Markham Tp. Property Owners Hear Speakers On 'Swill Bylaw'

This report should be considered a "delayed broadcast" as it has to do with an event that took place on Oct. 20th, viz meeting of Markham Township Property Assn., at Cherry Hill Farm. There were more than 200 present and the meeting was both lively and interesting.

This problem has taken on a very serious aspect because, as the speaker pointed out, swill feeders have been ordered to leave Scarborough Township by the end of 1953 and as Townships of King, Pickering and perhaps Vaughan have prohibited them they will attempt in increasing numbers to locate in Markham.

The young folk of the village are reminded not to forget the Lions Hallowe'en party to be held on Saturday, October 31 at the Lions Hall from 7 p.m. to 8:30 p.m. There's lots of fun in store.

Plan to attend this Saturday's annual bazaar and baking sale of the Mission Circle of the Richmond Hill United Church to be held in the Sunday School room during the afternoon beginning at 3 p.m.

YORK COUNTY HOSPITAL PLANS A \$600,000 Campaign For Funds. York County Hospital at Newmarket must enlarge to a "B" class hospital and is planning a \$600,000 campaign for funds. The board of York County Hospital at a meeting last week discussed the architect's drawings for its hoped for addition which will enlarge the hospital's capacity to 100 beds. Built in 1925, the hospital is now caring for an average of 70 patients every day, and always there is a waiting list. Extra beds are made possible by putting five beds in wards that should have only three and by putting patients in corridors. The original kitchen built to care for 25 patients is still in use and is serving the 70 patients plus the staff every day. The plans presented to the board and the press include a wing to be built to the south of the present building with a basement and two stories 135 feet long and 43 feet wide. In the basement will be the kitchen, cafeteria for the staff and storage and ambulance entrance at the rear. The ground floor will contain 31 male beds and four pediatric and four recovery beds. The second floor will have 31 maternity beds, 20 general female and 32 cubicles for babies. This wing will also contain a new elevator. The main entrance will be moved from the front to the side of the building and the administrative offices will be where the ambulance entrance and elevator now are. An admitting room and operating suite will be in the centre wing with an addition to the west to accommodate the new operating theatre. There will be two major operating rooms, one
