Free Chest X-Ray

The Free Chest X-Ray Mobile Unit will locate in Thornhill on Wednesday and Thursday, July 25 and 26, on the boulevard in front of the MacNeil-Anstey building, and it will operate from 1.30 to 9 p.m. This year the Unit will be sponsored by the Thornhill District Lions Club. This makes it more convenient for Langstaff residents to take advantage of this free health service and at the same time fulfill a civic duty.

Recreational Committee

The second Wrestling Night in Richmond Hill Arena last Friday was even more exciting than the previous one, if it's possible, and this Friday's programme should be equally good. The number of patrons was up, too, indicating that the interest wasn't a "flash in the pan." Details of both events are featured elsewhere in this issue.

Visitors from Montreal

At the home of Mr. and Mrs. George Laba, Ruggles Avenue, are Mr. Mike Ze-wacke and his twelve-year-old daughter, Ann, also Mrs. Mary Laba, wife of Mr. Laba's brother, James, who is due to arrive on July 27 or his two weeks vacation. The James Labas were in a concentration camp in Germany and following their release did farm work in Belgium before George was able to get them out to Canada. James is a cook by profession and would like to settle locally and learn English, but having lived so far in Montreal where he has heard practically all French, he has not progressed with English as he would

INSURANCE OF ALL KINDS

With the increase of fire hazards property owners should review their insurance policies, and due to the increased cost of materials would be well advised to increase the amounts of insurance. Also car owners who think it will never happen to them are caught some time or other without protection. The cost is a minor amount to what it will cost if an accident happens.

Mrs. Winnifred Mortson of Toronto spent a very enjoyable holiday with Mr. and Mrs. Clarence Stong last week. Mrs. Mortson's daughter, Miss Connie, spent the week-end with her mother and Mr. and Mrs. Stong and accompanied them to Sunfish Camp, near Strand to visit Ronnie McTague. Mr. Morrison of Toronto is enjoying two weeks' holiday with his daughter, Mrs. John Young and family.

Cherry is an ideal producer. For many years dairymen have dreamed of an ideal cow—one that would meet three certain requirements—first, she would have to produce 1,000 lbs. of butterfat in 305 days on twice a day milking—second she would have to produce a calf every 400 days—and third, she would have to be a good looker.

Such an animal has finally been developed. She is Roeland Cherry Re-Echo Rag Apple, a purebred Holstein, bred and owned by Jack Greenwood. She has just completed an official Record of Performance test of 1011 lbs. of fat from 20,157 lbs. of milk (5.02 per cent) in 305 days on twice a day milking which boosts the former World Record held by a United States Jersey by 115 lbs. of butterfat.

Cherry calved in exactly 400 days from the start of her record to fulfill the second requirement. The third requirement was met when Cherry officially classified as "Excellent," the highest attainable rating for conformation.

Donald Elliott and his fiancée, Miss Margaret Best, motored from Woodstock last week to spend a couple of days with Mr. and Mrs. C. Stong. Terry Elliott returned with them to Woodstock to spend 2 or 3 weeks with his brother.

Mr. and Mrs. Don Stewart of Langstaff Road West returned last week-end from a two and a half week motor trip to Florida. They travelled by way of Washington, following the general route to St. Augustine where they enjoyed a week in a cottage by the ocean. Although inland it was humid and hot, the sea air was surprisingly dry and refreshing. Don took advantage of the abundance of oranges and is now recovering from the resulting rash.

COOLING OFF!

It takes a lot of cooling to keep a Polar Bear happy. This largest member of the bear family is smaller than a porcupine at birth, but often weighs more than three-quarters of a ton when full grown. To this tremendous bulk, add the fact that the bear is covered with a thick, water-proof coat, which is designed to protect him in the Arctic... it's a big job keeping him cool in our zoos. Learn about nature's creatures. Visit the nearest zoo and see them. A whole new world of interest will be opened to you when you understand nature.
