SUPER GREENS

"Steady 80% Production with Super Greens Pellets"

says John Waltz, St. Mary's, Ontario,

Three or four pounds of Super Greens Pellets per hundred birds have been fed each day to our flock all during the winter. Super Greens Pellets seem to have the extra something required to keep the birds in

good health while laying heavily. They have been laying since last October and at a steady 80%.

We used to wet mash our flock at noon but Super Greens Pellets are much handier and do a better job.

FUL-O-PEP Super Greens Pellets a
