A By-law to provide for the construction of sidewalks of cement, or other permanent material.

WEREAS some of the sidewalks of the Village require extensive repairs and it is deemed advisable to construct sidewalks of concrete, or other permanent material;

AND WHEREAS the Trustees are of the opinion that the construction of the sidewalks herein-after mentioned benefit the whole Village;

AND WHEREAS there is no outstanding debenture debt chargeable to the Village;

NOW THEREFORE the Trustees of the Police Village of Thornhill enact as follows:—

1. THAT a sidewalk of concrete or other permanent material be constructed on the east side of Yonge Street in the said Village of Thornhill from a point 115 feet north of the northerly limit of John Street to the southerly limit of a private lane adjoining on the south the property of Nelson Smelie, being approximately 735 feet in length.

**COOLING OFF!**

It takes a lot of cooling to keep a Polar Bear happy. This largest member of the bear family is smaller than a porcupine at birth, but often weighs more than three-quarters of a ton when full grown. To this tremendous bulk, add the fact that the bear is covered with a thick, water-proof coat, which is designed to protect him in the Arctic... it's a big job keeping him cool in our zoos. Learn about nature's creatures. Visit the nearest zoo and see them. A whole new world of interest will be opened to you when you understand nature.
