40 Winks vs A Good Breakfast

The extra time spent at the breakfast table will do you more good than the last few minutes in bed. A good breakfast will make you feel more on the bit and less easily tired, be you man or woman and be your work mental or physical.

A good breakfast means a moderate, balanced breakfast somewhere between the starving stenographer's coffee and cigarette and the old-time farm breakfast that ran all the way from fried potatoes to pie. A good breakfast includes fresh fruit, a grain cereal, milk, whole grain bread or toast and a hot beverage.
