Residence By-Law Ignored

Formation Of The Rouge River Authority Discussed At The Whitchurch Township Meeting

L. Haines of Box Grove appeared before Whitchurch Township council last Thursday to discuss the formation of a Rouge River Conservation Authority. Before forming an Authority it is necessary to approach all councils in the valley area, in this instance, Pickering, Scarborough, Markham, Whitchurch, and to a small degree King and Vaughan Townships. Markham has approved the idea and last week Whitchurch signified it would be interested.

Lorne Evans Whitchurch Township's representative on the Upper Holland River Authority and also on the Humber Authority, was present and contributed a great deal to the discussion from his experience of the problems involved. He pointed out an Authority can stop pollution before it occurs and named the case of the Don River, in which \$100,000 was spent to clean it up after it had been polluted. Mr. Evans stated that a picture "Our Valley" made by the Humber Valley Conservation Authority will be shown at Vandorf in the Community Hall early in November.

Constable Mulholland reported to council that following the instructions given him he had in-

terviewed the Crown Attorney regarding the prosecution of Township residents who were contravening township by-law 1334 which states that summer cottages may not be used for year round residence. Councillor Legge said "This has got to be a serious thing. In the Township Township schools are all overcrowded. One man told me he had taken his children to three schools in one day and they had been refused admittance at each one because there simply was no more space for desks." Clerk John Crawford was instructed to proceed with a prosecution.

This by-law has been publicized but is being ignored. A final cost on the North Lake Wilcox Road was received. The amount is \$28,676.23. This road, started three years ago as a local improvement was to have cost \$11,000 but an expensive drainage problem was encountered which resulted in the above cost. The Yonge Street culvert which is the west end of the drainage ditch is still waiting to be lowered. King Township council will be asked to share in the cost which is \$1,000. That township will benefit by proper drainage which this ditch supplies.

The High School Area Boards met with Jack Crawford on Wednesday night in a further attempt to adjust boundaries of the High School areas in the township so that no overlapping of busses would occur. It is a matter of switching some assessments to one area or the other and some further discussions will have to take place.

Opening Rich. Bowl

(Continued from page 1)
moisture and stress in the wood is controlled.

The Gutter is prefabricated at the manufacturers as are the Pit Cushions, Settees, etc. The balls used today are a synthetic compound with a rubber base and these are cut down from blocks at the Brunswick Company and made into perfect spheres. The Pins are once again of number 1 hard white, mineral free, maple and are shaped on various lathes and many different types of machines and then coated with white lacquer. The Bands are made of pure crude rubber and the people in the trade are most happy to have this type of band available once more.

The alleys, after they are built-up and laid down, are sanded with a revolutionary type of machine that is as close to self-operating as can be conceived. The machine is controlled by a "brain" that controls the stress of the sanding belt as it goes along, and when the work is completed the alleys are within 4/10,000 of one inch of overall level. This is considerably better than the scope given to the Brunswick Company by the ruling bodies in the sport, but because of this fabulous sander they are in a position to offer the bowling public these ideal conditions. After sanding the alleys they are coated with five coats of lacquer, being sanded in between each coat, and finally buffed and polished with a special type of floor machine.

The new building built by the Aurora Bowling Company is an attractive addition to the business section of Greater Richmond Hill, and the bowling alleys have been hailed as a welcome addition to the district's recreational facilities.

Ned Hill, manager of The Richmond Bowl, reports that there is still accommodation for additional league bowling, and that there will be open bowling every afternoon, as well as all day every Saturday. Full particulars of playing schedules will be released at any early date.

On T.V. For Malvern Reunion

Mrs. A. W. Powell of May Ave. was among the 2,000 old boys and girls who gathered at Malvern Collegiate for the Golden Anniversary celebrations.

Mrs. Powell, who was the former Gayle Gaynor, was the first pupil to be registered on the roll and she was one of the committee who chose the colours in 1903. Mrs. Powell appeared on CB LT's news programme of the event on Monday evening.

