**9 LITTLE PIGS WENT TO MARKET**

Hog production can be made more profitable. Well-fed sows will wean an average of 9 pigs per litter — 9 pigs that will hang up 1300 or 1400 pounds of pork in 6 months or less.

Litters like that are profit producers.

It can be done.

At the SHUR-GAIN Farm, 9 pigs reach market weight from every litter farrowed — 3 more than the average for the country.

Balanced feeding makes the difference. SHUR-GAIN Sow Ration has been tested and proven under Canadian farm conditions. It is fresh and highly palatable because it is manufactured locally. Local manufacture also eliminates freight costs and middleman profits.

For economy in hog production — for economy in production of all of your livestock — feed SHUR-GAIN.
