BATTERY trade-in SALE

\$4.00
 FOR YOUR OLD BATTERY
 (This huge Trade-In is in addition to the regular Canadian Tire savings —)

MOR-POWER CANADA'S BEST-BUILT BATTERY

LEAD IS A STRATEGIC MATERIAL—In order to keep the wheels of industry turning, every ounce of scrap lead should be salvaged during the present national emergency. For this reason, Canadian Tire will pay you the amazingly generous sum of \$4.00 for your old battery, on the purchase of any new Mor-Power. Condition of old battery is immaterial—as long as we receive ALL THE LEAD CONTENT. Only the lead is of value; we junk the cases and other components. Help to forestall a possible serious metal shortage, and help yourself to these BIGGER BATTERY SAVINGS!

HERE'S THE BATTERY FOR YOUR CAR

Group No.	Our Type	Plates Per Amp. Battery	Factory List	C.T.C. Price	If you trade in your old Battery

KING CITY NEWS

Correspondent: MRS. M. JOHNSTON, KING, ONT.
 Phone King 55R14

When Laskay Women's Institute met on Wednesday afternoon, the main topic was the discussion and planning of the dance to be held on September 25 in the Institute Hall. The committee in charge of arrangements is Mrs. Chas. Black, Mrs. P. Leatherdale and Mrs. Laurie Boys. Mrs. Len Glass gave a talk about her motor trip to the west coast this past summer and amused the members with stories of the friendly bears in the Rockies, who pilfer the food from the cars after dark. Mrs. Charles Black read items from a new book on Courtesy and Etiquette that is being introduced to High School pupils for study this year. Such important every-day courtesies as unselfishness when using the party line, kindness at home, thoughtfulness of others at concerts and meetings, were mentioned. There was an exchange of house plants among the members present.

Stephen Leacock Memorial
 Miss Alice Ferguson, Miss Carole Musk and Miss Jessie Gellately motored to Orillia to attend the unveiling ceremonies of the Stephen Leacock Memorial on September 7. They also spent some time at the home of the late humorist, which is beautifully situated on a wooded point on Lake Couchiching. In the evening they were amongst the 500 guests who sat down to the memorial dinner at Fern Cottage, Atherley, and they were present later when Eric Nichol received the Leacock Medal for humor, for his book, "The Roving I." During the day, the ladies found time to visit Miss Ferguson's cousins, Mr. and Mrs. Andy Leish of Orillia.

King Library
 The little library at King has been well publicized recently, for Don Fairbairn of Neighbourly News informed Ontario on Sunday morning that there was to be a grand removal on Main Street soon. Neighbors have heard from friends in Galt, Grimsby, Burlington and other towns, asking for more information about our library.

Two weeks ago the library board came to the conclusion that the present quarters in Memorial Park, were unsuitable for a library, especially in the winter and the thawing weather. It was asking too much of the voluntary librarians to spend an afternoon and evening in the cold damp room. The only vacant building in King was the little old barber shop, for the local barber had moved to larger quarters this spring. So plans were made to enquire if this little shop would be available for a temporary library until the new Community Hall is built. The result is that the barber shop was bought for \$200, and permission was granted by the Lake Marie Athletic Association to place the wooden structure at the north-west corner of Memorial Park. As this is a temporary arrangement, the ex-barber shop, turned library, will be propped on cement blocks, and will soon be ready for business. Any evening now we may see it on rollers, trundling down the street, and around to the park, to what will likely be its final resting place.

This is not the first trip that this little one-room building has had. Its original position in King, was on the property now owned by Mr. Wm. Carson. It was highly respectable, for it was the office of the township clerk, one Charles Patterson. After a few years when the township offices moved to Nobleton, it had its first jaunt, when it was moved across the street to its present location. George Phillips, who owned the Phillips Hotel, now Armstrong's store, turned it into a shoe repair shop. Most people in King remember it only as the village barber shop. When it moves to the park, its old age will be spent quietly and respectfully, in company of books, for readers of all ages, with a great variety of tastes.

All Saints Anglican Church at King will be holding Harvest Thanksgiving Services on Sunday next, September 30. There will be a service of Holy Communion at 9.30 a.m. and Evening Prayer at 7 p.m. The preacher at the evening service will be the Rev. J. D. Paterson of Woodbridge. The dedication of the church will take place on Saturday afternoon. Gifts of flowers and fruit and vegetables will be very welcome and may be left in the church on Saturday morning or at any time previous.

Members of St. Stephen's congregation at Maple are expected to attend the service as in years past. The church at Maple will be closed for the occasion.

Baptismal Ceremony
 There was a baptismal ceremony at All Saints' Anglican Church on Sunday afternoon when two baby granddaughters of Mr. and Mrs. Ross Walker were christened. The babies were Shirley Anne, infant daughter of Mr. and Mrs. Bob Walker, and Marilyn Louise, daughter of Mr. and Mrs. George Billings. Besides the local grandparents, Mr. and Mrs. Lee Bryan of Aurora and Mr. and Mrs. Frank Billings of Kettleby were the other grandparents present. A family tea at the home of Mr. and Mrs. Bob Walker followed the service at the church.

Great Adventure
 Over 20 children accompanied

food parcels, had remembered their wedding day, and had "said it with flowers" from across the ocean.

Mrs. W. F. Hood, district club master is beginning to think about club activities again. She sets the opening date as October 3, but says all boys must register before that date. This year the boys must be 8 years of age. There is to be a handicrafts class one meeting each month and this year's program will be one and a half hours each meeting. The Cubs will meet at All Saints Anglican church Wednesday evenings from 7.30 to 9 o'clock.

