In York County Court on Tuesday morning Harold Nesbitt, faced a charge of dangerous, careless driving and failing to remain at the scene of an accident. He was remanded till July 30 on \$1,000 bail.

Ernie Seal of Wilcox Lake had a narrow escape from what might have been a serious accident to himself and many others travelling behind him, when the engine in his truck stalled and the air brakes failed while climbing a steep hill some 20 miles east of Kenora last Thursday.

Doing some quick thinking he managed to jack-knife his tractor trailer across the road, which at this point is a built-up road with a 60 foot drop on both sides. The heavy cables and posts held his truck and only a crushed fender resulted.

Mr. Seal was warmly commended for the way in which he averted what could have been a serious accident on this heavily travelled road. The Kenora papers and the Winnipeg radio station both carried an account of the mishap. The truck was loaded with shingles at the time.

The Liberals say they can't cut your taxes!

WE CAN... WE WILL!

the Main Issue in this election is **YOUR MONEY!**

We will budget for Government's legitimate needs... we will stop budgeting for bloated surpluses which—in three years—took from the people's pockets the staggering sum of \$1,618,000,000 more than the Government needed.

We will, without impairing the efficiency of our Armed Forces, correct the appalling inefficiencies in the administration of the Department of National Defence.

We will end the shocking conditions in our Defence Department which the Government's own investigator, (Col. G. S. Currie) described as: "A general breakdown in the system of administration, supervision and accounting... Accounting records in a chaotic condition and of little use in determining the nature and extent of irregularities... Waste and inefficiency far more costly in loss than that covered by actual dishonesty".

We will provide the nation with an administration whose attitude towards the spending of public monies will be one of prudence and common sense. A new Government in itself will mean substantial savings to the taxpayer—it will replace a Government whose arrogant indifference to economy was best expressed by Mr. Howe's scornful remark, "What's a Million?". Or, "If they need a gold-plated piano it is our duty to buy it".

We will reduce or eliminate countless hidden, indirect taxes which grossly inflate the cost of consumer goods, add to the grievous cost of living, increase the price of homes beyond the capacity of most of our people to pay, discourage saving and initiative.

We will reduce federal taxes by at least \$500,000,000 a year... without reducing any pensions, family allowances, or other social security payments.

\$500,000,000 TAX CUT NOW!
