SENSATIONAL NEW MONEY SAVING Beatty AUTOMATIC WASHER

NOW HERE

It washes, it rinses, it damp dries, it pumps the wash water out, cleans itself, shuts itself off — AUTOMATICALLY. You put the clothes in and you take them out — your hands never touch the water.

Here at last is the END of wash day. Because you can put a load of dirty things in any time. Set the control, and RELAX.

It's so simple to operate that even a youngster could run it. Just ONE control to set and the washer does the rest.

A MARVELLOUS INVENTION

Come in and let us show you the marvellous "HYDROFLEX TUB" which enfolds the clothes when they are washed and rinsed and squeezes them "damp dry." See the "TOPFLOW" method of flushing suds and sediment out through the top so they are kept from re-soiling the clothes.

PRACTICAL! EFFICIENT!

Here's the most efficient washing action in the world — it's the patented Beatty "human hand" agitator. It was long ago proven to be the most PRACTICAL.

The rinsing is done by the agitator, too, and many times more thoroughly than it can be done by hand or by any other method — gets clothes cleaner, whiter.

DOES MORE — COSTS LESS

The Beatty Automatic washes the clothes cleaner and whiter — and uses hardly HALF as much hot water as other automatics. It is MORE PRACTICAL in many ways. It does not have to be installed — does not have to be bolted down — it is movable on casters so it can be run in and out of kitchen or bathroom. The cabinet is handsome as any piece of furniture and will "do you proud" in your kitchen.

COMES WITHIN YOUR MEANS

Because of its simple, sound construction, the COST of the new Beatty Automatic has been kept down. It costs less than others. The cost will be greatly reduced by the generous ALLOWANCE we will make for your old washer. And you can spread the balance out in easy monthly terms so low you'll hardly miss the money. Sure you can afford it! You can't afford to be without it!

Costs so little
SAVES YOU SO MUCH

You can do the same work on this ironer as you would do on a cabinet model. Yet it costs less than half the price.

ONLY
\$99.50

THE NEW Beatty SPACE SAVER IRONER

IRONS EVERYTHING

Yes, it irons men's shirts — and kiddies' dresses, too, and curtains and curtain ruffles. It will press and pleat perfectly.

Just one simple motion to run it — just press the lever down. It locks in position and both your hands are free to guide the clothes. It is equipped, of course, with switch, signal light and thermostat. Plug the cord into any wall socket — no special wiring is needed.

IT IRONS — PRESSES — STEAMS
