## Slaughterhouse Hockey League

Results of games played Friday night, January 16, in Woodbridge Memorial Arena.  
 Robinsons 6 — Farmers 1  
 Ebenezer 5 — Maple 2  
 Edgeley 3 — Legion 3  
 Elia 6 — Sunset 0  
 Edgeley's 3-3 tie with Legion now gives them only a 1 point lead in first place over the fast moving Ebenezer team.

The first period was lagging in action at the start. Edgeley scored the only goal in that period, being a good combination of Mart Hedges on a pass from Alan Bag. The play was clean and only one penalty was handed out, and that went to Ab. Foster of Edgeley.

**Second Period**  
 In the second period, Edgeley increased the lead over a not too alert Legion team. The second goal was by Ron Keffer from Doug. Keffer in a scramble around the Legion net after numerous shots. The third Edgeley goal was by Mart Hedges on a solo effort, but Legion started checking and soon scored to put themselves back in the game. Only one penalty in the second period went to Legion for tripping Jack Fallows when he was in the clear.

**Third Period**  
 When the third period started, it was evident the Legion was on a determined march. The second Legion goal was due to combination of Edgeley's laxity and Legion's determination, a long shot but high against the board of the south-end, to bounce out in front of the goal where it laid unnoticed until a Legion player swatted it past the surprised goalie. This gave Legion renewed hope and they soon pressed home their new found advantage on a floundering Edgeley team, but Edgeley managed to stem the tide and came out with a tie. There were numerous occasions in the last period when the Edgeley goalie, Jim Bagg, saved them from defeat.

**Elia vs. Sunset Game**  
 First Period  
 The play was close with hard checking at first, with only one penalty, it going to Savage of Sunset for tripping.

**Second Period**  
 Jack Law took a pass from brother Earl to put Elia one up. Ken Jackson added another from Lloyd Thompson. Bill Pollock and Ken Jackson got the gate for boarding and elbowing.

**Third Period**  
 Elia got four more. Earl Marchand from Ken Jackson, Jack Law from Earl Law, Roy Thompson from Ken Jackson, Bill Pollock got two minutes for holding, ten minutes for speaking. This was the second shut-out for Tom Drewey. Both lines of Elia team were going well. Jack Law was moved to centre and showed some great stick-handling. The defence was also strengthened.

**Goal, Tom Drewey; defence Al Jackson, Jim Browning, Bill Pollock, Jim Jackson; centre Ken Jackson; wings, Roy Thompson, Lloyd Thompson; alternates, Jack Law, Earl Law, Jim Brillinger, John Sangwin, Earl Marchand, Harold Jackson.**

**Team Standings January 16**

Team	P	W	L	T	Pts.
Edgeley	9	7	1	1	15
Ebenezer	9	7	2	0	14
Elia	8	6	2	0	12
Robinsons	9	4	4	1	9
Maple	9	4	5	0	8
Legion	9	2	4	3	7
Sunset	9	2	7	0	4
Farmers	8	1	7	1	3

**Schedule Remainder of 2nd Round**  
 January 23 —  
 Robinsons vs Ebenezer  
 Legion vs Sunset  
 Elia vs Edgeley  
 Farmers vs Maple

### Buddy Youngberg Injured

Word has been received that Buddy Youngberg popular young hockey player who is spending this season with the Kitchener Junior "B" team has been laid up with a broken wrist. Buddy will be well remembered by local residents for his spectacular play with last years Richmond Hill Juvenile team.

### Maple Bowlers

High men Thursday, January 23 were Al Rach 720, Alex Strachan 656, Lorne Wells 619, Roy Horn 617 (triple games).  
 Dean Quinton's team still leads with five points and Ed Walker's team second with 4 points.

## High School Wins Two In Basketball Tripleheader

The local cage quintets journeyed to Aurora's "dream gymnasium" to raise the curtain on the COSSA league. The Rhillers were edged in a heartbreaker 30-29. The Juniors had little trouble in disposing of the Aurora Juniors by the score of 48-17. The newly formed Midgets racked up a win by coming out on top with a 16-12 score.

