Modern mechanized equipment has made "muscle-farming" out-of-date

Do it with machines - not with muscles - is the modern concept of farm operation. The work can be done easier, quicker, better, and at less cost the machine way-and there is less worry and less expense when you use machine help instead of inexperienced and costly labor. No man who has experienced the many advantages of operating with modern equipment would want to go back to the days of "muscle-farming."

Some of the greatest advances in mechanization in the history of agriculture have been made in recent years. Your Massey-Harris local dealer will be glad to give you full details of the complete line of Massey-Harris modern farm machines.
