"Growth was exceptional—mortality very low—on FUL-O-PEP!"
says Jas. Pilkington
Dear Sirs: We fed Ful-O-Pep Chick Starter this year and enjoyed exceptional results. In fact, some visitors hesitated to believe us when we told the age of the birds as they looked over our growing flock. Growth was exceptionally good and we enjoyed very low mortality figures on a flock of 1600 birds. (signed) Jas. Pilkington, Mt. Brydges, Ont.

Extract from Canada's Veterans Charter
Veterans making application to the Department of Veterans Affairs under any of the Acts of Parliament relating to Veterans should make their application to the District Office. This is because the Veteran's File with all necessary information is in the District Office where he lives. It is also necessary because in practically all cases the District Office is the agency which decides on the veteran's application. Only most unusual cases are referred to the Head Office in Ottawa, and normally making application directly to the Head Office only results in delay.
In making application for any assistance or for information, it is important that the Veteran include his regimental number in the letter. This is because with 1,300,000 veterans in Canada duplication of names is not unusual, and to provide accurate information it is essential that the veteran's file be examined. To find a file by name only may be a most difficult problem. Supplying of the Regimental Number simplifies this very much.
Veterans who want to secure more details of any particular grant or form of assistance must make application to the nearest office of the Department of Veterans Affairs, 55 York St., Toronto.
The Executive of the Dominion and Provincial Commands of the Canadian Legion are making a strong appeal to all Legion members for financial support to aid the Flood Victims of England and Holland. This can be done through your nearest local chartered bank.
