## INSURANCE Cont.

### INSURANCE OF ALL KINDS

With the increase of fire hazards  
property owners should review  
their insurance policies, and due to  
the increased cost of materials  
would be well advised to increase  
the amounts of insurance. Also car  
owners who think it will never  
happen to them are caught some  
time or other without protection.  
The cost is a minor amount to what  
it will cost if an accident  
happens.

**Are You Properly Protected?**  
Increased costs of buildings,  
furniture, clothing and even  
Claims have left many a person  
THOUSANDS of dollars  
short of today's costs after a  
Fire or Auto Accident.

Let us survey your present  
policies and make the necessary  
changes that will give you the  
"Peace of Mind" that  
comes with a better insurance  
protection and service.

## MODERN FARMING DEPENDS UPON POWER EQUIPMENT

The ability of Canadian farmers to "deliver the goods" is due in a very large degree to their skill and eagerness in adapting modern mechanized equipment to their operations.

Now, more than ever before, farmers are looking to machines to help them overcome the scarcity and high cost of farm labor, to get the work done quickly and at low operating cost, and to maintain and increase production.

Through continuous research and engineering Massey-Harris has developed new and improved tractors, combines and power machines which prove helpful to users in establishing more efficient farm operation.
