Other members of the club who will also be in charge of a team are Tim Saul, Wick Mills, Bill White and Bob Ross. The names of the teams will be the same as last year, Chicago, Boston, Rangers, Detroit, Leafs and Canadians, with Bob Ross again looking after the boys up to 8 years of age. It has not yet been decided by rink officials when the boys will be permitted to have the arena for their games. Last year they were given two nights a week from 6 o'clock to 8.30 p.m., and it is hoped some arrangement like this can be made this season.

The club executive will be having another meeting in a few weeks time, and the Midget boys are asked to watch The Liberal for further information.

Mrs. Little Resigns From Library Board

At a recent meeting of the Richmond Hill Library Board the following resolution was passed. "The Public Library Board of the Village of Richmond Hill hereby records its profound regret over the loss of Mrs. R. D. Little as a member, after a service of nine years and expresses the hope that Mrs. Little will in some measure at least, find it possible to continue interesting herself in the welfare of the library.

Her sense of discrimination has been of the greatest value to us in the selection of books. Her knowledge of public demand reaches a high level of accuracy. Her resourcefulness, skill and painstaking efforts in furthering the interests of the library have been second to none. One result is that Richmond Hill has now a library of great community usefulness and beauty. The Library Board wishes Mrs. Little every happiness, and the members would assure her of their genuine concern for her return to membership with them."

Sales Arena Marks First Anniversary

Prizes for the person buying the most and selling the most, will be a feature at Stouffville Livestock Sales Arena, this Saturday, October 13. The occasion is the celebration of the first anniversary of the opening of the sales arena, a new line of business in this part of the country.

W. D. Atkinson, who operates the present barn which is now too small to accommodate the large number of livestock which come to be sold every week, spent seven weeks in western Canada and the United States recently studying the operation and building of sales barns. Material and equipment are now being gathered together to build a new livestock sales arena which is expected to be one of the largest and most up-to-date to be found.

At last week's sale buyers were present from as far east as Napanee, west as far as Kitchener and north as far as Burks Falls. This Saturday free afternoon tea for the ladies will be served from 3 to 4 p.m. Mr. Atkinson welcomes everyone to come and see the sale which increases in size every week.

Reeve William Neal Well Satisfied With The Work

"Excellent progress is being made in the installation of sewers in the village," Reeve William Neal of Richmond Hill reported this week. The Reeve pointed out that the work started on the \$350,000. project on July 11 and that so far construction has gone ahead smoothly and now nearing mid-October is well ahead of schedule. "We are well satisfied with the progress being made," said Reeve Neal, and moreover we think the contractor is doing a fine job."

The Marino Construction Company reports that sewers have been completed in the east half of the village with the exception of that section which crosses the H. J. Mills Limited property, and Crosby Avenue. On the west side of the village work has been about completed on Arnold Crescent, Wright Street, Hall Street and Richmond Street. Sewer connections for residences have been completed on Markham Road, Roseview Avenue, and Church Street in readiness for connection at a later date. This work is proceeding rapidly as the main sewer installation is done.

The contractor plans to do the side streets first and leave Yonge Street until the last as this work can be done quite easily in the winter months. The difficulty encountered in gaining a right-of-way across the Mills property has caused some unfortunate delay in the contractor's plans. The system as laid out by the engineer called for the sewer to cross the Mills property east of the entrance to the Centre Street greenhouses, then westerly along the Dufferin Street laneway and then north across Bedford Park Floral Co. property to Crosby Avenue. At the present time

the local authorities are planning the necessary legal steps to acquire an easement across the private property, and while this may take some time it is hoped this will be completed so the work on this section can be completed during the coming winter.

It is too early to hazard a guess as to the date when the new sewer system will be in operation, but some time next mid-summer is mentioned as the probable time of completion. Reeve Neal spoke highly of the fine spirit of co-operation which has been shown by the people, both local residents and those from the outside who use the village streets. There have been some inconveniences and the condition of the streets sometimes of necessity has not always been the best, but the people have accepted it all in good part and there have been very few serious beefs according to the local authorities.