BUSY LEASURE HOURS

When making plans for retirement, an interesting hobby that will occupy minds and hands as a substitute for the present job should be considered. This planning should be done well in advance of the time when there will no longer be a busy day's work ahead. By starting the hobby early, the hobbyist is able to collect the necessary equipment when he probably has more money to spare for such purchases. Many useful crafts are taught at night schools, where age is no consideration. The earlier the crafts are learned, the more skilled the hobbyist will become.

Your New

TELEPHONE DIRECTORY

and...your

personal
TELEPHONE NUMBERS BOOKLET

The new Telephone Directory for Richmond Hill and Thornhill will be delivered next week. It will contain many new and changed numbers, not only for Richmond Hill and Thornhill, but also for Newmarket, Aurora, King, Maple, Markham, Roche's Point, Schomberg, Sutton, Unionville and Uxbridge. As soon as you receive your copy, be sure to destroy your old book.

With your new directory you will also get a handy Personal Telephone Number Booklet — to help you enjoy better, faster service. By keeping your personal list of frequently called numbers at your fingertips you save time and trouble — and you get your calls through faster.

Merchants Ask For Hardtop Surface On Yonge St. Blvd.

Richmond Hill merchants from the Canadian Bank of Commerce to Mansbridge Meat Market on the east side of Yonge St. approached Reeve W. J. Taylor stating they were agreeable to dig the boulevard in front of their stores if council would supply the hardtop surface. Since this project would bring council over its budget it was agreed on Monday night to hold the matter over for next year's council when it could be included with the other estimates.

"It's a good idea," said councillor Middleton, "but we can't do it this year. It would cost us \$100, and would bring us over our budget. Leave it until next year." Council backed the Planning Board's original plan of the village, several parts of which the Department of Planning has questioned. The main objection was that the 450 acres set aside for industrial purposes was too great an area.

In a letter to the Department which council approved Richmond Hill Planning Board explained that 100 acres of this 450 are already occupied by greenhouses, therefore only 350 are actually designated for industrial sites. The Board feels this area is not larger than it should be.

Henderson Ave. Sch.

(Continued from page 1)
to Dr. Althouse for speaking at the official opening of the school and following his speech Mrs. Muriel McDermott, Secretary of the Area Board presented Mrs. Althouse with a bouquet of flowers.

Vice-Chairman of the School Area Board, Jackson Taylor introduced Alan Martindale, Principal of Henderson Avenue School. Mr. Martindale in turn presented his teaching staff to the audience — Mrs. H. Burke, Grade 1; Mrs. C. J. Buckingham, Grades 1 and 2; Mrs. M. Lemon, Grade 2; Karl Kinsinger, Grades 4 and 5. Mrs. B. T. O'Beirn, Grades 3 and 4, was not present due to a death in the family but will resume her duties on November 1. Mrs. M. Stephenson, Richmond Hill and Mrs. Peacock, Thornhill, supplied during Mrs. O'Beirn's absence.

Principal Martindale accepted a Bible on behalf of the school presented to him by Rev. J. V. Mills for the Trustees Association of Ontario of which he is secretary. Prayers of dedication and benediction were led by Rev. S. A. R. Wood and Rev. E. E. Kent. Presents Projector

Mrs. A. O'Brien President of Doncaster Ladies Club, also presented Mr. Martindale with a projector for school use on behalf of the club members who had raised the money to buy this piece of equipment to further the education of the pupils.

Musical Program
Music during the evening was provided by Area Music Supervisor Hugh Martin who conducted his school choir in two selections, Jesu Joy of Man's Desiring, and The Lord Is My Shepherd. A Hallowe'en song was sung as an encore. Mrs. H. Burke rendered "Bless This House" as a solo number. Miss Marjory Jackson accompanied at the piano. Refreshments at the close of the meeting were provided by the Doncaster Ladies Club and the Highland Park Ladies Auxiliary.
