Teachers and officers of Headford Sunday School met at the home of Mrs. Cummer Lee one evening last week to discuss ordering of supplies for next year. It was decided to organize a nursery class and it is hoped that parents of nursery age youngsters will give their co-operation and support.

Mr. and Mrs. Chas. Porter visited at the Acreman home last Sunday.

The November meeting of Vellore Sr. Women's Institute was held at the home of Mrs. O. Diceman. Life In Canada One Of Ease Says Traveller From Thornhill

By Mrs. D. Ball
"Upon my return from spending this past summer in Europe the first statement I made when I got onto the boat train at Quebec was — thank God for the Canadian way of life," was the comment of Mrs. F. A. Brennan of Yonge St., Thornhill, when asked about her holiday abroad.

"There are many reasons for saying this," she continued. "The sight of a drinking water tank and paper cups in our Canadian train was indeed a welcome one. This for example is one of the many conveniences we take for granted."

"In France when I asked for a drink of water I usually got one, but with it a queer look, as much as to say — you'll be sorry. I was. I would have saved myself a lot of discomfort had I taken a mouthful of wine instead. Since wine is their national drink I guess they're not interested in whether the water is pure. In the hotels there was no soap and the one towel available was no larger than a man's handkerchief. If I wanted to take a bath the chambermaid would make the necessary arrangements, which would be extra on my bill."

No Housewife's Heaven

"In Italy as well as in France the housewife's lot is a difficult one. For example let's take one of the everyday chores of the mother — the family wash. In the lowlands where there are rivers, such serve as her washing machine. In the mountain regions a trough in the centre of the village serves the same purpose. Water which is needed indoors has to be carried from this same trough to the house."
