No License Plates In 1952 To Save Steel For Defense

This year's motor vehicle license plates will be used again in 1952 and will be legalized by a sticker to be placed on the lower right hand corner of the windshield, the Department of Highways announces. Reeve William Neal when questioned on this subject told The Liberal that he has already been informed by the Ontario Government that there will be no new license plates in 1952.

Thus the government desires to co-operate with the federal defence plan in saving some 750 tons of steel, used annually to make the plates.

This amount of steel, Hon. Geo. H. Doucett, Minister of Highways said, could be obtained for more vital purposes such as bridges or other necessary departmental purposes.

The windshield marker will be printed in a yellow background, about three by five inches in size, bearing "Ontario," the Provincial Crest, and 1952.

Mr. Doucett said that the annual registration plates of distinctive color is generally recognized as the most effective and cheapest method of renewing motor vehicle permits. Suggestion has been that they should be renewed only every three or five years but to manufacture a plate to last for that length of time would cost considerably more than the annual registration plate now in use.

While tabs or strips are used for renewals in some jurisdictions, these have been found to be unsatisfactory, are lost, stolen, or counterfeited, with resultant loss in revenue.

With two years of service required for the present plates, Mr. Doucett urged motorists to be careful with their present plates, placing them in such a position as to prevent damage from bumpers, etc.

SHOW OF HANDS

Frequent and careful washing of the hands in soap and water is one of the best safeguards we have against many common diseases. The hands and fingernails should be kept as clean as possible at all times, but particular care should be taken to wash up before meals and after using the toilet. Remember most germs enter the body through the mouth, many of them via the hands.
