Propane Gas Sales Prove Its Increasing Popularity

Continuing its spectacular advances of recent years, the Liquefied Petroleum (L.P.) Gas Industry registered an estimated 25.9% sales increase last year. W. A. Bitcon of Superior Propane Limited, Canada's largest L. P. Gas distributor, said recently.

Approximately 4,100,000,000 gallons of the fuel, also known as butane, propane, bottled and tank gas, were marketed in Canada and the U.S.A. compared with 3,254,082,000 in 1950. This is exclusive of the amounts that went into production of aviation and motor gasoline and synthetic rubber.

Quoting figures from an industry survey, Mr. W. A. Bitcon asserted that well over two-thirds of the 1951 total was used for household, farm and direct motor fuel applications. The remainder was consumed for industrial, chemical manufacturing and miscellaneous purposes.

Considered by many as one of the fastest-growing industries in the nation today, the L.P. Gas business is now bringing the comforts and conveniences of modern gas service to millions of homes in farm, small town and suburban areas. In 1951 alone, the survey shows, an estimated 470,000 cooking ranges were produced specifically for use with L.P. Gas. An additional large number manufactured for other gases were adaptable to L. P. Gas with minor changes and undoubtedly many of them were installed in homes

equipped for L. P. Gas service. Approximately 260,000 of the automatic gas heaters turned out last year were designed for L. P. Gas operation, and substantial percentages of the gas heating equipment, refrigerators, clothes dryers and incinerators also went into the L. P. Gas market.

To save time and money use the "Coming Events" column of The Liberal. It tells people "what, when and where" cheaply and quickly. Telephone Richmond Hill Turner 4-1261.

U.N. Tests Millions of Children for TB

This boy from Lucknow, India, is the seven millionth child to be tested for tuberculosis in the BCG campaign which the United Nations International Children's Emergency Fund (UNICEF) and the World Health Organization (WHO) are assisting in India. Thus far nearly 2,500,000 children have been vaccinated. By the end of 1953 it is hoped that there will be 100 teams working in all of India's 26 states. Pulmonary TB is one of India's worst health problems.
