Grandma would have  
**blown a fuse!**

if she could have shopped at a modern store

Nobody had much of an answer for the age-old question "What will we have for dinner?" in Granny's time. She was tied by seasonal products and to the basic ingredients with which she roasted, fried and baked.

Canadian manufacturers have done much towards relieving kitchen drudgery. Better cooking methods, better tools, canned and frozen goods, semi-prepared foods — all have helped to provide the demand of the harassed housewife — LEISURE TIME.

Advertising has made a vital contribution to making prices within reach of all, because advertising makes for mass production and this means lower cost to produce — to sell. Advertising too, provides innumerable answers to "What will we have for dinner?" New recipes, new foods, new menus, new ways to save time and effort.

This newspaper would be quite a different thing without the new ideas, where to buy and for how much, provided by the advertising.
