The teachers of S. S. No. 6, Maple, are holding open house in the school on Friday, April 13, at 8.30. All parents of pupils and prospective pupils will find a grand opportunity to discuss the needs of the children with the teachers. Much work has gone into this affair and judging by last year's "Open House" the displays will be not only interesting but enlightening to all of us. The "Triple Trio," three times winners at the Kiwanis Festival will sing and refreshments will be served by the Maple Community and School Club.

The parents of next year's first graders should find a chat with the teachers helpful.

By plowing around a hill rather than up and down, small dams instead of gulleys are created by the furrows. These hold the topsoil back during rains and spring thaws. Crop increases of 20% to 30% have been recorded the first year after contour plowing. It takes almost 1000 years for nature to produce one inch of topsoil.
