

The Don Valley Conservation Authority

Suggests to the residents of the Don Valley Watershed Area that their wasteland can also produce a crop — A CROP OF TREES IN PERPETUITY. A forest area controls erosion, regulates water flow, supplies a home for birds and wildlife, creates a recreational area and increases the general value of the land.

WRITE NOW for an application form to the Reforestation Division of the Ontario Department of Lands and Forests, Parliament Buildings, Toronto, Ont. Please do not apply for tree seedlings for hedges or other ornamental purposes.

Conserve what is yours, the Don Valley Watershed.