King Community Association
 The King Community Association met at the home of the chairman, Mrs. Ivan Specht Wednesday evening. This association has been formed by representatives of community minded groups in the village, with the mutual aim of seeing that a community hall is built for the use of this district, as their reason for coming into being. The secretary is Donald Findlay, and the treasurer is Matt Bell. Those present were George Brown, president of the Lake Marie Association; Don Findlay, representing the Canadian Legion; Mrs. A. Fleet, the Ladies' Aux to Legio; Mrs. A. E. Jarvis, president of the Women's Institute; George Harvey representing the Boy Scouts; Bob McLeod, Wrestling Club; Mrs. Gordon Wells, on behalf of the Library Board, and several interested observers. The meeting was for the purpose of completing the business of organizing, and to assure themselves that all plans so far were in symphony. It was announced that the furnace taken from the King School this summer would be available for use in the anticipated memorial hall.

Mill St. Residence Entered
 The residence of Herbert Carr, Mill St., Richmond Hill, was entered sometime during last Thursday night or early Friday morning, and although drawers were rifled and things strewn about, nothing was stolen. Entry was made by a rear window. Richmond Hill Constable Robbins is investigating.

Picture News from C-I-L

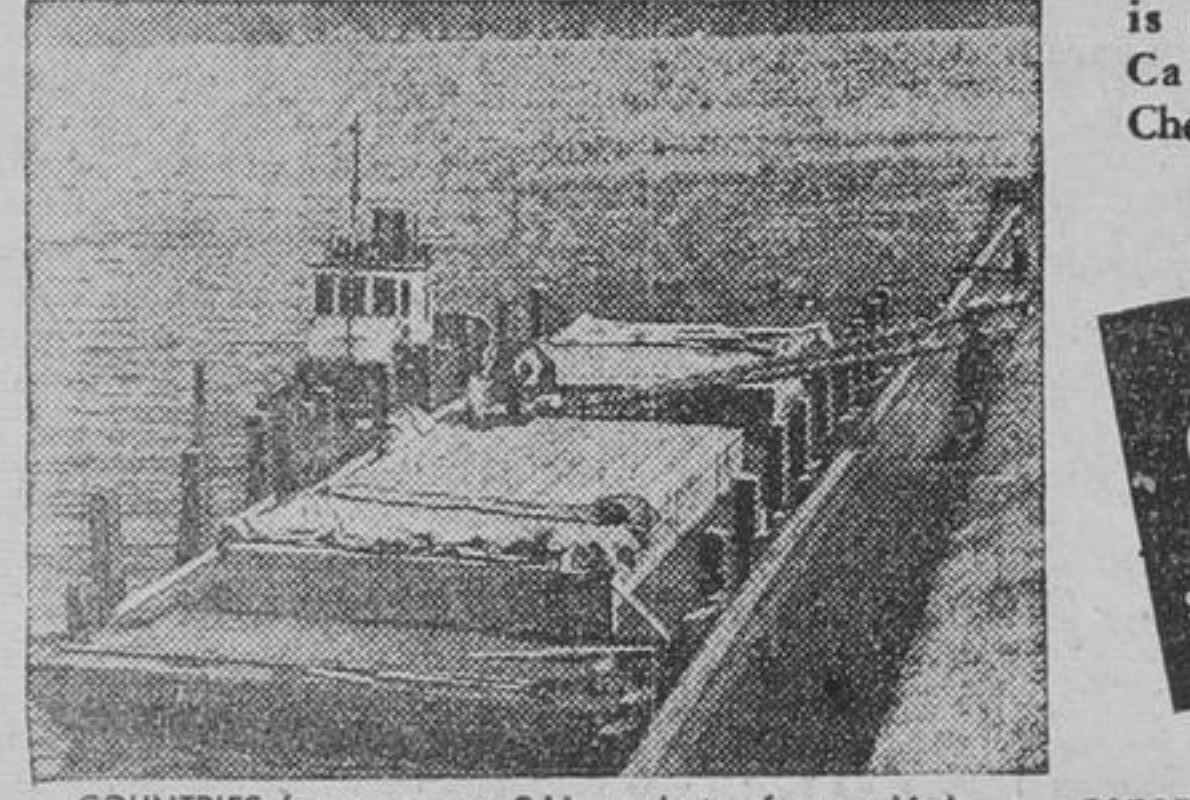

SPEED GLAZE is the new modern way to polish cars. Just wipe it on, wipe it off, for the most beautiful shine you've ever seen. "Speed Glaze" is a silicone polish, developed by the industrial chemist to clean and beautify in one operation—with no cleaner required.

YOUR UNSEEN SERVANT—CHEMISTRY

A lot of C-I-L products are unfamiliar; a lot are known only in the form of finished articles. Take "Freon" for example. It is used as the propellant in aerosol bombs; it is also the chemical which keeps your electric refrigerator cold. "Fabrikoid" coated fabric is supplied by C-I-L to other manufacturers who convert it into suitcases, belts or book covers. In the same way C-I-L makes nylon yarn and staple fibre, but other companies make the nylon stockings, lingerie, or the seat-coverings pictured here. The things made by C-I-L are often obscure in the finished product. They bleach the towel, dye the dress or cool the refrigerator—all vital but little known tasks performed to create new and better things for you. In such ways C-I-L is constantly "Serving Canadians Through Chemistry".

C-I-L SERVING CANADIANS THROUGH CHEMISTRY

COUNTRIES far away use C-I-L products of many kinds. Here explosives are loaded aboard a barge on the first leg of a long journey to an Asian construction project.

CANADIANS take naturally to the outdoors, where the sportsman matches his wits and skill against the wild. C-I-L Ammunition is designed by men who know from experience what a sportsman needs.

AUTOMOBILE manufacturers are always seeking refinements to provide you with a better car. One of the latest of these is nylon upholstery, made from C-I-L nylon yarn.
