**"My son has chosen banking"**

When a bank manager retired last year, he wrote his General Manager to tell why he was proud his son also had chosen a banking career:

"I shall always recall my banking days with pleasure and I cannot think of any other occupation that gives one a greater opportunity to meet people and form lasting friendships. I have been privileged to serve the bank in three provinces... That my son has chosen banking is also a great satisfaction to me. He is most anxious to make good on his own account."

Any young man on the lookout for an interesting and worthwhile career—for opportunities to grow and get ahead—should take a look at banking. Have a talk with the bank manager in your neighborhood branch. It may well prove an important turning point in your life.
