13 teams, 195 players and their coaches for the Round Robin series.

The timekeeper was Mr. Earle Richards and the recorder Miss Sybbald of Richvale School. Goal judges were Lions Percy Pool and Fred Morris, and the referees included Mr. D. Smith of Langstaff, Mr. R. Everist of Richvale and Rev. E. E. Kent.

The games began at 10 in the morning and ended at 4. Fifteen games in all were played, many of them hard fought with the following championship results: The Senior Boys league was won by Richvale, the Junior Boys by Langstaff, the Pee Wee Boys by Richvale, and the Girls, a new league this year, by Thornhill.

Goals scored were as follows: Pee-Wees — Richvale, Robbie Martin 1, Gary Stamp 2.

Juniors — Thornhill, John Bolwell 1; Langstaff, Gerald Bowen 3. Powell Road, Frank Hiner 1. Seniors: Langstaff, Dave Ellison 1, Jack Robson 3, Carl Beeston 1, Richvale, Frank Martin 3, Jimmy Coghill 4, Allen Bestard 2. Thornlea, Bruce Middleton 1, Bob Caesar 1, Bill Mitchell 1, Don Middleton 1. Girls: Richvale, Carol Hertz; Thornhill, Sylvia Sommerville.

In the Junior play-offs at the end of the regulation time, Richvale and Langstaff were tied in points and five minutes overtime was played. The system of scoring was 2 points for a win and 1 for a draw. With 15 games to be played, because of the time limit, the games were confined to one full period each. The Langstaff goalie Peter LeMaurier was hurt in the Senior game against Thornlea and four stitches were required to close a cut near the right eye.

**Trade Fair Dates June 15 & 16**

Although plans for Richmond Hill's 1951 Trade Fair are only in the formative stages numerous requests for space are already being made to the director. Included among them are local businesses which did not exhibit last year but which have determined to be in time for space reservations this year.

Judging by the requests which have already been made it looks as if display space will be at a premium again. However, the directorate is considering plans which will

provide additional accommodation and which, as well, will allow for the holding of the flower show and arts and crafts display which are projected features for the 1951 event.

Dates for the fair have been set as Friday and Saturday, June 15 and 16 — the equivalent Friday and Saturday to last year.

Letters are to be sent to all members of the association shortly giving them particulars of the arrangements in connection with space reservations.
