"My telephone is worth so much to me!"

"It saves me time and steps; keeps me in touch with my family and friends; is always ready in emergencies."

AND ITS VALUE keeps growing all the time. With more and more families getting telephones, you can reach twice as many people as you could ten years ago. And the traditionally friendly service is being steadily improved.

Yet today your telephone actually takes a smaller part of your family budget than it did some years ago!

Friendly and efficient telephone service, at a reasonable price, is one of today's big bargains.

If you haven't yet got service

You can be sure your neighbourhood will be served, and your place on the list protected. Taking care of people without service as quickly as possible is one of our biggest and most important tasks.

A GENERAL MOTORS VALUE

Big fleet operators who keep careful checks on all makes of trucks tell us that GMC's are consistent standouts for long life with minimum maintenance. And here's the reason why! . . . GMC's are truck-engineered by the world's largest exclusive builders of commercial vehicles. And they're truck-built! From the very first drawing, they were planned for truck service—tough truck service.

GMC gives you real truck engines with high horsepower and higher sustained torque—more pull! And GMC's engines . . . the 92 h.p. Thriftmaster, the 105 h.p. Loadmaster, the 114 h.p. Torquemaster and the famous 270 cubic inch displacement engine with 120 horsepower . . . are all built to deliver full power without eating their hearts out!

In the GMC line there are more models than in any other truck line—more load ranges, more wheelbases, more axle designs, more gear ranges—a truck that's all truck, for any load on any road! See your GMC Dealer!
