## Want To Keep YOUR Freedom?

We like to sing about this Canada of ours being "the true North rising free." It is a fine sentiment, and on the whole it has been quite true.

But our freedom is a thing which needs constant care lest it die here as it has died in so many countries throughout history.

We cannot enjoy true freedom as a people unless we insist upon personal freedom. We lose personal freedom, and so contribute to the downfall of all freedom, every time we ask Government to plan or regulate our lives.

Collective bargaining; the right to dispose of our services and our property as we see fit; the right to freedom of assembly, speech and worship — all these we enjoy because freedom-loving individuals fought and, if necessary, died for them.

If we want to keep our freedom we must have the same courage and resolution.