**Half-Time Lead Cut**  
 The Rhillers learned the hard way that the team which makes the fewer mistakes will win the ball game. Basketball is a game of ball control and the Rhillers forgot this just long enough to see their half time lead of 19-11 dwindle to a one point deficit at the final gun. The high school squad brought up Grainger and Dedlow from the Juniors to help their cause and they scored 6 and 2 respectively.

Aurora used a 2-1-2 zone defense with a "mid-court" press which was very effective on their huge court. The Rhillers used their shifting 1-3-1 mainly to conserve their strength. At the time of this writing the local high school team has been reduced to only six players as the Christmas Exam results took their toll. Busby of Aurora with 10 points was the main cog in the Bombers' attack, closely followed by Jans' 9-point effort. Tom Ewart, the Rhiller captain, came through with 9 and John Kingston hooped 6. The return game should be a thriller with both teams having won a game from each other by a point margin.

It was R.H. Junior basketballers all the way as they whitewashed Aurora 48-17. The powerful first line went to work and built up a comfortable lead and then the reserves went on to hold the lead but fooled everybody by increasing it. Lak, Butters, Easton and Osmond started swishing the net on every excursion down the court. If they keep this inspiring hustle up, who knows, we may go places. Clark Dedlow, is rapidly developing into a red hot pivot man as he guided traffic in the keyhole and registered 9 points before the reserves took over to finish the game. Coach Ellis was worried about Ron Geddes the Aurora's high scoring whiz. Ace Jones, hard working local guard went out on a limb when he said that Geddes would be held scoreless by him. Well the frustrated Ron finished the game with no points and Jones looks like a born "neutralizer".

The midgets had a shaky first half which produced little scoring and found that they were behind 6-3 at the half. The game produced the usual multitude of violations which always come when the youngsters enter big time competition.

### Maple Ladies Bowling

Teams of Maple Ladies bowling on Monday, January 26 are 3 vs 5 and 4 vs 6. High lady for Monday, January 12, was Ina Sheppard with a score of 240 for one game and Det Palmer with a score of 591 for three games.

### HIGHLAND PARK BOWLING

On Wednesday, January 14, Ivor Francis still had high average for men at 213, and ladies Lisa Fleming and Kay Williamson tied with 167. Weekly prize-winners were Irene and Joe McPherson, Team standings in the new series are Francis Flyers, still leading with 12 points. Bell's Beauties 9 pts., Ritchie's Roamers and Gazeys' Groaners, 7 pts. Floyd's Flock, 5 pts. and Minor's Midgets, 2 pts.

### Skill Development Plan Pays Off (Part 2)

Last week we gave you a development plan designed to help those of you who play forward in hockey. This week we are going to deal with development plans for defensemen and goalkeepers.

Here's the set-up for defensemen: skating is also first on his list, although he must work on slightly different angles such as skating backwards, gliding from side to side and so on. In second place is body blocking and body checking. In third place stick-checking; in fourth place, passing; in fifth place, strategy and tactics; in sixth place, shooting; and finally, puck-carrying and stickhandling.

Here's the list for goalkeepers: first comes watching the puck-keep your eyes on it at all times; second, getting the body in front of the angle of the shot; third, learning to effectively use both hands to stop and catch shots; fourth, use of legs, feet and stick; fifth, clearing the puck from the goal mouth; sixth, developing speed and agility of movement up and down, from side to side and finally, style, form and smoothness of movement.

Well, there are the lists of the fundamentals on which you should work, in the order of their importance. Next week we'll continue with this "skill development" plan by dealing with how much time you should give to each part of your game and how you can go about working on them to get the best results. We will also show how a coach can use a similar plan of improvement for his whole team. So make sure you follow your favourite newspaper for further tips and hints on how to reach the top of the ladder in your sport.

### How Important Is Foul Shooting?

Every expert coach will tell you that a basketball player who has developed great accuracy at sinking foul shots is always one of the real "game winners". Then, too, a player who cannot sink his foul shots regularly is actually a handicap to the team because he is depriving his team of points that can win the game. The record book shows that a team that scores on 75% or more of its foul shots is usually a leading team. Another important point to remember is that if your team accuses the reputation of being able to sink most of your foul shots your opposition will be very careful about guarding too closely or roughly, thus giving you more chances to score.

Take a tip and really work on this phase of your game and help your team win.  
**Avoiding Athletic Injuries.**  
 When an injury occurs the very first and most important thing to

do is to try to find out just how serious the injury is. Unfortunately, this all-important rule is the one that is most frequently overlooked. The tendency is to get the injured player off the playing area and get on with the game as quickly as possible, or to take an overly optimistic view saying, "Oh, he's all right, it's just his wind!". Remember, the first duty is toward the injured player - so, let's make sure he is taken care of properly, making certain his future life, his health, and ability to move around properly, and to enjoy life for a normal period of time, is not affected.

## No Practise On Sun. Say Councillors Jack Rice & Wes. Middleton

"I'm opposed to hockey practise on Sunday on general principles and I go on record as being so," said councillor Middleton when councillor Rice at Monday's meeting of Richmond Hill council stated that he had been asked for Sunday practise time for the local hockey club. "We can cut out some of the outside stuff and give our own boys the time for practise," said Mr. Middleton.

"I'm opposed to it too," added Mr. Rice. "On Monday night we can postpone adult skating until 8 p.m. and give the boys from 6.30 until 8, which gives them 1 1/2 hours of practise."

"I can't say I'm opposed to practicing on Sunday," said Deputy Reeve Tomlin. "I fish on Sunday."

"When the public pays 35 cents to skate they should get the best ice possible to skate on," said councillor Perkins. "If they play hockey beforehand it might cut up the ice."

"Ross Casement said it wouldn't make that much difference," said councillor Rice. Last year in February there was only a mere handful out on Mondays.

The question of the figure skating class was mentioned with councillor Rice remarking that he had heard criticism that the figure skating should pay for use of arena.

It was decided to give practise time to the local hockey club on with public skating postponed until Monday between 6.30 and 8 p.m. until 8 p.m.

## Profitable Dairy Cows

More Essential Now Than Ever

Due to years of cultivation and growing of crops the soil becomes depleted of many necessary minerals, etc., consequently many grains do not contain adequate nutritive value. This is one reason for the need of supplementary feeds to make a properly balanced ration for dairy cows.

You can't get milk without feed. The more a cow will eat the more milk you will get. But the feed must be properly balanced and contain the necessary amounts of vitamins and minerals as well as proteins and carbohydrates.

To make more money, keep only well bred cows and feed them to the limit with Blatchford's Dairy Meal which is very palatable, contains abundant quantities of all the essential vitamins, minerals and is the most economical feed you can buy.

**Within An Hour... Someone Will Be Burned To Death**

America's annual sacrifice to fire is 10,000 human beings and three hundred million dollars worth of property. The frightful loss of life averages about 30 people per day — more than one an hour. Most of the victims are women and children.

We all fear fire and particularly dread the idea that a fire may break out while we are sound asleep and that we may be overcome by smoke and burned to death.

Sleeping families — women and children — helplessly trapped in their homes — perish in the night. They didn't expect the fire any more than you expect one. Had these fires been discovered when they started, it would perhaps have been a different story — probably no story at all. If you have never experienced the shock of standing helpless while a fire consumes your home and possessions, you cannot realize what a feeling of security one has when a proper equipment is installed to immediately give you warning that fire has started.

"THE GARDSMAN" Fire Detector and Alarm doesn't give a fire a chance to gain control — it sounds a loud alarm almost as soon as a predetermined heat is reached. "THE GARDSMAN" is a Fire Detector and Alarm complete in itself that does not depend on the human element to start your home, without cost or obligation.
